**Environmental Technology**

Cellular Toxicity of Cadmium Ions and Their Detoxification by Heavy Metal-Specific Plant Peptides, Phytochelatins, Expressed in Mammalian Cells

M. Takagi, H. Satofuka, S. Amano, H. Mizuno,  
Y. Eguchi, K. Hirata, K. Miyamoto, K. Fukui,  
and T. Imanaka

233

## CONTENTS Rearranged According to Subject Categories, Vol. 131, No. 2

### BIOCHEMISTRY

#### Biochemistry General

Phospholipids Promote Dissociation of ADP from the <i>Mycobacterium avium</i> DnaA Protein	K. Yamamoto, M. Rajagopalan, and M. Madiraju	219
Genomic Clones Encoding Two Isoforms of Pokeweed Antiviral Protein in Seeds (PAP-S1 and S2) and the N-Glycosidase Activities of Their Recombinant Proteins on Ribosomes and DNA in Comparison with Other Isoforms	E. Honjo, D. Dong, H. Motoshima, and K. Watanabe	225
Molecular Cloning and Expression of the Mannose/Glucose Specific Lectin from <i>Castanea crenata</i> Cotyledons	S. Nakamura, A. Ikegami, Y. Matsumura, T. Nakanishi, and K. Nomura	241
A New Type of Aminoacyltransferase from <i>Saccharothrix</i> sp. AS-2 Favorable for the Synthesis of D-Amino Acid-Containing Peptides	A. Sugihara, Y. Shimada, S. Sugihara, T. Nakai, T. Kakuno, T. Nagao, Y. Watanabe, and Y. Tominaga	247
Real-Time Kinetic Analyses of the Interaction of Ricin Toxin A-Chain with Ribosomes Prove a Conformational Change Involved in Complex Formation	E. Honjo, K. Watanabe, and T. Tsukamoto	267
Participation of Two N-Terminal Residues in LPS-Neutralizing Activity of Sarcoxin IA	K. Okemoto, Y. Nakajima, T. Fujioka, and S. Natori	277

#### Protein Structure

Structure Determination of the Constitutive 20S Proteasome from Bovine Liver at 2.75 Å Resolution <i>Rapid Communication</i>	M. Unno, T. Mizushima, Y. Morimoto, Y. Tomisugi, K. Tanaka, N. Yasuoka, and T. Tsukihara	171
Planarian Cytochrome <i>b<sub>6f</sub></i> : Conservation of a Six Transmembrane Structure and Localization along the Central and Peripheral Nervous System	A. Asada, T. Kusakawa, H. Orii, K. Agata, K. Watanabe, and M. Tsubaki	175
Significance of the Four Carboxyl Terminal Amino Acid Residues of Bovine Pancreatic Rebonuclease A for Structural Folding	T. Fujii, H. Ueno, and R. Hayashi	193

#### Glycobiology and Carbohydrate Biochemistry

Molecular Characterization of a Novel β1,3-Galactosyltransferase for Capsular Polysaccharide Synthesis by <i>Streptococcus agalactiae</i> Type Ib	M. Watanabe, K. Miyake, K. Yanae, Y. Kataoka, S. Koizumi, T. Endo, A. Ozaki, and S. Iijima	183
Quantification of Galectin-7 and Its Localization in Adult Mouse Tissues	M. Sato, N. Nishi, H. Shoji, M. Kumagai, T. Imaizumi, Y. Hata, M. Hirashima, S. Suzuki, and T. Nakamura	255

#### Enzymology

Kinetic Studies of Novel Di- and Tri-propionate Substrates for the Chicken Red Blood Cell Enzyme Coproporphyrinogen Oxidase	M.A. Jones, J. He, and T.D. Lash	201
Contribution of an Imidazole-Indole Stack to High Catalytic Potency of a Lysine-Specific Serine Protease, <i>Achromobacter</i> Protease I	K. Shiraki, S. Norioka, S. Li, and F. Sakiyama	213

#### Metabolism and Bioenergetics

A Hydroxysteroid Sulfotransferase, St2b2, Is a Skin Cholesterol Sulfotransferase in Mice <i>Rapid Communication</i>	M. Shimada, Y. Kamiyama, A. Sato, W. Honma, K. Nagata, and Y. Yamazoe	167
Sodium and Sulfate Ion Transport in Yeast Vacuoles	T. Hirata, Y. Wada, and M. Futai	261

### CELL

#### Cell Death

Phospholipase C-γ1 Is Required for Survival in Heat Stress: Involvement of Protein Kinase C-Dependent Bcl-2 Phosphorylation	X.-C. Bai, A.-L. Liu, F. Deng, Z.-P. Zou, J. Bai, Q.-S. Ji, and S.-Q. Luo	207
---	---	-----
