

Forthcoming Papers

- A. S. Waggoner, C.-H. Wang, R. L. Tolles: Mechanism of Potential-Dependent Light Absorption Changes of Lipid Bilayer Membranes in the Presence of Cyanine and Oxonol Dyes*
- W. N. Ross, B. M. Salzberg, L. B. Cohen, A. Grinvald, H. V. Davila, A. S. Waggoner, C. H. Wang: Changes in Absorption, Fluorescence, Dichroism, and Birefringence in Stained Giant Axons: Optical Measurement of Membrane Potential*
- W. P. Williams, D. G. Layton, C. Johnson: An Analysis of the Binding of Fluorescence Probes in Mitochondrial Systems*
- L. G. Palmer, M. M. Civan: Distribution of Na⁺, K⁺ and Cl⁻ between Nucleus and Cytoplasm in *Chironomus* Salivary Gland Cells*
- J. A. Williams, J. H. Poulsen, M. Lee: Effects of Membrane Stabilizers on Pancreatic Amylase Release*
