AMERICAN SOCIETY OF ANDROLOGY  
16TH ANNUAL MEETING AND POSTGRADUATE COURSE

*27-30 April 1991, Montreal, Canada*

The American Society of Andrology is a Society whose members include physicians, veterinarians, and basic scientists interested in the entire field of reproduction, including normal and abnormal aspects of clinical andrology, animal reproduction and fertility and infertility. The theme for the Postgraduate Course, to be held on Saturday 27th April, will be "*An Update on Fertilization in the Laboratory and in the Clinic*". The scientific program will feature major lectures by prominent investigators on aspects of neuroendocrinology, LH receptor and inhibin physiology, physiologic mechanisms of androgen transport into tissues, recent advances in bio- and immuno-hormone functions and analyses, and clinical use of  $5\alpha$ -reductase inhibitors and antiandrogens in prostatic disease. On 30th April an additional postgraduate course on medical therapy of prostatic disease will be held. Short oral and poster presentations of new research will also be delivered. Deadline for receipt of abstracts is 20th October 1990.
