## Corrigendum

# Corrigendum to “*Aplysiadiol from Aplysia dactylomela suggested a key intermediate for a unified biogenesis of regular and irregular marine algal bisabolene-type metabolites*” [Tetrahedron 62 (2006) 9655]

Inmaculada Brito, Teresa Dias, Ana R. Díaz-Marrero, José Darias and Mercedes Cueto\*

*Instituto de Productos Naturales y Agrobiología del CSIC, Avda. Astrofísico F. Sánchez, 3, Apdo. 195,  
38206 La Laguna, Tenerife, Spain*  
Available online 22 February 2007

The trivial name ‘aplysiadiol’ has been used previously.<sup>1</sup> We are therefore correcting this duplication by changing the name of our compound from ‘aplysiadiol’ to ‘aplysiadacydiol’.

The authors wish to apologize for this oversight.
