

Guest Referees 2002

The Editors of The Journal of Membrane Biology gratefully acknowledge the valuable assistance of the following guest referees during the year 2002:

- J. P. Adelman, Oregon Health Sciences University
M. Akabas, Albert Einstein College of Medicine of Yeshiva University
S. Alper, Harvard Medical School
R.J. Alpern, Univ. of Texas Southwestern Med. Ctr. Dallas
O. S. Andersen, Cornell University-Weill Medical College
P. S. Aronson, Yale University School of Medicine
M. L. J. Ashford, University of Dundee, UK
E. Bamberg, MPI für Biophysik, Frankfurt, Germany
P. H. Barry, University of New South Wales, Australia
T. Begenisich, University of Rochester
P. Behe, University College of London, UK
M. J. Beilby, University of New South Wales, Australia
G. Vann Bennett, Duke University
F. W. Bentrup, Universität Salzburg, Austria
R. Benz, Universität Würzburg, Germany
J. R. Berlin, UMDNJ/New Jersey Medical School
A. Bertl, Universität Karlsruhe, Germany
E. C. Beyer, University of Chicago
S. Bhakdi, Johannes-Gutenberg-Universität Mainz, Germany
M. A. Bisson, SUNY, Buffalo
B. L. Blazer-Yost, Purdue University at Indianapolis
R. J. Bloch, University of Maryland
J. M. Boeynaems, Erasmus Hospital, Belgium
J. Bonanno, Indiana University
V. Braun, Universität Tübingen, Germany
R. J. Bridges, University of Pittsburgh
R. J. Brooker, University of Minnesota
P. D. Brown, University of Manchester, UK
R. K. Buddington, Mississippi State University
B. Burchell, University of Dundee, UK
M. B. Burg, NIH/NHLBI
V. Cabiaux, ULB, Belgium
M. Cahalan, University of California, Irvine
O. A. Candia, Mt. Sinai School of Medicine
M. Caplan, Yale University
E. Carafoli, University of Padova, Italy
M. Cerejido, Centre de Investigaciones de IPN, Mexico
D. I. Cook, University of Sydney, Australia
T. R. Cummins, Yale University
J. Cuppoletti, University of Cincinnati
M. P. Czech, University of Massachusetts
D. L. Daleke, Indiana University
K. J. Davies, University of Southern California, Los Angeles
N. A. Delamere, University of Louisville
P. DeWeer, University of Pennsylvania
M. Donowitz, The Johns Hopkins University
A. J. M. Driessen, Groningen Biomolecular Institute, The Netherlands
M. L. Drum, Case Western Reserve University
I. D. Dukes, GlaxoSmithKline, Inc., NC
M. A. Edidin, The Johns Hopkins University
J. Ehrenfeld, URA CNRS, France
R. M. Epand, McMaster University, Canada
E. Farge, UMR Curie Institute, France
L. Fliegel, University of Alberta, Canada
P. Fong, The Johns Hopkins University
G. Fuhr, Fraunhofer Institut Biomedizinische Technik, St. Ingbert, Germany
K. Furusawa, University of Tsukuba, Japan
P. W. Gage, John Curtin School of Medical Research, Australia
H. Y. Gaisano, University of Toronto, Canada
V. Gall, George Washington University
F. Gambale, Institute di Cibernetica e Biofisica, Genova, Italy
J. Garcia-Colunga, UNAM, Mexico
A. Gericke, Kent State University
G. H. Giebisch, Yale University
J. D. Gitlin, Washington University School of Medicine, St. Louis
A. L. Goldin, University of California, Irvine
George I. Gorodeski, University Hospitals of Cleveland

