HORMONAL STEROIDS

Proceedings of the VII International Congress on Hormonal Steroids
(*Madrid, Spain, 1986*)

Pergamon Press

LIST OF CONTENTS

Full Contents List	iii
List of Committees	xiii
Opening Remarks	xv

NUMBER 1-3

Plenary Lectures

Maria I. New	1 Basic and clinical aspects of congenital adrenal hyperplasia
M. Beato, J. Arnemann, G. Chalepakis, E. Slater and T. Willmann	9 Gene regulation by steroid hormones
David T. Baird	15 A model for follicular selection and ovulation: lessons from superovulation
Eeva-Marja Rutanen, Riitta Koistinen, Markku Seppälä, Mervi Julkunen, Anne-Maria Suikkari and Marja-Liisa Huhtala	25 Progesterone-associated proteins PP12 and PP14 in the human endometrium

Symposia

1. Analytical Methods

Akio Tsuji, Masako Maeda, Hidetoshi Arakawa, Shinobu Shimizu, Takashi Ikegami, Yukio Sudo, Hiroshi Hosoda and Toshio Nambara	33 Fluorescence and chemiluminescence enzyme immunoassays of 17 α -hydroxyprogesterone in dried blood spotted on filter paper
Wolfgang Klingler, Gabriele Wiegand and Rudolf Knuppen	41 Chemiluminescent labels for steroid immunoassays
T. N-E. Lövgren	47 Time-resolved fluoroimmunoassay of steroid hormones
G. Moneti, M. G. Giovannini, A. Guarna, G. Forti, R. Salerno, A. Magini and M. Serio	53 Determination of testosterone and its tissue metabolites (DHT and 3 α -diol) in human plasma and prostatic tissue by isotopic dilution mass spectrometry
D. J. Liberato, A. L. Yergey, N. Esteban, C. E. Gomez-Sanchez and C. H. L. Shackleton	61 Thermospray HPLC/MS: a new mass spectrometric technique for the profiling of steroids
F. Kohen, J. De Boever and J. B. Kim	71 Recent advances in chemiluminescence-based immunoassays for steroid hormones
Ross F. Vining and Robynne A. McGinley	81 The measurement of hormones in saliva: possibilities and pitfalls
S. Z. Cekan	95 Biases in the assays of steroids and their binding proteins
2. Steroid Receptors—Structure Jan Carlstedt-Duke and Jan-Åke Gustafsson	99 Structure and function of the glucocorticoid receptor
E. Brad Thompson	105 The structure of the human glucocorticoid receptor and its gene
W. D. Sierralta, P. I. Szendro, E. Kallweit and P. W. Jungblut	109 Biosynthesis and posttranslational finishing of the estradiol receptor
3. Steroid Receptors and Chromatin Interaction Evelyn R. Barrack	115 Steroid hormone receptor localization in the nuclear matrix: interaction with acceptor sites
Chawnschang Chang and Shutsung Liao	123 Topographic recognition of cyclic hydrocarbons and related compounds by receptors for androgens, estrogens and glucocorticoids

