

CONTENTS Vol. 139, No. 5

Regular Papers

The Intracellular Region of ClC-3 Chloride Channel Is in a Partially Folded State and a Monomer	S.J. Li, M. Kawazaki, K. Ogasahara, and A. Nakagawa	813
Association of Advanced Glycation End Products with A549 Cells, a Human Pulmonary Epithelial Cell Line, Is Mediated by a Receptor Distinct from the Scavenger Receptor Family and RAGE	N. Nakano, K. Fukuhara-Takaki, T. Jono, K. Nakajou, N. Eto, S. Horiuchi, M. Takeya, and R. Nagai	821
Intermolecular Cross-Linking of a Novel Rice Kinesin K16 Motor Domain with a Photoreactive ATP Derivative	N. Umeki, T. Mitsui, Y. Koike, and S. Maruta	831
An Efficient RNA Aptamer against Human Influenza B Virus Hemagglutinin	S.C.B. Gopinath, Y. Sakamaki, K. Kawasaki, and P.K.R. Kumar	837
Theoretical Study on Charge-Transfer Interaction between Acyl-CoA Dehydrogenase and 3-Thiaacyl-CoA Using Density Functional Method	T. Tanaka, H. Tamaoki, Y. Nishina, K. Shiga, T. Ohno, and R. Miura	847
Conformational Change of the Loop L5 in Rice Kinesin Motor Domain Induced by Nucleotide Binding	N. Umeki, T. Mitsui, K. Kondo, and S. Maruta	857
Cynomolgus Monkey Cytochrome P450 2C43: cDNA Cloning, Heterologous Expression, Purification and Characterization	M. Mitsuda, M. Iwasaki, and S. Asahi	865
Engineering the Substrate Specificity of Porcine Kidney D-Amino Acid Oxidase by Mutagenesis of the "Active-Site Lid"	C. Setoyama, Y. Nishina, H. Mizutani, I. Miyahara, K. Hirotsu, N. Kamiya, K. Shiga, and R. Miura	873
Mutations of Ferritin H Chain C-Terminus Produced by Nucleotide Insertions Have Altered Stability and Functional Properties	R. Ingrassia, G. Gerardi, G. Biasiotto, and P. Arosio	881
Modification of GerQ Reveals a Functional Relationship between Tgl and YabG in the Coat of <i>Bacillus subtilis</i> Spores	R. Kuwana, N. Okuda, H. Takamatsu, and K. Watabe	887
The Functional Role of Arginine 901 at the C-Terminus of the Human Anion Transporter Band 3 Protein	S. Takazaki, Y. Abe, D. Kang, C. Li, X. Jin, T. Ueda, and N. Hamasaki	903
Sequence Analysis and Functional Study of Thymidylate Synthase from Zebrafish, <i>Danio rerio</i>	C. Du, R. Niu, E. Chu, P. Zhang, and X. Lin	913
Proteomic Profiling of Lipid Droplet Proteins in Hepatoma Cell Lines Expressing Hepatitis C Virus Core Protein	S. Sato, M. Fukasawa, Y. Yamakawa, T. Natsume, T. Suzuki, I. Shoji, H. Aizaki, T. Miyamura, and M. Nishijima	921
CIN85 Is Localized at Synapses and Forms a Complex with S-SCAM <i>via</i> Dendrin	A. Kawata, J. Iida, M. Ikeda, Y. Sato, H. Mori, A. Kansaku, K. Sumita, N. Fujiwara, C. Rokukawa, M. Hamano, S. Hirabayashi, and Y. Hata	931
