

*The Journal of Nutritional Biochemistry (JNB)* is an international journal devoted to advancements in nutrition science. Its major focus is on investigations about nutrients that overlap with the areas of biochemistry, molecular biology, neurochemistry, toxicology, and pharmacology. For details concerning the preparation of manuscripts see Information for Authors, which is published in each issue of the journal.

*The Journal of Nutritional Biochemistry* is published monthly by Elsevier Inc., 360 Park Avenue South, New York, NY 10010-1710.

Subscription Rates (2003): Institutional price: US\$817.00 for all countries except Europe and Japan; JPY 97,000 for Japan; EUR 731 for European countries. Personal price: US\$226.00 for all countries except Europe and Japan; JPY 26,800 for Japan; EUR 201 for European countries. Prices include postage and are subject to change without notice. For additional information contact Elsevier, Journals Customer Service, 6277 Sea Harbor Drive, Orlando, FL 32887-4800, USA, US Toll Free Tel.: 1-877-839-7126, Toll Free (for customers outside the US): 1-407-345-4020, Fax: 1-407-363-1354, E-mail: usjcs@elsevier.com. Claims for missing issues can be honored only up to three months for domestic addresses, six months for foreign addresses. Duplicate copies will not be sent to replace one undelivered through failure to notify Elsevier of change of address. Single copy and back volume information available upon request. Periodicals postage paid at New York, NY and at additional offices.

POSTMASTER: Send address changes to *The Journal of Nutritional Biochemistry*, Journals Customer Service, 6277 Sea Harbor Drive, Orlando, FL 32887-4800 USA.

For advertising inquiries for North and South America, please contact Tino DeCarlo, Elsevier Inc., 360 Park Avenue South, New York, NY 10010-1710; Tel: 212-633-3815; Fax: 212-633-3820; e-mail: t.decarlo@elsevier.com. For international advertising information, contact the Advertising Department, Elsevier Inc., The Boulevard, Langford Lane, Kidlington, Oxford OX5 1 GB UK; Tel: 44-0-1865-843565; Fax: 44-0-1865-843976; e-mail: media@elsevier.co.uk. For advertising in Japan, contact the Advertising Department, Elsevier Inc. K.K.; Tel: 81-3-5561-5033; Fax: 81-3-5561-5047.

This journal and the individual contributions contained in it are protected under copyright by Elsevier Inc. and the following terms and conditions apply to their use:

Photocopying: Single photocopies of single articles may be made for personal use as allowed by national copyright laws. Permission of the publisher and payment of a fee is required for all other photocopying, including multiple or systematic copying, copying for advertising or promotional purposes, resale, and all forms of document delivery. Special rates are available for educational institutions that wish to make photocopies for non-profit educational classroom use.

Permissions may be sought directly from Health Science Rights Department, Elsevier Inc., 625 Walnut Street, Philadelphia, PA 19106, USA; Tel: (+1) 215-238-7869; Fax: (+1) 215-238-2239; e-mail: healthpermission@elsevier.com. You may also contact Rights & Permissions directly through Elsevier's home page (<http://www.elsevier.nl>), selecting first 'Customer Support', then 'General Information', then 'Permissions Query Form'.

In the USA, users may clear permissions and make payments through the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA; Tel: (978) 750-8400, Fax: (978) 750-4744, and in the UK through the Copyright Licensing Agency Rapid Clearance Service (CLARCS), 90 Tottenham Court Road, London W1P 0LP, UK; Tel: (+44) 171 436 5931; Fax: (+44) 171 436 3986. Other countries may have a local reprographic rights agency for payments.

Derivative Works: Subscribers may reproduce tables of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the publisher is required for resale or distribution outside the institution.

Permission of the publisher is required for all other derivative works, including compilations and translations.

Electronic Storage or Usage: Permission of the publisher is required to store or use electronically any material contained in this journal, including any article or part of an article. Contact the publisher at the address indicated.

Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the publisher.

Address permissions requests to: Elsevier Inc. Rights & Permissions Department, at the mail, fax and e-mail addresses noted above.

Notice: No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made.

Although all advertising material is expected to conform to ethical (medical) standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

# The Journal of Nutritional Biochemistry

Volume 14, Number 11, November 2003

## CONTENTS

### REVIEWS: CURRENT TOPICS

- 616** Alcoholic muscle disease and biomembrane perturbations (Review)  
*Junko Adachi, Migiwa Asano, Yasuhiro Ueno, Onni Niemelä, Kay Ohlendorf, Timothy J. Peters, Victor R. Preedy*

### RESEARCH ARTICLES

- 626** Beneficial effects of a diet rich in a mixture of n - 6/n - 3 essential fatty acids and of their metabolites on cyclosporine - nephrotoxicity  
*George Tsipas, Polymnia Morphake*
- 633** Modulation of restraint stress induced oxidative changes in rats by antioxidant vitamins  
*S. M. Kashif R. Zaidi, Tariq M. Al-Qirim, Nasrul Hoda, Naheed Banu*
- 637** The chemical form of selenium affects insulinomimetic properties of the trace element: investigations in type II diabetic dbdb mice  
*Andreas S. Mueller, Josef Pallauf, Johannes Rafael*
- 648** Carbohydrate metabolism in erythrocytes of copper deficient rats  
*S. P. J. Brooks, K. A. Cockell, B. A. Dawson, W. M. N. Ratnayake, B. J. Lampi, B. Belonje, D. B. Black, L. J. Plouffe*
- 656** Beta-carotene supplementation decreases leukocyte superoxide dismutase activity and serum glutathione peroxidase concentration in humans  
*Carla R. McGill, Nancy R. Green, Margaret C. Meadows, Sareen S. Gropper*
- 663** Bioavailability of lutein in humans from intrinsically labeled vegetables determined by LC-APCI-MS  
*Annette Lienau, Tobias Glaser, Guangwen Tang, Gregory G. Dolnikowski, Michael A. Grusak, Klaus Albert*
- 671** Green tea reduces body fat accretion caused by high-fat diet in rats through  $\beta$ -adrenoceptor activation of thermogenesis in brown adipose tissue  
*J. J. Choo*

### ANNOUNCEMENTS

- 677** Erratum
- 678** Calendar