T. C. Spelsberg, A. Goldberger, M. Horton and J. Hora	133	Nuclear acceptor sites for sex steroid hormone receptors in chromatin
G. G. Rousseau, P. H. Eliard, J. W. Barlow, F. P. Lemaigre, D. A. Lafontaine, Ph. De Nayer, I. V. Economidis, P. Formstecher, T. Idziorek, M. Mathy-Hartert, M. L. J. Voz, A. Belayew and J. A. Martial	149	Approach to the molecular mechanisms of the modulation of growth hormone gene expression by glucocorticoid and thyroid hormones
<i>4. Assessment of the Use of Antibodies and Localization of Steroid Receptors. Fact and Artifact</i>		
K. Fuxe, A. Cintra, L. F. Agnati, A. Härfstrand, A.-C. Wikstrom, M. Zoli, L. S. Miller, J. L. Greene and J.-Å. Gustafsson	159	Studies on the cellular localization and distribution of glucocorticoid receptor and estrogen receptor immunoreactivity in the central nervous system of the rat and their relationship to the monoaminergic and peptidergic neurons of the brain
G. Fabris, E. Marchetti, A. Marzola, A. Bagni, P. Querzoli and I. Nenci	171	Pathophysiology of estrogen receptors in mammary tissue by monoclonal antibodies
Jean-Marie Gasc and E. E. Baulieu	177	From the structure of steroid receptors to their assessment by immunocytochemistry in target cells
I. Parikh, K. G. Rajendran, J.-L. Su, T. Lopez and M. Sar	185	Are estrogen receptors cytoplasmic or nuclear? Some immunocytochemical and biochemical studies
<i>5. Steroids and Gene Expression</i>		
J. F. Catterall, C. S. Watson and B. Funkenstein	193	Unique patterns of androgen regulation of the expression of two genes in murine kidney
Mark M. Compton, Lu-Ann M. Caron and John A. Cidlowski	201	Glucocorticoid action on the immune system
M. Sluysers, B. Moncharmont, G. Ramp, C. C. J. de Goeij and S. G. Evers	209	Hormonal regulation of mouse mammary tumor growth
<i>6. Phosphorylation of Steroid Receptors</i>		
Edwin R. Sanchez, Wilai Tienrungraj, Friedrich C. Dalman and Alexander L.-Y. Lin	215	Glucocorticoid receptor phosphorylation in mouse L-cells
Teresa Garcia, Thierry Buchou, Ingrid Jung-Testas, Jack-Michel Renoir and Etienne Emile Baulieu	227	Chick oviduct progesterone receptor phosphorylation: characterization of a copurified kinase and phosphorylation in primary cultures
Larry A. Denner, William E. Bingman III, Geoffrey L. Greene and Nancy L. Weigel	235	Phosphorylation of the chicken progesterone receptor
F. Auricchio, A. Migliaccio, G. Castoria, A. Rotondi, M. Di Domenico, M. Pagano and E. Nola	245	Phosphorylation on tyrosine of oestradiol-17 β receptor in uterus and interaction of oestradiol-17 β and glucocorticoid receptors with antiphosphotyrosine antibodies
<i>7. Molecular Structure and Biological Activity of Steroids and Proteins with which they Interact</i>		
T. Ojasoo, J. Delettré, J. P. Mornon, C. Turpin-VanDycke and J. P. Raynaud	255	Towards the mapping of the progesterone and androgen receptors
William L. Duax and Jane F. Griffin	271	Structural features which distinguish estrogen agonists and antagonists
Kenneth S. Korach, Louis A. Levy and Pamela J. Sarver	281	Estrogen receptor stereochemistry: receptor binding and hormonal responses
<i>8. Androgens—Transport Protein</i>		
A. Belgorosky and M. A. Rivarola	291	Changes in serum sex hormone-binding globulin and in serum non-sex hormone-binding globulin-bound testosterone during prepuberty in boys
C. Mercier-Bodard, C. Radanyi, C. Roux, M. T. Groyer, P. Robel, J. P. Dadoune, P. H. Petra, D. J. Jolly and E. E. Baulieu	297	Cellular distribution and hormonal regulation of h-SBP in human hepatoma cells

<i>9. Testicular Function</i>	
F. F. G. Rommerts, K. Teerds, A. P. N. Themmen and M. van Noort	309 Multiple regulation of testicular steroidogenesis
J. M. Saez, M. H. Perrard-Sapori, P. G. Chatelain, E. Tabone and M. A. Rivarola	317 Paracrine regulation of testicular function
R. Claus, C. Hoang-Vu, F. Ellendorff, H. D. Meyer, D. Schopper and U. Weiler	331 Seminal oestrogens in the boar: origin and functions in the sow
K. D. Roberts	337 Sterol sulfates in the epididymis; synthesis and possible function in the reproductive process
Maria L. Dufau, Azra Khanum, Christine A. Winters and Chon-Hwa Tsai-Morris	343 Multistep regulation of Leydig cell function
<i>10. Ovarian Follicular Function</i>	
S. G. Hillier	351 Intrafollicular paracrine function of ovarian androgen
A. Tsafri, A. O. Abisogun and R. Reich	359 Steroids and follicular rupture at ovulation
K. P. McNatty and K. M. Henderson	365 Gonadotrophins, fecundity genes and ovarian follicular function
Gere S. DiZerega, Sharon A. Tonetta and Gregor Westhof	375 A postulated role for naturally occurring aromatase inhibitors in follicle selection
<i>11. Ovarian Luteal Function</i>	
Florence Ledwitz-Rigby	385 Local regulation of granulosa cell maturation
Juan Balasch	393 Luteal phase insufficiency: clinical aspects
M. Pazzagli, A. Magini, G. Forti, G. Bolelli, G. Scarselli, I. Noci, S. Pellegrini, D. Rodbard and M. Serio	399 Measurement of glucuronometabolites of 17 β -estradiol and progesterone in diluted overnight urine. An approach to the study of luteal insufficiency
J. H. Dorrington, J. J. Bendell, A. Chuma and D. K. Lobb	405 Actions of growth factors in the follicle
<i>12. The Biology of Neoplasms</i>	
Klaus Wielckens, Torsten Delfs, Astrid Muth, Verena Freese and Hans-Joern Kleeberg	413 Glucocorticoid-induced lymphoma cell death: the good and the evil
Bunzo Sato, Yoshihiro Miyashita, Yashuko Nishizawa, Keizo Noma, Susumu Kishimoto, Hiroshi Mori and Keishi Matsumoto	421 Biological and biochemical characterization of estrogen-dependent mouse Leydig cell tumors
P. G. Satyaswaroop, R. Zaino, C. L. Clarke and R. Mortel	431 Nude mouse system in the study of tumor biology, treatment strategies and progesterone receptor physiology in human endometrial carcinoma
<i>13. The Biology of Breast Cancer</i>	
M. Garcia, M. J. Lacombe, H. Duplay, V. Cavaillès, D. Derocq, J. C. Delarue, B. Krebs, G. Contesso, H. Sancho-Garnier, G. Richer, J. Domergue, M. Namer and H. Rochefort	439 Immunohistochemical distribution of the 52-kDa protein in mammary tumors: a marker associated with cell proliferation rather than with hormone responsiveness
Kathryn B. Horwitz	447 The structure and function of progesterone receptors in breast cancer
N. Nakamura, Y. Nishizawa, S. Noguchi, N. Uchida, B. Sato and K. Matsumoto	459 Action mechanisms of physiological doses of androgen or pharmacological doses of estrogen in growth stimulation of Shionogi carcinoma 115 in mice
Attan Kasid and Marc E. Lippman	465 Estrogen and oncogene mediated growth regulation of human breast cancer cells

