

CONTENTS Vol. 142, No. 1

JB Minireviews—Genome Decoding Systems

Regulation of GATA1 Gene Expression	M. Kobayashi and M. Yamamoto	1
Cross-talks between Transcription and Post-transcriptional Events within a 'mRNA Factory'	M. Hagiwara and T. Nojima	11

Regular Papers

Secretion Expression and Activity Assay of a Novel Fusion Protein of Thrombopoietin and Interleukin-6 in <i>Pichia pastoris</i>	H. Zhiyi, L. Wenshan, Z. Wenzhe, D. Ning, Z. Chi, Y. Kenan, W. Ping, W. Qianqian and Z. Qing	17
Studying on the 19-bp Palindrome Repeats in Human Cytomegalovirus Immediate Early Enhancer/Promoter Reveals their Diversity in Function for the Promoter Activity	P. Shen, G. Niu, M. Yao, H. Wang and J. Fei	25
Characteristics of Type IV Collagen Unfolding Under Various pH Conditions as a Model of Pathological Disorder in Tissue	A. Shimizu, K. Kawai, M. Yanagino, T. Wakiyama, M. Machida, K. Kameyama and Z. Naito	33
A Long-lived <i>o</i> -Semiquinone Radical Anion is Formed from <i>N</i> - β -alanyl-5-S-glutathionyl-3,4-dihydroxyphenylalanine (5-S-GAD), an Insect-derived Antibacterial Substance	N. Akiyama, I. Nakanishi, K. Ohkubo, K. Satoh, K. Tsuchiya, T. Nishikawa, S. Fukuzumi, N. Ikota, T. Ozawa, M. Tsujimoto and S. Natori	41
Marked Difference Between Self-aggregations of First and Fourth Repeat Peptides on Tau Microtubule-binding Domain in Acidic Solution	F. Mizushima, K. Minoura, K. Tomoo, M. Sumida, T. Taniguchi and T. Ishida	49
A Cholesterol-independent Membrane Microdomain Serves as a Functional Counter-receptor for E-selectin at the Colo201 Cell Surface and Initiates Signalling on E-selectin Binding	C. Suzuki and N. Kojima	55
Effect of Polyethylene Glycols on the Function and Structure of Thiol Proteases	S. Fatima and R.H. Khan	65
Identification of Radicals Formed in the Reaction Mixtures of Rat Liver Microsomes with ADP, Fe ³⁺ and NADPH Using HPLC-EPR and HPLC-EPR-MS	K. Minakata, E. Okuno, M. Nakamura and H. Iwahashi	73
Identification of a Novel Peptide Ligand of Human Vascular Endothelial Growth Factor Receptor 3 for Targeted Tumour Diagnosis and Therapy	X. Qin, Y. Wan, M. Li, X. Xue, S. Wu, C. Zhang, Y. You, W. Wang, C. Jiang, Y. Liu, W. Zhu, Y. Ran, Z. Zhang, W. Han and Y. Zhang	79
Molecular Determinants of Substrate Recognition in Thermostable α -glucosidases Belonging to Glycoside Hydrolase Family 13	Y. Tsujimoto, H. Tanaka, R. Takemura, T. Yokogawa, A. Shimonaka, H. Matsui, S.-i. Kashiwabara, K. Watanabe and Y. Suzuki	87
Diphtheria Toxin Mutant CRM197 Possesses Weak EF2-ADP-ribosyl Activity that Potentiates its Anti-tumorigenic Activity	T. Kageyama, M. Ohishi, S. Miyamoto, H. Mizushima, R. Iwamoto and E. Mekada	95
Transgenic Mice Expressing a Fully Nontoxic Diphtheria Toxin Mutant, not CRM197 Mutant, Acquire Immune Tolerance against Diphtheria Toxin	Y. Kimura, M. Saito, Y. Kimata and K. Kohno	105

The Cooperative Role of OsCnfU-1A Domain I and Domain II in the Iron–Sulphur Cluster Transfer Process as Revealed by NMR	T. Saio, H. Kumeta, K. Ogura, M. Yokochi, M. Asayama, S. Katoh, E. Katoh, K. Teshima and F. Inagaki	113
Both Mammalian PIG-M and PIG-X are Required for Growth of GPI14-Disrupted Yeast	Y.U. Kim, H. Ashida, K. Mori, Y. Maeda, Y. Hong and T. Kinoshita	123
