

CONTENTS Vol. 141, No. 2

JB Review

- Antiviral Signaling Through Pattern Recognition Receptors T. Kawai and S. Akira 137

Regular Papers

- Visualization of RecA Filaments and DNA by Fluorescence Microscopy T. Nishinaka, Y. Doi, M. Hashimoto, R. Hara, T. Shibata, Y. Harada, K. Kinoshita, Jr., H. Noji and E. Yashima 147
- Characterization of Galectin-9-Induced Death of Jurkat T Cells L.-H. Lu, R. Nakagawa, Y. Kashio, A. Ito, H. Shoji, N. Nishi, M. Hirashima, A. Yamauchi and T. Nakamura 157
- Characterization of a Major Secretory Protein in the Cane Toad (*Bufo marinus*) Choroid Plexus as an Amphibian Lipocalin-type Prostaglandin D Synthase D. Irikura, T. Inui, C.T. Beuckmann, K. Aritake, G. Schreiber, M. Miyano, T. Inoue and Y. Urade 173
- Orphan Nuclear Receptor Nur77 Accelerates the Initial Phase of Adipocyte Differentiation in 3T3-L1 Cells by Promoting Mitotic Clonal Expansion T. Fumoto, T. Yamaguchi, F. Hirose and T. Osumi 181
- Site-specific Glycosylation at Asn-292 in Ovalbumin is Essential to Efficient Secretion in Yeast K. Ito, A. Seri, F. Kimura and N. Matsudomi 193
- The C-terminal Tail of Mitochondrial Transcription Factor A Markedly Strengthens its General Binding to DNA K. Ohgaki, T. Kanki, A. Fukuoh, H. Kurisaki, Y. Aoki, M. Ikeuchi, S.H. Kim, N. Hamasaki and D. Kang 201
- Role of Proline Residues in Conferring Thermostability on Aqualysin I M. Sakaguchi, M. Matsuzaki, K. Niimiya, J. Seino, Y. Sugahara and M. Kawakita 213
- Detection of Weak Sugar Binding Activity of VIP36 using VIP36-streptavidin Complex and Membrane-based Sugar Chains N. Kawasaki, I. Matsuo, K. Totani, D. Nawa, N. Suzuki, D. Yamaguchi, N. Matsumoto, Y. Ito and K. Yamamoto 221
- Lateral Transfer of the *lux* Gene Cluster S. Kasai, K. Okada, A. Hoshino, T. Iida and T. Honda 231
- Decrease of Cholesterol in Mouse Melanoma Causes Secretion of Lysosomal Enzymes A. Michihara, K. Toda, M. Suenobu, K. Akasaki and H. Tsuji 239
- Identification and Characterization of Functional Intermediates of Stem Bromelain During Urea and Guanidine Hydrochloride Unfolding B. Ahmad, T.A. Shamim, S.K. Haq and R.H. Khan 251
- Effect of Physiological Concentration of Urea on the Conformation of Human Serum Albumin N. Gull, P. Sen, Kabir-ud-Din and R.H. Khan 261
- RNA Recognition Mechanism of the Minimal Active Domain of the Human Immunodeficiency Virus Type-2 Nucleocapsid Protein T. Matsui, Y. Kadera, H. Endoh, E. Miyauchi, H. Komatsu, K. Sato, T. Tanaka, T. Kohno and T. Maeda 269

Mutational Analysis of the Carboxyl-terminal Region of the SV40 Major Capsid Protein VP1	N. Yokoyama, M.-a. Kawano, H. Tsukamoto, T. Enomoto, T. Inoue, R.-u. Takahashi, A. Nakanishi, T. Imai, T. Wada and H. Handa	279
Prolidase-Independent Mechanism of Camptothecin-Induced Inhibition of Collagen Biosynthesis in Cultured Human Skin Fibroblasts	W. Miltyk, E. Karna and J.A. Pałka	287
