

## CONTENTS Rearranged According to Subject Categories, Vol. 145, No. 5

### BIOCHEMISTRY

#### Biochemistry General

- Molecular Recognition of Tryptophan tRNA by Tryptophanyl-tRNA Synthetase from *Aeropyrum pernix* K1 W. Tsuchiya and T. Hasegawa 635

#### Protein Interaction and Recognition

- Characterization of Type I Collagen Fibril Formation Using Thioflavin T Fluorescent Dye K. Morimoto, K. Kawabata, S. Kunii, K. Hamano, T. Saito and B. Tonomura 677

#### Glycobiology and Carbohydrate Biochemistry

- Requirement of Fut8 for the expression of vascular endothelial growth factor receptor-2: a new mechanism for the emphysema-like changes observed in Fut8-deficient mice X. Wang, T. Fukuda, W. Li, C.-x. Gao, A. Kondo, A. Matsumoto, E. Miyoshi, N. Taniguchi and J. Gu 643

#### Lipid Biochemistry

- Gender Disparity of Hepatic Lipid Homoeostasis Regulated by the Circadian Clock X. Yang, Y.-K.J. Zhang, N. Esterly, C.D. Klaassen and Y.-J.Y. Wan 609

#### Enzymology

- Two Crystal Structures of Lysyl-tRNA Synthetase from *Bacillus stearothermophilus* in Complex with Lysyladenylate-Like Compounds: Insights into the Irreversible Formation of the Enzyme-Bound Adenylate of L-Lysine Hydroxamate H. Sakurama, T. Takita, B. Mikami, T. Itoh, K. Yasukawa and K. Inouye 555

- Inspection of the Activator Binding Site for 4- $\alpha$ -Glucanotransferase in Porcine Liver Glycogen Debranching Enzyme with Fluorogenic Dextrins E. Yamamoto, Y. Watanabe, Y. Makino and K. Omichi 585

- Gene Cloning and Expression of Pyridoxal 5'-Phosphate-Dependent L-threo-3-Hydroxyaspartate Dehydratase from *Pseudomonas* sp. T62, and Characterization of the Recombinant Enzyme T. Murakami, T. Maeda, A. Yokota and M. Wada 661

#### Biochemistry of Proteolysis

- Impaired chemotaxis and cell adhesion due to decrease in several cell-surface receptors in cathepsin E-deficient macrophages T. Tsukuba, M. Yanagawa, K. Okamoto, Y. Okamoto, Y. Yasuda, K.I. Nakayama, T. Kadowaki and K. Yamamoto 565

#### Metabolism and Bioenergetics

- Effects of Replacement of Low-Spin Haem *b* by Haem O on *Escherichia coli* Cytochromes *bo* and *bd* Quinol Oxidases T. Mogi 599

- Probing Structure of Heme A Synthase from *Bacillus subtilis* by Site-Directed Mutagenesis T. Mogi 625

- Over-Expression and Characterization of *Bacillus subtilis* Heme O Synthase T. Mogi 669

- Intramolecular Electron Transfer Processes in Cu<sub>B</sub>-deficient Cytochrome *bo* Studied by Pulse Radiolysis K. Kobayashi, S. Tagawa and T. Mogi 685

## **CELL**

### **Cell General**

- Induction and Expression of Anti-Angiogenic Vasohibins in the Hematopoietic Stem/Progenitor Cell Population H. Naito, H. Kidoya, Y. Sato and N. Takakura 653

### **Receptors and Signal Transduction**

- The Influence of Domain Structures on the Signal Transduction of Chimeric Receptors Derived from the Erythropoietin Receptor W. Liu, M. Kawahara, H. Ueda and T. Nagamune 575

## **BIOTECHNOLOGY**

### **Gene and Protein Engineering**

- Epitope Mapping Using Ribosome Display in a Reconstituted Cell-Free Protein Synthesis System E. Osada, Y. Shimizu, B.K. Akbar, T. Kanamori and T. Ueda 693

### **Cell and Tissue Engineering**

- Maturation of the Extracellular Matrix and Cell Adhesion Molecules in Layered Co-cultures of HepG2 and Endothelial Cells M. Ohno, K. Motojima, T. Okano and A. Taniguchi 591