Roger J. B. King, Joanne R. Finley, Arnold I. Koffer, Rosemary R. Millis and Robert D. Rubens	471	Characterization and biological relevance of a 29-kDa, oestrogen receptor-related protein
<i>14. Clinical Studies on Breast Cancer</i>		
W. R. Miller	477	Fundamental research leading to improved endocrine therapy for breast cancer
P. F. Bruning	487	Endogenous estrogens and breast cancer a possible relationship between body fat distribution and estrogen availability
V. Craig Jordan, Nancy F. Fritz and Marco M. Gottardis	493	Strategies for breast cancer therapy with antiestrogens
W. Jonat and H. Maass	499	The present status of the adjuvant endocrine treatment
<i>15. Steroids and Prostatic Cancer</i>		
Sydney A. Shain and Rachel I. Huot	503	Proliferation of AXC/SSh rat prostate cancer cells <i>in vitro</i> is androgen modulated
Paul S. Rennie, Jean-Francois Bowden, Nicholas Bruchovsky, Paul-Sylvain Frenette, John A. Foekens and Helen Cheng	513	DNA and protein components of nuclear acceptor sites for androgen receptors in the rat prostate
M. E. Harper, D. W. Wilson, H. M. Jensen, C. G. Pierrepoint and K. Griffiths	521	Steroid hormone concentrations in relation to patient prognosis and prostate tumour grade
F. Labrie, A. Dupont, M. Giguere, J. P. Borsanyi, Y. Lacourcière, A. Bélanger, R. Lachance, J. Emond and G. Monfette	525	Combination therapy with flutamide and castration (orchiectomy or LHRH agonist): the minimal endocrine therapy in both untreated and previously treated patients
Craig A. Peters and Evelyn R. Barrack	533	Androgen receptor localization in the human prostate: demonstration of heterogeneity using a new method of steroid receptor autoradiography
A. O. Turkes, W. B. Peeling and K. Griffiths	543	Treatment of patients with advanced cancer of the prostate: Phase III trial, Zoladex against castration; a study of the British prostate group
Andrea Manni, Richard J. Santen, Alice E. Boucher, Allan Lipton, Harold Harvey, Mary Simmonds, Robert Gordon, Thomas Rohner, Joseph Drago, John Wettlaufer and Leonard M. Glode	551	Androgen depletion and repletion as a means of potentiating the effect of cytotoxic chemotherapy in advanced prostate cancer
Wilfried Bartsch, Hartmut Klein, Hans-Jörg Stürenburg and Klaus-Dieter Voigt	557	Metabolism of androgens in human benign prostatic hyperplasia: aromatase and its inhibition
<i>16. Neuroendocrine Rhythms and Steroids</i>		
D. P. Cardinali, María I. Vacas, María I. Keller Sarmiento, Graciela S. Etchegoyen, Elba N. Pereyra and H. E. Chuluyan	565	Neuroendocrine integrative mechanisms in mammalian pineal gland: effects of steroid and adenohipophysial hormones on melatonin synthesis <i>in vitro</i>
Fred W. Turek, Susan Losee-Olson, Jennifer M. Swann, Kathleen Horwath, Eve Van Cauter and Jill J. Milette	573	Circadian and seasonal control of neuroendocrine-gonadal activity
A. Bartke, A. G. Amador, V. Chandrashekar and H. G. Klemcke	581	Seasonal differences in testicular receptors and steroidogenesis
<i>17. Steroids and Brain Function</i>		
Victor D. Ramirez and Dean Dluzen	589	Is progesterone a pre-hormone in the CNS?
Alejandro F. De Nicola, Eduardo Orti, Daniel F. Moses, Ana María Magariños and Héctor Coirini	599	Functions and dysfunctions of receptors for adrenal corticoids in the central nervous system

