

CONTENTS Vol. 145, No. 5

Regular Papers

Two Crystal Structures of Lysyl-tRNA Synthetase from <i>Bacillus stearothermophilus</i> in Complex with Lysyladenylate-Like Compounds: Insights into the Irreversible Formation of the Enzyme-Bound Adenylate of L-Lysine Hydroxamate	H. Sakurama, T. Takita, B. Mikami, T. Itoh, K. Yasukawa and K. Inouye	555
Impaired chemotaxis and cell adhesion due to decrease in several cell-surface receptors in cathepsin E-deficient macrophages	T. Tsukuba, M. Yanagawa, K. Okamoto, Y. Okamoto, Y. Yasuda, K.I. Nakayama, T. Kadowaki and K. Yamamoto	565
The Influence of Domain Structures on the Signal Transduction of Chimeric Receptors Derived from the Erythropoietin Receptor	W. Liu, M. Kawahara, H. Ueda and T. Nagamune	575
Inspection of the Activator Binding Site for 4- α -Glucanotransferase in Porcine Liver Glycogen Debranching Enzyme with Fluorogenic Dextrins	E. Yamamoto, Y. Watanabe, Y. Makino and K. Omichi	585
Maturation of the Extracellular Matrix and Cell Adhesion Molecules in Layered Co-cultures of HepG2 and Endothelial Cells	M. Ohno, K. Motojima, T. Okano and A. Taniguchi	591
Effects of Replacement of Low-Spin Haem <i>b</i> by Haem O on <i>Escherichia coli</i> Cytochromes <i>bo</i> and <i>bd</i> Quinol Oxidases	T. Mogi	599
Gender Disparity of Hepatic Lipid Homoeostasis Regulated by the Circadian Clock	X. Yang, Y.-K.J. Zhang, N. Esterly, C.D. Klaassen and Y.-J.Y. Wan	609
Probing Structure of Heme A Synthase from <i>Bacillus subtilis</i> by Site-Directed Mutagenesis	T. Mogi	625
Molecular Recognition of Tryptophan tRNA by Tryptophanyl-tRNA Synthetase from <i>Aeropyrum pernix</i> K1	W. Tsuchiya and T. Hasegawa	635
Requirement of Fut8 for the expression of vascular endothelial growth factor receptor-2: a new mechanism for the emphysema-like changes observed in Fut8-deficient mice	X. Wang, T. Fukuda, W. Li, C.-x. Gao, A. Kondo, A. Matsumoto, E. Miyoshi, N. Taniguchi and J. Gu	643
Induction and Expression of Anti-Angiogenic Vasohibins in the Hematopoietic Stem/Progenitor Cell Population	H. Naito, H. Kidoya, Y. Sato and N. Takakura	653
Gene Cloning and Expression of Pyridoxal 5'-Phosphate-Dependent L-threo-3-Hydroxyaspartate Dehydratase from <i>Pseudomonas</i> sp. T62, and Characterization of the Recombinant Enzyme	T. Murakami, T. Maeda, A. Yokota and M. Wada	661
Over-Expression and Characterization of <i>Bacillus subtilis</i> Heme O Synthase	T. Mogi	669

Characterization of Type I Collagen Fibril Formation Using Thioflavin T Fluorescent Dye	K. Morimoto, K. Kawabata, S. Kunii, K. Hamano, T. Saito and B. Tonomura	677
Intramolecular Electron Transfer Processes in Cu _B -deficient Cytochrome <i>bo</i> Studied by Pulse Radiolysis	K. Kobayashi, S. Tagawa and T. Mogi	685
Epitope Mapping Using Ribosome Display in a Reconstituted Cell-Free Protein Synthesis System	E. Osada, Y. Shimizu, B.K. Akbar, T. Kanamori and T. Ueda	693
