### PLANT FLAVONOIDS IN BIOLOGY AND MEDICINE: BIOCHEMICAL, PHARMACOLOGICAL, AND STRUCTURE–ACTIVITY RELATIONSHIPS

JULY 22–26, 1985  
BUFFALO, NEW YORK

This interdisciplinary symposium will review the role of flavonoids in plants and animals and their effects in numerous mammalian cell systems. Invited lecturers will review recent advances in our understanding of their significance in physiology and function and explore their potential therapeutic uses. Contributed papers and posters are invited. The proceedings will be published.

*For further information:* please contact DR ELLIOTT MIDDLETON, JR, Department of Medicine, Buffalo General Hospital, 100 High Street, Buffalo, New York 14203, U.S.A. (716/845-2985) to have your name and address added to the mailing list for subsequent information on the program. Please also send the names of other interested colleagues. CME credit available.
