

ANNOUNCEMENT

We are happy to inform the readers of the *Journal of Steroid Biochemistry* that the journal is increasing the number of issues published per year to six. Two issues of Vol. 3 (1972), No. 2 and 3, will be special issues, devoted to the papers and discussions from the symposia on "Aldosterone and active sodium transport across epithelia" (Basel, 23–24 July 1971) and "The interaction of steroids with macromolecules" (Paris, 13–15 September 1971).
