

BIOCHIMIE 1975—TOME 57—NUMBER 9  
SOMMAIRE

*Informations*

Le fonctionnement du point de replication  
Nomenclature of eukaryotic DNA polymerases  
Colloques et Congrès

*Chronique de livres*

*Memoires originaux*

*Enzymologie.*

Purification and characterization of ovine pancreatic $\alpha$ -amylase. M. ETTALIBI, A. BEN ABDELJILIL and G. MARCHIS-MOUREN	995
Aldehyde dehydrogenase activity of a complex particle from <i>E. coli</i> . B. SCHMITT	1001
Purification et propriétés de la L-amino acide aromatique décarboxylase (4.1.1.28) du cerveau de rat. M. CORGIER et H. PACHECO	1005
Caractérisation de quelques activités hydrolasiques du suc digestif d' <i>Achatina balteata</i> . B. COLAS et J. ATTIAS	1019
Transamination du L-aspartate et de la L-phénylalanine chez <i>Escherichia coli</i> K 12. S. CHESNE, A. MONTMITONNET et J. PELMONT	1029

*Physico-chimie et macromolécules.*

Studies on free or haptoglobin-bound hemoglobin and derivatives (semihemoglobins and porphyrinated semihemoglobins). H. COLSON-GUASTALLA, C. AYMARD, J.-P. CHAMBON et F. MICHEL	1035
On the formation of a ternary complex between lipase, colipase and micelles of amphipathic compounds. H. SARI, S. NURIT and B. ENTRESSANGLES	1045

*Différenciation et morphogénèse. Immunochimie.*

Coding origin of isoaccepting tRNA in yeast mitochondria. J.-M. SCHNELLER, A. STAHL and H. FUKUHARA	1051
Evidence for three enzymatic activities in one electrophoretic band of 3 phosphoglycerate mutase from red cells. R. ROSA, I. AUDIT and J. ROSA	1059
Modification of pyruvate kinase isozymes in prolonged primary cultures of adult rat hepatocytes. C. GUEGUEN, C. GREGORI and F. SCHAPIRA	1065

*Métabolisme intermédiaire et énergétique—membranes.*

Characterization of the mannosyl and fucosyl transferases in the ovine anterior pituitary glands. C. TERTRIN-CLARY, M. P. DE LA LLOSA-HERMIER and P. DE LA LLOSA	1073
Substrats et produits de l'allongement des acides gras dans les microsomes de cerveaux de souris. S. POLLET, J. M. BOURRE, G. CHAIX, O. DAUDU et N. BAUMANN	1079
Special features of Pi transport in pig heart and rat liver mitochondria as revealed by 6-6'-dithiodinicotinic acid (CPDS). S. ABOU-KHALIL, N. SABADIE-PIALOUX and D. C. GAUTHERON	1087

*Breves communications*

Dissolution sélective de protéines de la membrane de <i>Spiroplasma citri</i> par le désoxycholate de sodium. H. WROBLEWSKI	1095
Preparation of nuclear particles and nucleosol without cross-contamination. J. STEVENIN, H. GALLINARO-MATRINCE and M. JACOB	1099
$\beta$ -glucosaminidase activity <i>in situ</i> of fibroblasts in monolayers. Variations in relation with density-dependent inhibition. C. RAMPINI, J. BURÉ and J.-C. MAZIÈRE	1103
A simple method for the determination of total 17-hydroxycorticosteroids in small urine samples. M. ALEMANY, J. BALASCH and G. RIBA	1107
Protein synthesis in interferon treated cells. R. FALCOFF, R. SCHEPS, J. SANCEAU, L. CATINOT and E. FALCOFF	1109
