## Short Courses

### FALL INSTITUTE IN SCIENCE AND TECHNOLOGY

October 10—October 24, 1979

State University of New York

#### October 10-12

“Polymer-Polymer Composites: Blends, Grafts and Blocks”

Course Coordinator—Dr. Roger S. Porter, Professor and Co-Director, Materials Research Laboratory, University of Massachusetts, Amherst, Massachusetts.

#### October 15-19

“Scanning Electron Microscopy and X-Ray Microanalysis: Theory and Practice in Materials Science, Biology and Medicine”

Course Coordinator—Dr. Oliver C. Wells, IBM Thomas J. Watson Research Center, Yorktown Heights, New York.

#### October 22-24

“Fundamentals of Adhesion: Theory, Practice and Applications”

Course Coordinator—Dr. K. L. Mittal, IBM Corporation, East Fishkill, New York.

For further information, contact:

Dr. Angelos V. Patsis  
Chairman, Department of Chemistry  
State University of New York  
New Paltz, New York 12562  
(914) 257-2175

**SHORT COURSE NO. 397**

## **Fibrous Composite Structures**

**December 11-14, 1979**

**George Washington University, Washington, D.C.**

This course is designed to familiarize engineers and research workers with the principles of fiber-reinforced composites and their application to structural design.

The course will give a balanced treatment of the mechanics of fibrous composite components and structures, and their structural analysis, design, testing and fabrication. Topics to be covered include micro- and macro-mechanics of composites, strength theories for composites, analysis, design and manufacturing techniques for composite structures.

**Prerequisite:** A degree in engineering, science of allied areas.

**The fee is \$510.**

For further information, please write to the Director, Continuing Engineering Education, George Washington University, Washington, D.C. 20052 or call (202) 676-6106 or toll free (800) 424-9773.
