Excitons in quantum wires

M. Combescot and T. Guillet

Groupe de Physique des Solides, CNRS, Universités Pierre et Marie Curie et Denis Diderot, 2 place Jussieu,
75251 Paris Cedex 05, France

Eur. Phys. J. B **34**, 9 (2003)

Received 13 November 2003

Published online 2 April 2004 – © EDP Sciences, Società Italiana di Fisica, Springer-Verlag 2004

Due to a technical error *The European Physical Journal B*, Volume 34 contains on page 9 the first version of a paper by M. Combescot and T. Guillet entitled “Excitons in quantum wires” instead of the accepted final version. This first version is therefore withdrawn and replaced by the accepted final version which is printed here. Following this page the article will be printed again with its original page numbers.
