

BIOCHIMIE 1985, TOME 67 No. 1 SOMMAIRE

<i>News</i>	
The human major histocompatibility complex (HLA)	XI
<i>Colloquia and congresses</i>	XV
<i>Literature</i>	XXIII
<i>Instructions to authors</i>	XXXI
<i>Reviews</i>	
Diversity in the immune system: "Preconceived ideas" or ideas preconceived? M. COHN	9
Catabolite repression 1985. A. ULLMANN	29
Control of cell division cycle and sporulation in <i>Saccharomyces cerevisiae</i> by cyclic AMP. M. JACQUET and J. CAMONIS	35
Cell cycle in <i>E. coli</i> . D. JOSELEAU-PETIT	45
<i>Original papers</i>	
The melibiose permease system of <i>E. coli</i> K12. C. BURSTEIN and A. KEPES	59
Mechanisms of efflux of a substrate taken up by the lactose permease of <i>E. coli</i> : theoretical and experimental study. F. KEPES	69
Does a monospecific hybridoma always secrete homogeneous immunoglobins? A. F. CHAFFOTTE, L. DJAVADI-OHNIANCE and M. E. GOLDBERG	75
Roles of the <i>trkB</i> and <i>trkC</i> gene products of <i>Escherichia coli</i> in K ⁺ transport. I. R. BOOTH, W. EPSTEIN, P. M. GIFFARD and G. C. ROWLAND	83
Recent aspects of genetic manipulation in <i>Bacillus thuringiensis</i> . D. LERECLUS, M. M. LECADET, A. KLIER, J. RIBIER, G. RAPOPORT and R. DEDONDER	91
The amino acid sequence of thiogalactoside transacetylase of <i>E. coli</i> . A. V. FOWLER, M. A. HEDIGER, R. E. MUSSO and I. ZABIN	101
Chromatic adaptation in a mutant of <i>Fremyella diplosiphon</i> incapable of phycoerythrin synthesis. S. BEGUIN, G. GUGLIELMI, R. RIPPKA and G. COHEN-BAZIRE	109
The interconversion between monomeric and dimeric bovine heart cytochrome <i>c</i> oxidase. R. BOLLI, K. A. NAECEZ and A. AZZI	119
The Na ⁺ /H ⁺ exchanger of eukariotic cells: biochemical and pharmacological properties, physiological role. P. VIGNE, C. FRELIN et M. LAZDUNSKI	129
<i>Short communications</i>	
The indirect nature of the interaction of glucose transport with the system transporting galactosides. A. KOCH	137
Growth of the <i>E. coli</i> cell envelope. A. JAFFÉ and R. D'ARI	141
Indirect effects of the 3'-5' cyclic adenosine monophosphate binding protein (CAP) on the transcription of the <i>malPQ</i> operon in <i>E. coli</i> . C. GUTIERREZ, C. CHAPON and M. SCHWARTZ	145
Overproduction of the membrane-bound components of the histidine permease from <i>Salmonella typhimurium</i> : identification of the M protein. G. F.-L. AMES, K. NIKAIKO, A. HOBSON and B. MALCOLM	149
5,6-dichlorobenzimidazole-1-β-D-ribose, specific inhibitor of cytokinis activity in tobacco cell suspension cultures. S. AKE and C. PEAUD-LENOËL	155
Specific binding of the cAMP receptor protein of <i>Escherichia coli</i> to the lactose operon promoter. ALLEN H. KOOP, SILVIJA I. STAPRANS and SUZANNE BOURGEOIS	161
<i>Instrumentations and new products</i>	179
<i>Index of advertisers</i>	184
