

Errata

Jean-Luc Popot, Danielle Pham Dinh, and
André Dautigny
The Journal of Membrane Biology **120**:233–246
(1991)

The sequence of the C-terminus of *jimpy* PLP (p.
242, line 48) should read:

Y₂₀₆VPNDLPPVYCCVCGCCGHTSFPPAHLHDCCHLQLCRP

The first three lines following the above should
read:

The aberrant C-terminal sequence contains a
moderately hydrophobic segment (1.26 kcal/resi-
due, underlined above), which may be able to span

The errors in the sequence do not significantly af-
fect the hydrophobicity plot in Fig. 6.

The Note Added in Proof contained a printer's error
(p. 246, line 5, second column) which should read:

of the β_2 -adrenergic receptor and other G-pro-
tein linked receptors
