## Note from the Editor

We are pleased to report that we have made a reciprocal agreement with the China Journal "CHEMISTRY AND ADHESION", through its Editor Mr. Wang Zhilu of The Institute of Petrochemistry, Heilongjiang Academy of Sciences, to publish abstracts of the papers appearing in that Journal on a regular basis in THE JOURNAL OF ADHESION. In return, CHEMISTRY AND ADHESION will publish abstracts of papers appearing in THE JOURNAL OF ADHESION on a regular basis.

We believe that this arrangement will broaden our interest to readers and significantly increase their awareness of what is happening in the field of adhesion in China. We also believe that exposure of the work of our authors to a large new audience of scientists and technologists in China cannot help but be of some value to both sides.

The first set of abstracts under this agreement, for Issue No. 2 of 1986, follows.

We would like to thank Dr. L.-H. Lee, Xerox Corporation (and a member of our Advisory Board), for his help in making this possible.
