Eur. Phys. J. A **11**, 277–278 (2001)

On the left side of fig. 1, the 369.6 keV  $\gamma$ -line should be drawn from the  $(402.3 + y)$  energy level down to the  $(32.7 + y)$  level instead of the  $(129.6 + y)$  level.

We publish hereunder the corrected figure.

**Fig. 1.** Proposed decay scheme of  $^{133}\text{Sm}$ .