- A. Lopez-Calderon, C. Ariznavarreta, M. D. Calderon and J. A. F. Tresguerres** 609 Gonadotropin inhibition during chronic stress: role of the adrenal gland
- L. M. Garcia-Segura, G. Olmos, P. Tranque and F. Naftolin** 615 Rapid effects of gonadal steroids upon hypothalamic neuronal membrane ultrastructure
- Sonia J. Ringstrom and Neena B. Schwartz** 625 Differential effect of glucocorticoids on synthesis and secretion of luteinizing hormone (LH) and follicle stimulating hormone (FSH)
- Carlos Kubli-Garfias** 631 Modulatory action of 5-reduced androgens and progestins on the excitability of CNS and smooth muscle
- Felipe F. Casanueva, Carlos G. Borrás, Bartolome Burguera, Covadonga Muruais, Mar Fernandez and Jesus Devesa** 635 Steroids and neuroendocrine function in anorexia nervosa

NUMBER 4-6

18. Steroids in the Neuroendocrine System

- Junzo Kato, Akiko Takano, Naoki Mitsuhashi, Noriaki Koike, Koji Yoshida and Shuji Hirata** 641 Modulation of brain progesterin and glucocorticoid receptors by unsaturated fatty acid and phospholipid
- P. Robel, E. Bourreau, C. Corpéchet, D. C. Dang, F. Halberg, C. Clarke, M. Haug, M. L. Schlegel, M. Synguelakis, C. Vourch and E. E. Baulieu** 649 Neuro-steroids: 3 β -hydroxy- Δ 5-derivatives in rat and monkey brain
- Fernando Larrea, Filipe Vilchis, Bertha Chávez, Ana E. Pérez, Josué Garza-Flores and Gregorio Pérez-Palacios** 657 The metabolism of 19-nor contraceptive progestins modulates their biological activity at the neuroendocrine level

19. Integration of Steroid and Neurotransmitter Systems in the Brain

- Virendra B. Mahesh and Thomas G. Muldoon** 665 Integration of the effects of estradiol and progesterone in the modulation of gonadotropin secretion
- Satya P. Kalra, Pushpa S. Kalra, Abhiram Sahu and William R. Crowley** 677 Gonadal steroids and neurosecretion: facilitatory influence on LHRH and neuropeptide Y
- José A. Ramos, José R. Pais, Maribel Cebeira and Javier Fernandez-Ruiz** 683 Role of estrogens on striatal dopaminergic activity
- P. Limonta, R. Maggi, D. Dondi, L. Martini and F. Piva** 691 Gonadal steroid modulation of brain opioid systems

20. Aging of the Endocrine Tissue

- James F. Nelson, Mark D. Bergman, Katarzyna Karelus and Lêda S. Felicio** 699 Aging of the hypothalamo-pituitary-ovarian axis: hormonal influences and cellular mechanisms
- F. Piva, P. Limonta, R. Maggi, D. Dondi, E. Messi, M. Zanisi and M. Motta** 707 Aging and the hypothalamo-pituitary-testicular axis in the rat
- Phyllis M. Wise** 713 The role of the hypothalamus in aging of the female reproductive system

21. Molecular Mechanisms of Steroid Synthesis

- Colin R. Jefcoate, Michael J. DiBartolomeis, Christopher A. Williams and Brian C. McNamara** 721 ACTH regulation of cholesterol movement in isolated adrenal cells
- Robert C. Pedersen** 731 Steroidogenesis activator polypeptide (SAP) in the rat ovary and testis
- Robert V. Farese** 737 An update on the role of phospholipid metabolism in the action of steroidogenic agents

- Angela R. Solano, Laura A. Dada, Maria Luz Sardaños, Mercedes L. Sánchez and Ernesto J. Podestá 745 Leukotrienes as common intermediates in the cyclic AMP dependent and independent pathways in adrenal steroidogenesis
- Carole R. Mendelson, Claudia T. Evans and Evan R. Simpson 753 Regulation of aromatase in estrogen-producing cells
- Walter L. Miller 759 Structure of genes encoding steroidogenic enzymes
- 22. Enzymes in Steroid Synthesis*
- Thaddeus G. Golos, Jerome F. Strauss III and Walter L. Miller 767 Regulation of low density lipoprotein receptor and cytochrome P-450_{scc} mRNA levels in human granulosa cells
- Hiroko Ishii-Ohba, Hiroshi Inano and Bun-ichi Tamaoki 775 Testicular and adrenal 3 β -hydroxy-5-ene-steroid dehydrogenase and 5-ene-4-ene isomerase
- Yoshio Osawa, Tadayoshi Higashiyama, Mary Fronckowiak, Nobutaka Yoshida and Carol Yarborough 781 Aromatase
- Carlos P. Lantos, María C. Damasco, Alcira Aragonés, Nora R. Ceballos, Gerardo Burton and Eduardo N. Cozza 791 Versatile steroid molecules at the end of the aldosterone pathway
- Evan R. Simpson, J. Ian Mason, Maliyakal E. John, Mauricio X. Zuber, Raymond J. Rodgers and Michael R. Waterman 801 Regulation of the biosynthesis of steroidogenic enzymes
- 23. The Action of and Resistance to Vitamin D*
- Dalia Sömjen, Yehushua Earon, Shaul Harell, Zvi Shimshoni, Yosef Weisman, Arie Harell, Alvin M. Kaye and Itzhak Binderman 807 Developmental changes in responsiveness to vitamin D metabolites
- Angelo Caniggia, Fausto Lorè, Giovanni Di Cairano and Ranuccio Nuti 815 Main endocrine modulators of vitamin D hydroxylases in human pathophysiology
- A. Niendorf, H. Arps and M. Dietel 825 Effect of 1,25-dihydroxyvitamin D₃ on human cancer cells *in vitro*
- R. Bosch, J. H. H. Thijssen and S. A. Duursma 829 Action and metabolism of dihydrotachysterol₂
- 24. Chemistry of Steroid Antagonists*
- Thomas L. Popper, Margaret J. Gentles, Ted T. Kung, Joseph Berkenkopf, Barry N. Lutsky, Arthur S. Watnick and Elliot L. Shapiro 837 Structure-activity relationships of a series of novel topical corticosteroids
- Ryoyu Takeda, Isamu Miyamori, Ryuichiro Soma, Takao Matsubara and Masa Toshi Ikeda 845 Glycyrrhizic acid and its hydrolysate as mineralocorticoid agonist
- Rudolf Wiechert and Günter Neef 851 Synthesis of antiprogestational steroids
- 25. Antihormones*
- Pekka Lähteenmäki, Oskari Heikinheimo, Horacio Croxatto, Irving Spitz, Donna Shoupe, Lars Birgeron and Tapani Luukkainen 859 Pharmacokinetics and metabolism of RU 486
- Manuel Worcel and Anne-Marie Moura 865 Arterial effects of aldosterone and antimineralocorticoid compounds mechanism of action

