

MOLECULAR BIOLOGY

Structure and Function of Genes and Other Genetic Materials

- Multiple Actin-Related Proteins of *Saccharomyces cerevisiae* Are Present in the Nucleus M. Harata, Y. Oma, T. Tabuchi, Y. Zhang, D.J. Stillman, and S. Mizuno 665

Regulation of Gene Expression

- Genetic Characterization of *rbt* Mutants That Enhance Basal Transcription from Core Promoters in *Saccharomyces cerevisiae* T. Kunoh, T. Sakuno, T. Furukawa, Y. Kaneko, and S. Harashima 575

Molecular Genetics

- Synthesis and Characterization of the Spore Proteins of *Bacillus subtilis* YdhD, YkuD, and YkvP, Which Carry a Motif Conserved among Cell Wall Binding Proteins T. Kodama, H. Takamatsu, K. Asai, N. Ogasawara, Y. Sadaie, and K. Watabe 655

CELL

Muscles, Cell Motility, and Cytoskeleton

- Solution Structure of Myosin-ADP-MgFn Ternary Complex by Fluorescent Probes and Small-Angle Synchrotron X-Ray Scattering S. Maruta, T. Aihara, Y. Uyehara, K. Homma, Y. Sugimoto, and K. Wakabayashi 687

- Conformational Changes in the Unique Loops Bordering the ATP Binding Cleft of Skeletal Muscle Myosin Mediate Energy Transduction S. Maruta and K. Homma 695

Receptors and Signal Transduction

- Mouse T-Cell Antigen Rt6.1 Has Thiol-Dependent NAD Glycohydrolase Activity N. Hara, M. Terashima, M. Shimoyama, and M. Tsuchiya 601

BIOTECHNOLOGY

Gene and Protein Engineering

- Enhanced Thermostability of the Single-Cys Mutant Subtilisin E under Oxidizing Conditions H. Takagi, K. Hirai, M. Wada, and S. Nakamori 585

CONTENTS Rearranged According to Subject Categories, Vol. 128, No. 4

BIOCHEMISTRY

Biochemistry General

- Fibrinogen Binds to Integrin $\alpha_5\beta_1$ via the Carboxyl-Terminal RGD Site of the A α -Chain K. Suehiro, J. Mizuguchi, K. Nishiyama, S. Iwanaga, D.H. Farrell, and S. Ohtaki 705

Biomolecular Structures

- The Role of Structural Intersubunit Microheterogeneity in the Regulation of the Activity in Hysteresis of Ribulose 1,5-Bisphosphate Carboxylase/Oxygenase K. Uemura, N. Shibata, Anwaruzzaman, M. Fujiwara, T. Higuchi, H. Kobayashi, Y. Kai, and A. Yokota 591

Glycobiology and Carbohydrate Biochemistry

- Kinetic Basis for the Donor Nucleotide-Sugar Specificity of β 1,4-N-Acetylglucosaminyltransferase III Y. Ikeda, S. Koyota, H. Ihara, Y. Yamaguchi, H. Korekane, T. Tsuda, K. Sasai, and N. Taniguchi 609

- Autoantibody Activity of IgG Rheumatoid Factor Increases with Decreasing Levels of Galactosylation and Sialylation A. Matsumoto, K. Shikata, F. Takeuchi, N. Kojima, and T. Mizuochi 621

Enzymology

- Stereochemistry of the Transamination Reaction Catalyzed by Aminodeoxychorismate Lyase from *Escherichia coli*: Close Relationship between Fold Type and Stereochemistry K.-H. Jhee, T. Yoshimura, E.W. Miles, S. Takeda, I. Miyahara, K. Hirotsu, K. Soda, Y. Kawata, and N. Esaki 679

Biochemistry of Proteolysis

- Substrate Recognition Mechanism of Prolyl Aminopeptidase from *Serratia marcescens* K. Ito, T. Inoue, T. Kabashima, N. Kanada, H.-S. Huang, X. Ma, N. Azmi, E. Azab, and T. Yoshimoto 673

Metabolism

- Metabolism of Palmitic and Docosahexaenoic Acids in Reuber H35 Hepatoma Cells M. Martínez-Cayuela, M.C. García-Pelayo, A. Linares, and E. García-Peregrín 545

Biological Oxidation and Bioenergetics

- Binding of an Intrinsic ATPase Inhibitor to the F₁F₀ATPase in Phosphorylating Conditions of Yeast Mitochondria H. Iwatsuki, Y.-M. Lu, K. Yamaguchi, N. Ichikawa, and T. Hashimoto 553

- Monoclonal Antibodies Recognizing Surface Residues of the β Subunit of *Escherichia coli* F₁ATPase: Functional Importance of the Epitope Residues S. Kamauchi, T. Fudemoto, J. Miki, H. Inoue, and H. Kanazawa 629

- A Half-Type ABC Transporter TAPL Is Highly Conserved between Rodent and Man, and the Human Gene Is Not Responsive to Interferon- γ in Contrast to TAP1 and TAP2 A. Kobayashi, M. Kasano, T. Maeda, S. Hori, K. Motojima, M. Suzuki, T. Fujiwara, E. Takahashi, T. Yabe, K. Tanaka, M. Kasahara, Y. Yamaguchi, and M. Maeda 711

Reactive Oxygen and Nitrogen Species

- Nitric Oxide Inactivates Glyoxalase I in Cooperation with Glutathione A. Mitsumoto, K.-R. Kim, G. Oshima, M. Kunimoto, K. Okawa, A. Iwamatsu, and Y. Nakagawa 647

Neurochemistry

- Calcium-Dependent and -Independent Hetero-Oligomerization in the Synaptotagmin Family M. Fukuda and K. Mikoshiba 637

Biochemical Pharmacology

- EmPLiCS: An Empirical Approach for Structure-Based Design of Natural Peptide Drugs H. Ishida, T. Shirai, Y. Matsuda, Y. Kato, M. Ohno, T. Isaji, and T. Yamane 561
