

Erratum

Vibronic state specific predissociation rates from excited electronic states

H. Hornburger and M. Melzig

Max-Planck-Institut für Quantenoptik, 85748 Garching bei München, Germany

Eur. Phys. J. D 7, 173–180 (1999)

The first part of the figure caption of Figure 3 was erroneous. The corrected caption should be replaced by the following.

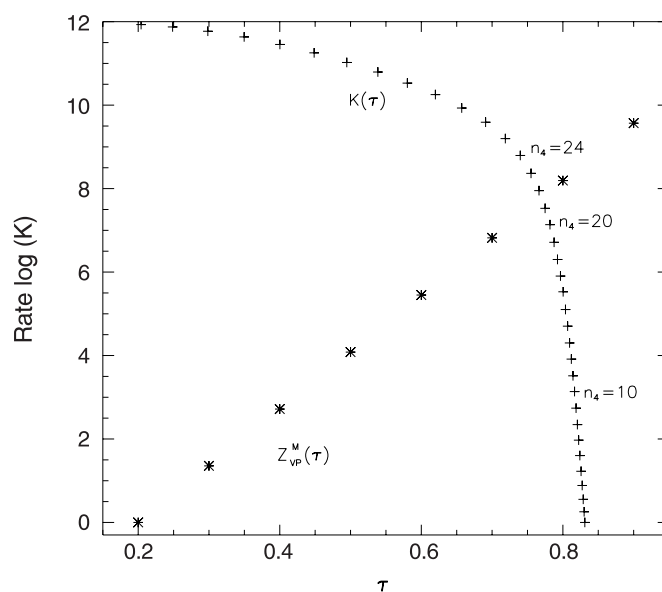

Fig. 3. Relative nonradiative rate (Eq. (1)) $K = k_{\text{nr}}(E_{\text{ex}})/k_{\text{nr}}(E_{\text{ex}} = 0)$ of the ν_4 progressions (crosses) and $Z_{\text{VP}}^{\text{M}}(\tau)$ (Eq. (6)) (stares) as function of the correlation parameter (saddle-point parameter) τ .