M. Moguilewsky, C. Bertagna and M. Hucher	871	Pharmacological and clinical studies of the antiandrogen Anandron
26. Antiestrogens		
Catherine B. Lazier	877	Interactions of tamoxifen in the chicken
J. R. Pasqualini, C. Sumida, N. A. Giambiagi and B.-L. Nguyen	883	The complexity of anti-estrogen responses
Robert L. Sutherland, Colin R. W. Watts, Rosemary E. Hall and Peter C. Ruenitz	891	Mechanisms of growth inhibition by nonsteroidal antioestrogens in human breast cancer cells
A. M. H. Brodie, R. C. Coombes and M. Dowsett	899	Aromatase inhibitors: basic and clinical studies
David Henderson	905	Aromatase inhibitors: their biochemistry and clinical potential
27. Control of Aldosterone Secretion		
K. J. Catt, M. C. Carson, W. P. Hausdorff, C. M. Leach-Harper, A. J. Baukal, G. Guillemette, T. Balla and G. Aguilera	915	Angiotensin II receptors and mechanisms of action in adrenal glomerulosa cells
G. P. Vinson, B. J. Whitehouse, J. P. Hinson, I. D. Porter, S. M. Laird, M. E. McAuley, and D. R. E. Abayasekara	929	Control of aldosterone secretion in zona glomerulosa cell suspensions and in the perfused adrenal gland of the rat
F. Mantero, S. Rocco, F. Pertile, G. Carpené, F. Fallo and A. Menegus	935	α -h-ANP injection in normals, low renin hypertension and primary aldosteronism
Patrick J. Mulrow, Masao Takagi, Mari Takagi and Roberto Franco-Saenz	941	Inhibitors of aldosterone secretion
Rafael Garcia-Robles and Luis M. Rulope	947	Pharmacological influences on aldosterone secretion
28. Steroid Hypertension and Renal Function		
Jean-Pierre Bonvalet	953	Binding and action of aldosterone, dexamethasone, 1-25(OH) ₂ D ₃ , and estradiol along the nephron
J. Diez	963	Absence of effect of aldosterone on sodium efflux catalyzed by the human erythrocyte Na ⁺ , K ⁺ -ATPase <i>in vitro</i>
D. Armanini, M. Wehling and P. C. Weber	967	Mineralocorticoid effector mechanism in human mononuclear leukocytes
Celso E. Gomez-Sanchez, Elise P. Gomez-Sanchez and O. Bryan Holland	971	Role of 18-hydroxylated cortisols in hypertension
Amanda F. Reid, Campbell D. Spence, John P. Coghlan, Derek A. Denton, Judith A. Whitworth and Bruce A. Scoggins	977	Steroid antagonism of the hypertensinogenic activity of adrenocortical steroids
29. Metabolism of Steroids		
M. J. Reed, P. A. Beranek, R. W. Cheng, J. M. McNeill and V. H. T. James	985	Peripheral oestrogen metabolism in postmenopausal women with or without breast cancer: the role of dietary lipids and growth factors
30. Contraception		
H. B. Croxatto and S. Díaz	991	The place of progesterone in human contraception
Ludwig Kiesel, Klaus Helm, Karin Bertges, Christiane Maier, Thomas Rabe and Benno Runnebaum	995	Contraceptive progestins and gonadotropin secretion <i>in vitro</i>