- C. W. M. Grant, University of Western Ontario, Canada
M. C. Gray, University of Virginia
V. K. Gribkoff, Bristol Meyers, Wallingford
S. Grinstein, The Hospital for Sick Children, Canada
R. Grygorczyk, University of Montreal, Canada
S.-I. Hakomori, Pacific Northwest Research Institute/University of Washington
J. W. Hanrahan, McGill University, Canada
U.-P. Hansen, Christian-Albrechts Universität, Germany
S. I. Helman, University of Illinois at Urbana-Champaign
J.-C. Henquin, University of Louvain, Belgium
G. P. Hess, Cornell University
S. D. Hillyard, University of Nevada, Las Vegas
F. L. Hoch, Ann Arbor
M. J. Hope, Inex Pharmaceutical Corp., Burnaby, Canada
U. Hopfer, Case Western Reserve University
B. A. Hughes, University of Michigan
A. J. Hulbert, University of Wollongong, Australia
G. Inesi, University of Maryland
F. Ismail-Beigi, Case Western Reserve University
L. Y. Jan, University of California, San Francisco
S. Kacew, University of Ottawa, Canada
L. Kaczmarek, Yale University
B. L. Kagan, University of California, Los Angeles
B. A. Kamen, Robert Wood Johnson Medical School
S. J. D. Karlish, Weizmann Institute of Science, Israel
M. P. Kavanaugh, Oregon Health Sciences University
K.-J. Kim, University of Southern California, Los Angeles
G. A. Kimmich, University of Rochester
P. K. Kinnunen, University of Helsinki, Finland
T. R. Kleyman, University of Pittsburgh
A. Klip, The Hospital for Sick Children, Canada
S. D. Klyce, Louisiana State University Eye Center
K. Koepsell, Universität Würzburg, Germany
C. Korbmacher, Universität Erlangen-Nürnberg, Germany
J. Kourie, The Australian National University, Australia
C. Kung, University of Wisconsin, Madison
F. Lacaz-Vieira, University of Sao Paulo, Brazil
P. Lagner, Institute of Biophysics and X-Ray Structure & Research, Austria
F. Lang, Eberhard-Karls-Universität, Tübingen, Germany
E. H. Larsen, University of Copenhagen, Denmark
R. Latorre, Centro de Estudios Científicos, Chile
P. K. Lauf, Wright State University
M. Levi, University of Colorado Health Science Center
E. S. Levitan, University of Pittsburgh
J. B. Lingrel, University of Cincinnati
E. London, SUNY at Stony Brook
B. London, University of Pittsburgh Medical Center
J. Lopez-Barneo, Universidad de Sevilla, Spain
M. G. Low, Columbia University College of Physicians & Surgeons
M. T. Lucero, University of Utah Medical School
P. M. Macdonald, University of Toronto at Mississauga, Canada
A. D. C. MacKnight, University of Otago, New Zealand
S. Mager, University of North Carolina at Chapel Hill
S. P. Makker, University of California, Davis
M. Mall, University of North Carolina at Chapel Hill
G. Malnic, Universidade de Sao Paulo, Brazil
P. Maloney, The Johns Hopkins University
B. Margolis, University of Michigan
S. D. McCormick, USGS/Leetown Science Center
D. McDonald, University of Ottawa, Canada
A. McDonough, University of Southern California, Los Angeles
T. E. McGraw, Cornell University/Weill Medical College
G. Meissner, University of North Carolina at Chapel Hill
E. G. Moczydlowski, Yale University
M. Montal, University of California, San Diego
M. H. Montrose, Indiana University
N. Moran, The Hebrew University of Jerusalem, Israel
C. E. Morris, University of Ottawa, Canada
M. Müller, Universität Freiburg, Germany
M. G. Murphy, Dalhousie University, Canada
S. Nielsen, University of Aarhus, Denmark
B. Nilius, KU Leuven, Belgium
A. Noma, Kyoto University, Japan
W. F. Nonner, University of Miami
D. A. Novak, University of Florida College of Medicine
M. L. O'Leary, Thomas Jefferson Medical College
H. Oberleithner, University of Münster, Germany
P. A. Pappone, University of California, Davis
L. Parent, University of Montreal, Canada
H. Pasantes-Morales, UNAM, Mexico
P. L. Pedersen, The Johns Hopkins University
S. F. Perry, University of Ottawa, Canada
A. Pohorille, NASA, Ames Research Center
H. Pollard, Uniformed Services University
P. Poujeol, UMR CNRS, France
T. A. Pressley, Texas Technical University

