

## Forthcoming Papers

- K. Asami, T. Hanai, N. Koizumi*: Dielectric Properties of Yeast Cells: Effect of Some Ionic Detergents on the Plasma Membrane
- M.K. Jain, N.M. Wu*: Effect of Lipid Soluble Compounds on the Phase Transition Characteristics of Bilayer
- E.E. Bittar, C. Harkness, R. Schultz*: The Influence of Insulin on Sodium Efflux in Barnacle Muscle Fibers
- E.E. Bittar, B.G. Danielson, W. Lin, J. Richards*: Investigation of the Effects of External Acidification on Sodium Transport, Internal pH and Membrane Potential in Barnacle Muscle Fibers
- D.L. Schneider*: Membranous Localization and Properties of ATPase of Rat Liver Lysosomes
- R. Simons, N. Sajkewycz*: The a-c Electrical Properties of Bipolar Membranes: Experiments and a Model
- R. Marz, R.M. Wohlhueter, P.G.W. Plagemann*: Growth Rate of Cultured Novikoff Rat Hepatoma Cells as a Function of the Rate of Thymidine and Hypoxanthine Transport
- J.H. Milgram, A.K. Solomon*: Membrane Permeability Equations and their Solutions for Red Cells