- Roberto Rivera, Gloria Alvarado, Consuelo Flores, Silvia Aldaba and Ana Hernandez** 1003 Norethisterone contraceptive microspheres
- A. Ulmann** 1009 The antiprogestins: a recent advance in fertility regulation
- 31. Pregnancy and Lactation*
- M. Linette Casey, Craig A. Winkel, Alireza Guerami and Paul C. MacDonald** 1013 Mineralocorticosteroids and pregnancy: regulation of extra-adrenal deoxycorticosterone production by estrogen
- Qinzhang Zhu, Ava V. Singh, Andrew Bateman, Fred Esch and S. Solomon** 1017 The corticostatic (anti-ACTH) and cytotoxic activity of peptides isolated from fetal, adult and tumor-bearing lung
- Arturo Zárate and Elias S. Canales** 1023 Endocrine aspects of lactation and postpartum infertility
- William Leigh Ledger and Anne B. M. Anderson** 1029 The influence of steroid hormones on the uterine cervix during pregnancy
- Kristen B. Eik-Nes, Anne B. L. Marthinsen, Ragnhild Lofthus and Egil Haug** 1035 Corticosteroids and lung surfactant levels in adult male rats
- Mamdouh M. Shaaban, Gamal H. Sayed and Sharaf A. Ghaneimah** 1043 The recovery of ovarian function during breast-feeding
- 32. Interactions. Steroids-Prostaglandins*
- Fusao Hirata, Mary L. Stracke and Elliott Schiffmann** 1053 Regulation of prostaglandin formation by glucocorticoids and their second messenger, lipocortins
- R. C. Bonney, S. T. Qizilbash and S. Franks** 1057 Endometrial phospholipase A2 enzymes and their regulation by steroid hormones
- Frederick Schatz, Leszek Markiewicz and Erlio Gurpide** 1065 Estradiol enhances prostaglandin synthase activity in epithelial but not in stromal cells of human endometrium
- Anna-Riitta Fuchs** 1073 Prostaglandin F2alpha and oxytocin interactions in ovarian and uterine function
- 33. Sexual Differentiation*
- Günter Dörner, Friedemann Döcke, Franziska Götz, Wolfgang Rohde, Fritz Stahl and Renate Tönjes** 1081 Sexual differentiation of gonadotrophin secretion, sexual orientation and gender role behavior
- A. I. Esquifino, M. A. Villanua and C. Agrasal** 1089 Effect of neonatal melatonin administration on sexual development in the rat
- Jasna Kniewald, Marijana Peruzović, Tihomira Gojmerac, Karmela Milković and Zlatko Kniewald** 1095 Indirect influence of s-triazines on rat gonadotropic mechanism at early postnatal period
- Gregorio Pérez-Palacios, Bertha Chávez, Juan Pablo Méndez, Julianne Imperato McGinley and Alfredo Ulloa-Aguirre** 1101 The syndromes of androgen resistance revisited
- 34. Pharmacology of Sex Steroids on Liver*
- Arnold J. Eisenfeld and Raymond F. Aten** 1109 Estrogen receptors and androgen receptors in the mammalian liver
- E. R. Lax** 1119 Mechanisms of physiological and pharmacological sex hormone action on the mammalian liver
- A. K. Roy, B. Chatterjee, K. V. S. Rao, C. V. R. Murty, F. H. Sarkar and D. Majumdar** 1129 Androgenic regulation of hepatic gene expression
- H. Adlercreutz, K. Höckerstedt, C. Bannwart, S. Bloigu, E. Hämäläinen, T. Fotsis and A. Ollus** 1135 Effect of dietary components, including lignans and phytoestrogens, on enterohepatic circulation and liver metabolism of estrogens and on sex hormone binding globulin (SHBG)

- Jeanette Winter and
Victor D. Bokkenheuser** 1145 Bacterial metabolism of natural and synthetic sex hormones undergoing enterohepatic circulation
- 35. Structural Correlates of Steroid Secretion*
- J.-G. Lehoux, A. Lefebvre,
E. de Medicis, M. Bastin, S. Bélisle
and D. Bellabarba** 1151 Effect of ACTH on cholesterol and steroid synthesis in adrenocortical tissues
- Peter J. Hornsby** 1161 Physiological and pathological effects of steroids on the function of the adrenal cortex

