

The European Physical Journal A

Volume 28 • Supplement 1 • 2006

DOI: 10.1140/epja/i2006-09-023-4

■ Foreword

DOI: 10.1140/epja/i2006-09-022-5

■ Many Body Structure of Strongly Interacting Systems

- 1 R.G. Milner
The beauty of the electromagnetic probe
DOI: 10.1140/epja/i2006-09-001-x
- 7 L.S. Cardman
Physics at the Thomas Jefferson National Accelerator Facility
DOI: 10.1140/epja/i2006-09-002-9
- 19 W.U. Boeglin
Few-nucleon systems at MAMI and beyond
DOI: 10.1140/epja/i2006-09-003-8
- 29 D. Rohe
A1 and A3 Collaboration
Experiments with polarized ^3He at MAMI
DOI: 10.1140/epja/i2006-09-004-7
- 39 M. Schwamb
Few-nucleon systems (theory)
DOI: 10.1140/epja/i2006-09-005-6
- 49 H.-W. Hammer
Nucleon form factors in dispersion theory
DOI: 10.1140/epja/i2006-09-006-5
- 59 S. Scherer
**Chiral perturbation theory
Success and challenge**
DOI: 10.1140/epja/i2006-09-007-4
- 71 M. Vanderhaeghen
Two-photon physics
DOI: 10.1140/epja/i2006-09-008-3
- 81 M. Ostrick
**Electromagnetic form factors of the nucleon
Experiments at MAMI**
DOI: 10.1140/epja/i2006-09-009-2
- 91 H. Schmieden
**Photo- and electro-excitation of the Δ -resonance
at MAMI**
DOI: 10.1140/epja/i2006-09-010-9
- 101 S. Kowalski
Parity violation in electron scattering
DOI: 10.1140/epja/i2006-09-011-8
- 107 F.E. Maas
**Parity-violating electron scattering at the MAMI
facility in Mainz
The strangeness contribution to the form factors
of the nucleon**
DOI: 10.1140/epja/i2006-09-012-7
- 117 N. d'Hose
Virtual Compton Scattering at MAMI
DOI: 10.1140/epja/i2006-09-013-6
- 129 H. Merkel
Experimental tests of Chiral Perturbation Theory
DOI: 10.1140/epja/i2006-09-014-5

- 139 W. Hillert
**The Bonn Electron Stretcher Accelerator ELSA:
Past and future**
DOI: [10.1140/epja/i2006-09-015-4](https://doi.org/10.1140/epja/i2006-09-015-4)
- 149 A. Jankowiak
The Mainz Microtron MAMI —Past and future
DOI: [10.1140/epja/i2006-09-016-3](https://doi.org/10.1140/epja/i2006-09-016-3)
- 161 A. Thomas
The Gerasimov-Drell-Hearn sum rule at MAMI
DOI: [10.1140/epja/i2006-09-017-2](https://doi.org/10.1140/epja/i2006-09-017-2)
- 173 R. Beck
Experiments with photons at MAMI
DOI: [10.1140/epja/i2006-09-018-1](https://doi.org/10.1140/epja/i2006-09-018-1)
- 185 W. Lauth et al.
Coherent X-rays at MAMI
DOI: [10.1140/epja/i2006-09-019-0](https://doi.org/10.1140/epja/i2006-09-019-0)
- 197 M. El-Ghazaly et al.
X-ray phase contrast imaging at MAMI
DOI: [10.1140/epja/i2006-09-021-6](https://doi.org/10.1140/epja/i2006-09-021-6)
- 209 B.A. Mecking
**Twenty years of physics at MAMI —What did it
mean?**
DOI: [10.1140/epja/i2006-09-020-7](https://doi.org/10.1140/epja/i2006-09-020-7)

Many Body Structure of Strongly Interacting Systems

Refereed and selected contributions
from the symposium

“20 Years of Physics at the Mainz Microtron MAMI”

Mainz, Germany

October 19-22, 2005

edited by

H. Arenhövel, H. Backe, D. Drechsel, J. Friedrich,
K.-H. Kaiser and Th. Walcher