- D. G. Puro, University of Michigan
- P. M. Quinton, University of California, San Diego
- S. G. Rane, Fujisawa Research Institute of America, Evanston
- T. A. Rapoport, Harvard Medical School
- P. Reinach, SUNY College of Optometry
- A. Richter-Dahlfors, Karolinska Institutet, Sweden
- J. Riordan, Mayo Clinic Scottsdale
- S. S. Rothman, University of California, San Francisco
- P. C. Ruben, Utah State University
- G. Sager, University of Tromso, Norway
- B. Sarkadi, National Institute of Haematology and Immunology, Hungary
- L. Satlin, Mt Sinai School of Medicine
- P. Schlesinger, Washington University School of Medicine, St. Louis
- F. Schroeder, Texas A & M University
- G. E. Schulz, Universität Freiburg, Germany
- I. I. Schulz, Universität des Saarlandes, Germany
- A. Schwab, Universität Würzburg, Germany
- J. R. Schwarz, Universität Hamburg, Germany
- P. Sebo, Czech Academy of Sciences, Czech Republic
- F. V. Sepulveda, Universidad de Chile, Valdivia, Chile
- Y. Shai, Weizmann Institute of Science, Rehovot, Israel
- D. N. Sheppard, University of Bristol, UK
- V. Shoshan-Barmatz, Ben-Gurion University of the Negev, Israel
- D. Siemen, Universität Magdeburg
- J. Silvius, McGill University, Canada
- K. L. Simons, MPI, Dresden, Germany
- P. Sokolove, University of Maryland
- H. Sontheimer, University of Alabama at Birmingham
- P. R. Stanfield, University of Warwick, UK
- G. Stark, Universität Konstanz, Germany
- E. Stefani, University of California, Los Angeles
- A. O. Stretton, University of Wisconsin, Madison
- W. Stühmer, MPI, Göttingen, Germany
- J. L. Sutko, University of Nevada
- H. Sze, University of Maryland
- R. Tarran, University of California, Berkeley
- J. Teulon, INSERM, France
- D. P. Thompson, Pharmacia Corp., Kalamazoo
- L. G. Toro, University of California, Los Angeles
- D. Trotier, Ecole Pratique des Hautes Etudes, Massy, France
- G. Trübe, E. Hoffmann-La Roche Ltd., Switzerland
- S. Tsukita, Kyoto University, Japan
- R.J. Turner, NIH, NIDCR
- K. J. Ullrich, MPI, Frankfurt, Germany
- M. A. Valverde, University Pompeu Fabra, Spain
- A. C. Van Ginneken, University of Amsterdam, The Netherlands
- J. L. Van Houten, University of Vermont
- E. Van Volkenburgh, Washington University, Seattle
- L. J. Van Winkle, Midwestern University
- V. M. Vehaskari, Louisiana State University Medical Center
- F. Verrey, University of Zurich, Switzerland
- D. Veseley, J. A. Haley Veterans Hospital, Tampa
- Igor Vodyanoy, Office of Naval Research
- G. von Heijne, Stockholm University, Sweden
- R. Wagner, Universität Osnabrück, Germany
- S. Wakabayashi, National Cardiovascular Center, Japan
- P. Wangemann, Kansas State University
- J. Ward, University of Minnesota
- D. G. Warnock, University of Alabama at Birmingham
- R. Warth, Universität Zürich, Switzerland
- W.-M. Weber, Westfälische Wilhelms-Universität, Germany
- A. M. Weinstein, Cornell University Medical College
- M. J. Welsh, University of Iowa Hospitals