SUBJECT INDEX

- Acceptor sites
 - steroid hormone receptor localization, interaction with, 115
- ACTH
 - effect of, on cholesterol and steroid synthesis, 1151
 - regulation of cholesterol, in isolated adrenal cells, 721
- Adrenal cortex
 - physiological and pathological effects of steroids on the function of, 1161
- Aldosterone
 - absence of effect on sodium efflux, in human erythrocytes, 963
 - arterial effects of, 865
 - binding of, in the nephron, 953
 - control of, secretion in zona glomerulosa cell suspension and in perfused adrenal, 929
 - inhibition of, 941
 - pharmacological influences on, secretion, 947
 - versatile steroid molecules at the end of, pathway, 791
- Aldosteronism
 - primary, effect of atrial natriuretic peptide, 935
- Androgen receptor
 - DNA and protein components of nuclear acceptor for, 513
 - localization in the human prostate, demonstration of heterogeneity using a new method of steroid receptor autoradiography, 533
- Angiotensin II
 - receptors and mechanisms of action in adrenal glomerulosa cells, 915
- Anti-ACTH
 - and cytotoxic activity of peptides isolated from fetal, adult and tumor-bearing lung, 1017
- Anti-androgen(s)
 - pharmacological and clinical studies of, 871
- Anti-estrogen(s)
 - and breast cancer therapy, 493
 - the complexity of, responses, 883
- Anti-mineralocorticoid
 - arterial effect of, 865
- Anti-progestational steroids
 - synthesis of, 851
- Anti-progestins
 - recent advances in fertility regulation, 1009
- Aromatase
 - inhibitors, basic and clinical studies, 899
 - inhibitors, biochemistry and clinical potential, 905
 - inhibitors, in follicle selection, 375
 - in human placenta, 781
 - regulation of, in estrogen-producing cells, 753
- Benign prostatic hyperplasia
 - metabolism of androgens in, 557
- Brain
 - gonadal steroid modulation of, opioid systems, 691
 - 3 β -hydroxy-5-ene-steroid derivatives in, 649
 - modulation of progestin and glucocorticoid receptors in, 641
- Breast cancer
 - adjuvant endocrine treatment, 499
 - endocrine therapy for, 477
 - endogenous estrogens and, 487
 - estrogen and oncogene regulation growth, 465
 - mechanism of growth inhibition by antiestrogen, in cells, 891
 - peripheral estrogen metabolism in patients with, 985

- progesterone receptor, 447
- therapy with antiestrogens, 493
- Central nervous system
 - modulatory action of 5-reduced androgens, 631
- Chromatin
 - nuclear acceptor sites for sex steroid hormones, 133
- Congenital adrenal hyperplasia
 - basic and clinical aspects, 1
- Contraceptive progestins
 - and gonadotropin secretion *in vitro*, 995
- Contraceptive(s)
 - the place of progesterone, in human, 991
- Corticosteroid(s)
 - structure and activity of a series of novel-topical, 837
- Dihydrotachysterol
 - activity and metabolism of, 829
- 1,25-Dihydroxy Vitamin D₃
 - effect of, in human cancer cells, 825
- Endometrial phospholipase
 - regulation by steroid hormones, 1057
- Endometrium
 - estradiol enhances prostaglandin synthase in epithelial but not in stromal cells of, 1065
 - human and progesterone-associated proteins PP12 and PP14, 25
- Epididymis
 - sterol sulfates synthesis in, 337
- Estrogen(s)
 - agonists and antagonists, structural functions which distinguish, 271
 - in the semen and Leydig-cells, in the sow, 331
 - receptor(s)
 - biosynthesis and posttranslational finishing of the, 14 *bis* characterization and biological relevance of a 29 kDa, related protein, 471
 - immunocytochemical and biochemical status, 185
 - in mammary tissues, 171
 - in the central nervous system, 159
 - phosphorylation, 245
 - stereochemistry and hormonal responses, 281
 - role of, on striatal dopaminergic activity, 683
- FSH
 - effect of glucocorticoids on, 625
- Gene expression
 - androgenic regulation of hepatic, 1129
- Genes
 - regulation by steroid hormones, 9
 - regulation of the expression of, by androgens, 193
 - structure of, encoding steroidogenic enzymes, 759
- Glucocorticoid(s)
 - action on the immune system, 201
 - receptor(s)
 - in the central nervous system, 159
 - phosphorylation in mouse L-cells, 215
 - structure and function, 99
 - structure of, and its gene, 105
- Gonadal steroids
 - and neurosecretion, 677
 - rapid effects of, upon hypothalamic neuronal membrane ultrastructure, 615
- Gonadotrophins
 - effect of estradiol and progesterone in the modulation of, secretion, 665
 - fecundity genes and ovarian follicular function, 365
 - inhibition during chronic stress, 609
 - sexual differentiation of, secretion, 1081

Granulosa cell
 local regulation of, 385

Growth factors
 actions in the follicle, 405

Growth hormone
 gene expression, effect of glucocorticoid and thyroid hormones, 149

Hepatoma cells
 cellular distribution and hormonal regulation of 1-SBP in human, 297

17-Hydroxyprogesterone
 fluorescence and chemiluminescence enzyme immunoassays of, 33

Hypertension
 role of 18-hydroxylated cortisols, 971

Hypothalamo-pituitary-ovarian axis
 hormonal influences and cellular mechanism, 699

Hypothalamo-pituitary-testicular axis
 and aging in the rat, 707

Hypothalamus
 role of, in aging of the female reproductive system, 713

Immunocytochemistry
 steroid receptors and, 177

Lactation
 endocrine aspects of, and post-partum infertility, 1023

Leydig cell
 in tumors, biological and biochemical characterization of estrogen-dependent, in mouse, 421
 multistep regulation of, functions, 343

