Advertising information: Advertising orders and enquiries can be sent to: USA, Canada and South America: Tino DeCarlo, Advertising Sales Department, Elsevier Inc., 360 Park Avenue South, New York, NY 10010-1710, USA; phone: (+1) (212) 633-3815; fax: (+1) (212) 633-3820; e-mail: t.decarlo@elsevier.com.

Reprints: To order 100 or more reprints for educational, commercial, or promotional use, contact the Commercial Reprints Department, Elsevier Inc., 360 Park Avenue South, New York, NY 10010-1710; E-mail: reprints@elsevier.com.

Author information: For full and complete Author Information, please go to: <http://journals.elsevierhealth.com/periodicals/jnb/authorinfo>.

Author inquiries: For inquiries relating to the submission of articles (including electronic submission where available) please visit this journal's homepage at <http://journals.elsevierhealth.com/periodicals/jnb>. You can track accepted articles at <http://www.elsevier.com/trackarticle> and set up e-mail alerts to inform you of when an article's status has changed. Also accessible from here is information on copyright, frequently asked questions and more. Contact details for questions arising after acceptance of an article, especially those relating to proofs, will be provided by the publisher.

Funding body agreements and policies: Elsevier has established agreements and developed policies to allow authors whose articles appear in journals published by Elsevier, to comply with potential manuscript archiving requirements as specified as conditions of their grant awards. To learn more about existing agreements and policies please visit <http://www.elsevier.com/fundingbodies>.

© 2011 Elsevier Inc. All rights reserved. This journal and the individual contributions contained in it are protected under copyright by Elsevier Inc., and the following terms and conditions apply to their use:

Photocopying: Single photocopies of single articles may be made for personal use as allowed by national copyright laws. Permission of the Publisher and payment of a fee is required for all other photocopying, including multiple or systematic copying, copying for advertising or promotional purposes, resale, and all forms of document delivery. Special rates are available for educational institutions that wish to make photocopies for non-profit educational classroom use. For information on how to seek permission visit www.elsevier.com/permissions or call: (+44) 1865 843830 (UK) / (+1) 215 239 3804 (USA).

Derivative Works: Subscribers may reproduce tables of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the Publisher is required for resale or distribution outside the institution. Permission of the Publisher is required for all other derivative works, including compilations and translations (please consult www.elsevier.com/permissions).

Electronic Storage or Usage: Permission of the Publisher is required to store or use electronically any material contained in this journal, including any article or part of an article (please consult www.elsevier.com/permissions). Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the Publisher.

Notice: No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made. Although all advertising material is expected to conform to ethical (medical) standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

The Journal of Nutritional Biochemistry

Volume 22, Number 6, June 2011

CONTENTS

REVIEWS: CURRENT TOPICS

- 511 Nutritional modulation of the gut microbiota and immune system in preterm neonates susceptible to necrotizing enterocolitis
Richard H. Siggers, Jayda Siggers, Thomas Thymann, Mette Boye, Per T. Sangild

RESEARCH ARTICLES

- 522 Retinol inhibits aromatase activity and expression *in vitro*
Henry P. Ciolino, Zhaoli Dai, Vidhya Nair
- 527 Role of tumor necrosis factor α (TNF α) in the onset of fructose-induced nonalcoholic fatty liver disease in mice
Giridhar Kanuri, Astrid Spruss, Sabine Wagnerberger, Stephan C. Bischoff, Ina Bergheim
- 535 Ascorbate promotes carbon tetrachloride-induced hepatic injury in senescence marker protein 30-deficient mice by enhancing inflammation
Mi-Ran Ki, Hye-Rim Lee, Jin-Kyu Park, Il-Hwa Hong, Seon-Young Han, Sang-Young You, Eun-Mi Lee, Ah-Young Kim, Seung-Sook Lee, Kyu-Shik Jeong
- 543 An increase in liver PPAR γ 2 is an initial event to induce fatty liver in response to a diet high in butter: PPAR γ 2 knockdown improves fatty liver induced by high-saturated fat
Tomomi Yamazaki, Sayaka Shiraiishi, Kyoko Kishimoto, Shinji Miura, Osamu Ezaki
- 554 Reduced expression of SIRT1 is associated with diminished glucose-induced insulin secretion in islets from calorie-restricted rats
Maria Esméria Corezola do Amaral, Mirian Ueno, Camila A.M. Oliveira, Natália C. Borsonello, Emerielle C. Vanzela, Rosane A. Ribeiro, Patricia L. Alves, Helena C. Barbosa, Everardo M. Carneiro, Antonio C. Boschero
- 560 Caloric restriction reduces IgA levels and modifies cytokine mRNA expression in mouse small intestine
Eleazar Lara-Padilla, Rafael Campos-Rodríguez, Adriana Jarillo-Luna, Humberto Reyna-Garfías, Victor Rivera-Aguilar, Angel Miliar, Francisco J. Berral de la Rosa, Plácido Navas, Guillermo López-Lluch
- 567 Histone modifications, not DNA methylation, cause transcriptional repression of p16 (CDKN2A) in the mammary glands of offspring of protein-restricted rats
Shasha Zheng, Yuan-Xiang Pan
- 574 Moderate caloric restriction in lactating rats programs their offspring for a better response to HF diet feeding in a sex-dependent manner
Mariona Palou, Juana María Torrens, Teresa Priego, Juana Sánchez, Andreu Palou, Catalina Picó
- 585 The proglycation effect of caffeic acid leads to the elevation of oxidative stress and inflammation in monocytes, macrophages and vascular endothelial cells
Chi-Hao Wu, Hsiao-Wen Huang, Jer-An Lin, Shang-Ming Huang, Gow-Chin Yen
- 595 Exogenous nucleosides modulate expression and activity of transcription factors in Caco-2 cells
Ángeles Ortega, Ángel Gil, Antonio Sánchez-Pozo
