

## BIOCHIMIE 1985, TOME 67 Nos 3-4 SOMMAIRE

<i>News</i>	
Mapping of different functional domains of the (Na <sup>+</sup> , K <sup>+</sup> ) ATPase	XIII
<i>Colloquia and Congresses</i>	XVI
<i>Literature</i>	XXIII
<i>Meeting on October 3, 4, 5th 1984—Orsay: DNA Repair. Influence on mutagenesis and carcinogenesis</i>	
<i>Introduction</i>	
R. LATARGET	273
<i>Hommage à S. Y. Wang</i>	
J. CADET	275
<i>Reviews</i>	
Recent aspects of the photochemistry of nucleic acids and related model compounds. J. CADET, L. VOITURIEZ, A. GRAND, F. E. HRUSKA, P. VIGNY and L.-S. KAN	277
Recognition of damaged regions in DNA by oligopeptides and proteins. J.-J. TOULMÉ and T. SAISON-BEHMOARAS	301
Immunological detection of lesions in DNA. M. LENG	309
Chemical structure of psoralen-nucleic acid photoadducts. P. VIGNY, F. GABORIAU, L. VOITURIEZ and J. CADET	317
Mutagenesis and growth delay induced in <i>Escherichia coli</i> by near-ultraviolet radiations. A. FAVRE, E. HAJNSDORF, K. THIAM and A. CALDEIRA DE ARAUJO	335
The SOS system. R. D'ARI	343
RECA immunological assay as a tool to analyze the SOS response. B. SALLES, P. CALSOU and M. DEFAIS	349
Role of <i>Escherichia coli</i> RecA protein in SOS induction and post-replication repair. P. L. MOREAU	353
Mechanism of SOS-induced targeted and untargeted mutagenesis in <i>E. coli</i> . G. MAENHAUT-MICHEL	365
Chemical carcinogens and proto-oncogens activation. J. LAVAL and B. S. STRAUSS	391
Mutagenic and chromosomal events in radiation transformation. J. B. LITTLE	405
Photochemotherapy using pyridopsoralens. L. DUBERTRET, D. AVERBECK, E. BISAGNI, J. MORON, E. MOUSTACCHI, C. BILLARDON, D. PAPADOPOULOU, S. NOCENTINI, P. VIGNY, J. BLAIS, R. V. BENSASSON, J. C. RONFARD-HARET, E. J. LAND, F. ZAJDELA and R. LATARJET	417
<i>Original papers</i>	
Distribution of ultraviolet-induced lesions in Simian Virus 40 DNA. F. BOURRE, G. RENAULT, P. C. SEAWELL and A. SARASIN	293
Use of a new DNA intercalating fluorescing probe for studies on the mechanism of frameshift mutagenesis in <i>Salmonella typhimurium</i> . B. RENÉ, H. BANOUN, C. AUCLAIR and C. PAOLETTI	327
Long- and short-patch gene conversions in <i>Streptococcus pneumoniae</i> transformation. M. SICARD, J.-C. LEFÈVRE, P. MOSTACHFI, A.-M. GASC, V. MÉJEAN and J.-P. CLAVERYS	377
<i>Short communications</i>	
Repair of methylated bases in mammalian cells during adaptive response to alkylating agents. F. LAVAL	361
The adaptive response in <i>E. coli</i> . M. DEFAIS	357
Template properties of ultraviolet-irradiated poly(dC) replicated by <i>E. coli</i> DNA polymerase I: Indication for a role of Apyrimidinic-sites in UV-induced mutagenesis. S. BOITEUX, J. PIERRE and J. LAVAL	371
Construction of frameshift mutation hot spots within the tetracycline resistance gene of pBR322. D. BURNOUF and R. P. P. FUCHS	385
Survival and mutagenesis of ultraviolet irradiated Simian Virus 40 in foetal human fibroblasts. A. GENTIL, L. DAYA-GROSJEAN, A. MARGOT and A. SARASIN	393
Expression of a bacterial repair gene in mammalian cells. C. BACKENDORF and P. VAN DE PUTTE	399