LH
 glucocorticoid effect on, 625

LHRH
 gonadal steroids and neurosecretion of, 677

Low density lipoprotein
 regulation of, receptor and cytochrome P-450_{scc} in RNA levels in human granulosa cells, 767

Lung surfactant
 corticoids and, in rats, 1035

Luteal phase
 glucuronometabolites of estradiol and progesterone, in insufficiency, 399
 insufficiency, clinical aspects, 393

Lymphoma cell
 effect of glucocorticoid-induced death of, 413

Mammalian liver
 estrogen and androgen receptors, 1109
 mechanism of physiological and pharmacological sex hormones action on, 1119

Mammary tumors
 estrogen and oncogene mediated growth regulation in, 465
 hormonal regulation of, in mouse, 209
 immunohistochemical distribution of the 52-kDa protein in, 439

Mass spectrometric technique
 steroid analysis by, 61

Melatonin
 effect of, on sexual development in rat, 1089

Mineralocorticoid agonist
 glycyrrhizic acid and its hydrolysate as, 845

Mineralocorticosteroid(s)
 and pregnancy, 1013

Monoclonal antibody
 for estrogen receptor, 171

Mononuclear leukocytes
 mineralocorticoid effector mechanism in human, 967

Nervous system
 functions and dysfunctions of receptors for adrenal corticoids in, 599

- Neuroendocrine function
 - in Anorexia nervosa, 635
- Neuroendocrine-gonadal activity
 - circadian and seasonal control of, 573
- Norethisterone
 - contraceptive microspheres, 1003
- 19-Nor-progestins
 - and neuroendocrine activities, 657
- Nude mice
 - and tumor biology, 431
- Oncogene
 - mediated growth regulation of human breast cancer cell, 465
- Ovarian androgens
 - intrafollicular paracrine function of, 351
- Ovarian function
 - the recovery of, during breast feeding, 1043
- Ovulation
 - a model for follicular selection and, 15
 - steroids and follicular rupture at, 359
- Phytoestrogen(s)
 - effect on enterohepatic circulation and liver metabolism of estrogens and on SHBG, 1135
- Pineal gland
 - neuroendocrine integrative mechanisms in, 565
- Pregnancy
 - influence of steroid hormones on the uterine cervix during, 1029
- Progesterone
 - is, a prehormone in the CNS? 589
 - receptors phosphorylation, in chick oviduct, 227, 235
- Prostaglandin(s)
 - F_{2α} and oxytocin interactions in ovarian and uterine functions, 1073
 - regulation of, formation by glucorticoids, 1053
- Prostate cancer
 - androgen depletion and repletion as a means of potentiating the effect of cytotoxic chemotherapy in advanced, 551
 - combination-therapy with flutamide and castration, 525
 - determination of testosterone and its metabolites in, 53
 - proliferation of AXC-SSh rat cells is androgen modulated, 503
 - steroid hormone concentration in relation to patient prognosis, 521
 - treatment in advanced, Zoladex against castration
- Receptor(s)
 - androgen
 - topographic recognition of cyclic hydrocarbons by, 123
 - estrogen
 - in mammary tissues, 171
 - immunocytochemical and biochemical studies, 185
 - in the central nervous system, 159
 - topographic recognition of cyclic hydrocarbons by, 123
 - glucocorticoid(s)
 - in the central nervous system, 159
 - structure and function, 99
 - topographic recognition of cyclic hydrocarbons by, 123
 - of the progesterone and androgens, towards the mapping of, 255
 - sex steroid hormones, nuclear acceptors for, 133
- RU-486
 - pharmacokinetics and metabolism, 859
- Saliva
 - measurement of hormones in, 81
- Sex hormone-binding globulin
 - changes in serum, in prepubertal boys, 291

Sex hormone(s)
bacterial metabolism of natural and synthetic, 1145

Shionogi carcinoma 115
mechanism of action of androgens and estrogens in, in mouse, 459

Steroid antagonism
of the hypertensinogenic activity on adrenocortical steroids, 977

Steroid immunoassays
chemiluminescent labels for, 41

Steroidogenesis activator polypeptide
in rat ovary and testis, 731

Steroidogenic agents
an update on the role of phospholipid metabolism in the action of, 737

Steroidogenic enzymes
regulation of the biosynthesis of, 801

Steroid(s)
biases in the assays of, 95
fluoroimmunoassays for, 47
recent advances in chemiluminescence-based immunoassays for, 71

Syndrome of androgen resistance
revisited, 1101

Tamoxifen
interactions of, in the chicken, 877
the complexity of, responses, 883

Testis
 3β -hydroxy-5-ene-steroid dehydrogenase and 5-ene-4-ene isomerase activities, 775
multiple regulation of steroidogenesis in, 309
paracrine regulation of, function, 317
receptors and steroidogenesis, 581

s-Triazines
indirect influence of, on rat gonadotropic mechanism, 1095

Vitamin D
main endocrine modulators of, hydrolase, 815
metabolites and developmental changes in responsiveness to, 807
