# International Symposium on Contact Angles and Wetting Phenomena

Sponsored by the Society of Chemical Industry in association with the Division of Colloid and Surface Chemistry, American Chemical Society and the International Association of Colloid and Surface Scientists

June 21-23, 1990, University of Toronto, Toronto, Canada

### **Technical Contents and Invited Speakers**

The Symposium will consist of a series of invited lectures and a poster session. The lectures will deal with topics related to the following areas of current research:

- ---dynamic contact angles
- ---wetting films
- -microscopic approaches to contact angles
- -effect of molecular structure on contact angles
- —line tension
- -critical point wetting phenomena
- -wetting of porous media
- -measurement techniques
