

*The Journal of Nutritional Biochemistry (JNB)* is an international journal devoted to advancements in nutrition science. Its major focus is on investigations about nutrients that overlap with the areas of biochemistry molecular biology, neurochemistry, toxicology, and pharmacology. For details concerning the preparation of manuscripts see Information for Authors, which is published in each issue of the journal.

*The Journal of Nutritional Biochemistry* is published monthly by Elsevier Inc., 360 Park Avenue South, New York, NY 10010-1710.

Subscription Rates (2005): Institutional price: US\$916.00; Personal price: US\$244.00; Prices include postage and are subject to change without notice. Claims for missing issues can be honored only up to three months for domestic addresses, six months for foreign addresses. Duplicate copies will not be sent to replace one undelivered through failure to notify Elsevier of change of address. Single copy and back volume information available upon request. Periodicals postage paid at New York, NY and at additional offices.

POSTMASTER: Send address changes to *The Journal of Nutritional Biochemistry*, Journals Customer Service, 6277 Sea Harbor Drive, Orlando, FL 32887-4800 USA.

(For Post Office use only: Volume 16 issue 10 of 12.)

**Customer service (orders, claims, online, change of address):** Elsevier Periodicals Customer Service, 6277 Sea Harbor Drive, Orlando, FL 32887-4800. Tel: (800) 654-2452 (U.S. and Canada); (407) 345-4000 (outside U.S. and Canada). Fax: (800) 225-4030 (U.S. and Canada); (407) 363-9661 (outside U.S. and Canada). This journal and the individual contributions contained in it are protected under copyright by Elsevier Inc. and the following terms and conditions apply to their use:

**Photocopying:** Single photocopies of single articles may be made for personal use as allowed by national copyright laws. Permission of the publisher and payment of a fee is required for all other photocopying, including multiple or systematic copying, copying for advertising or promotional purposes, resale, and all forms of document delivery. Special rates are available for educational institutions that wish to make photocopies for non-profit educational classroom use.

Permissions may be sought directly from Health Science Rights Department, Elsevier Inc., 170 S. Independence Mall W 300 E, Philadelphia, PA 19106-3399, USA; Tel: (+1) 215-238-7869; Fax: (+1) 215-238-2239; e-mail: [healthpermission@elsevier.com](mailto:healthpermission@elsevier.com). You may also contact Rights & Permissions directly through Elsevier's home page (<http://www.elsevier.nl>), selecting first 'Customer Support', then 'General Information', then 'Permissions Query Form'.

In the USA, users may clear permissions and make payments through the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA; Tel: (978) 750 8400, Fax: (978) 750-4744, and in the UK through the Copyright Licensing Agency Rapid Clearance Service (CLARCS), 90 Tottenham Court Road, London W1P 0LP, UK; Tel: (+44) 171 436 5931; Fax: (+44) 171 436 3986. Other countries may have a local reprographic rights agency for payments.

**Derivative Works:** Subscribers may reproduce tables of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the publisher is required for resale or distribution outside the institution.

Permission of the publisher is required for all other derivative works, including compilations and translations.

**Electronic Storage or Usage:** Permission of the publisher is required to store or use electronically any material contained in this journal, including any article or part of an article. Contact the publisher at the address indicated.

Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the publisher.

Address permissions requests to: Elsevier Inc. Rights & Permissions Department, at the mail, fax and e-mail addresses noted above.

**Notice:** No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made.

Although all advertising material is expected to conform to ethical (medical) standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

∞<sup>TM</sup> This paper meets the requirements of ANSI Standard Z39.48-1992 (Permanence of Paper).

# The Journal of Nutritional Biochemistry

Volume 16, Number 10, October 2005

## CONTENTS

### REVIEWS: CURRENT TOPICS

- 577** Novel mechanisms of natural antioxidant compounds in biological systems: involvement of glutathione and glutathione-related enzymes  
*Roberta Masella, Roberta Di Benedetto, Rosaria Vari, Carmela Filesi, Claudio Giovannini*

### RESEARCH ARTICLES

- 587** Bacterially synthesized folate and supplemental folic acid are absorbed across the large intestine of piglets  
*Farhan M. Asrar, Deborah L. O'Connor*
- 594** Inhibitory effects of glycolipids fraction from spinach on mammalian DNA polymerase activity and human cancer cell proliferation  
*Isoko Kuriyama, Keiichi Musumi, Yuko Yonezawa, Masaharu Takemura, Naoki Maeda, Hiroshi Iijima, Takahiko Hada, Hiromi Yoshida, Yoshiyuki Mizushima*
- 602** Effect of food restriction on the insulin signalling pathway in rat skeletal muscle and adipose tissue  
*Ana Alonso, Yolanda Fernández, Rebeca Fernández, Patricia Ordóñez, María Moreno, Fernando Díaz, Ángeles M. Patterson, Celestino González*
- 610** Bioavailability and antioxidant effect of epigallocatechin gallate administered in purified form versus as green tea extract in healthy individuals  
*Susanne M. Henning, Yantao Niu, Yong Liu, Nicolas H. Lee, Yukihiko Hara, Gail D. Thames, Rosario R. Minutti, Catherine L. Carpenter, Hejing Wang, David Heber*
- 617** HepG2 cells develop signs of riboflavin deficiency within 4 days of culture in riboflavin-deficient medium  
*Ricarda Werner, Karoline C. Manthey, Jacob B. Griffin, Janos Zempleni*
- 625** Uterine phenotype of young adult rats exposed to dietary soy or genistein during development  
*Renea R. Eason, S. René Till, Michael C. Velarde, Yan Geng, Leon Chatman Jr., Liwei Gu, Thomas M. Badger, Frank A. Simmen, Rosalia C.M. Simmen*
- 633** Different palm oil preparations reduce plasma cholesterol concentrations and aortic cholesterol accumulation compared to coconut oil in hypercholesterolemic hamsters  
*Thomas A. Wilson, Robert J. Nicolosi, Timothy Kotyla, Kalyana Sundram, David Kritchevsky*
