

## BIOCHIMIE 1984, TOME 66 No. 9/10 SOMMAIRE

<i>Informations</i>	
La fécondation chez l'oursin: Quoi de neuf?	VII
<i>Colloques et congrès</i>	XII
<i>Chronique de livres</i>	XIX
<i>Mémoires originaux</i>	
Effects of BD-40, an ellipticine analogue (aza-ellipticine) on cell cycle traverse and DNA synthesis in cultures of synchronized mouse fibroblasts. M.-J. VILAREM, M.-P. GRAS, F. PRIMAUX and C.-J. LARSEN	591
Early effects of triiodothyronine on the complexity of rat heart messenger RNAs. M. RAYMONDJEAN, S.-A. LEIBOVITCH, M.-P. LEIBOVITCH, J. HAREL and J. KRUH	601
Cysteine proteinases content of rat muscle lysosomes. Evidence for an unusual proteinase activity. A. OBLED, A. OUALI, C. VALIN	609
Human erythrocyte phosphoglucomutase: comparison of the kinetic properties of PGM <sub>1</sub> and PGM <sub>2</sub> isoenzymes. P. NINFALI, A. ACCORSI, F. PALMA, A. FAZI, E. PIATTI, L. CHIARANTINI and G. FORNAINI	617
Interaction between dimeric methionyl-tRNA synthetase and methionine accepting tRNAs from <i>E. coli</i> .—Studies by partial ribonuclease digestion. H. U. PETERSEN, G. E. SIBOSKA, B. F. C. CLARK, R. H. BUCKINGHAM, C. HONTONDI and S. BLANQUET	625
A method for deciding whether two experimental fluorescence anisotropy decay curves are significantly different. D. GENEST and J. P. PRIVAT	631
<i>Brèves communications</i>	
The nucleotide sequence of asparagine tRNA from brewer's yeast. G. KEITH and G. PIXA	639
Enzymatic polymerization of 5-mercuriuridine-5'-diphosphate with polynucleotide phosphorylase from <i>E. coli</i> . M. BLANDIN and J. L. DROCOURT	645
<i>Index des annonceurs</i>	651
