

Wörwag Award 1994

This award should provide and support new scientific and clinical relevant knowledge in the field of vitamins, minerals and trace elements.

The Wörwag Award will be given for the third time for research papers on the following topic: "Functional consequences of an undersupply with electrolytes and/or vitamins in target organs". The grant is DM 10.000. Single applicants as well as working groups may apply for the award. Additionally, scientific professionals are kindly asked to identify, to the jury, some potential and relevant authors. Papers should be completed according to the particular topic and should include therapeutic relevant consequences. At the time of the announcement of the award, research in the field of the special topic must have already begun. Deadline for submission of the papers is 30 June 1994.

The papers (written in German or English) should be mailed to the president of the jury, Prof. Dr. Dieter Hötzel, Institut für Ernährungswissenschaft der Universität Bonn, Endenicher Allee 11-13 (AVZ I), D-53115 Bonn.

The detailed statute for the award can be requested from Wörwag Pharma GmbH, Postfach 31 17 18, D-70477 Stuttgart.
