

## Subject Index of Vol. 92, Nos. 1–5, September–December 2004

### Abdominal aortic aneurysm

allelic genes involved in artery compliance and susceptibility to sporadic, Dec/9

### Aldosterone

role of voltage-gated calcium channels in potassium-stimulated, secretion from rat adrenal zona glomerulosa cells, Oct/10

### Androgen(s)

lipogenesis and prostate cancer, Nov/5

receptor(s)

alterations of androgen receptor in prostate cancer, Nov/3

expression and function of androgen receptor coactivators in prostate cancer, Nov/4

### Androgen-dependent diseases

6-[2-(Adamantylidene)-hydroxybenzoxazole]-*O*-sulfamate, a steroid sulfatase inhibitor for the treatment of, Sept/3

### Androgen-induced levator ani muscle

phosphorylation of p70s6 kinase is implicated in, anabolism in castrated rats, Dec/12

### Binding affinity constants

requirements for reliable determination of, by saturation analysis approach, Dec/10

### Calbindin D28K

suppression of, in estrogen-induced hamster renal tumors, Dec/7

### Cytochrome P450

two distinct, aromatases in the orange-spotted grouper (*Epinephelus coioides*): cDNA cloning and differential mRNA expression, Sept/4

### Cytochrome P450c17

cationic charges on Arg<sup>347</sup>, Arg<sup>358</sup> and Arg<sup>449</sup> of human, are essential for the enzyme's cytochrome b5-dependent Acyl-carbon cleavage activities, Oct/2

### CYP17 inhibitor(s)

potent: improved syntheses, pharmacokinetics and anti-tumor activity in the LNCaP human prostate cancer model, Oct/5

### Cytochrome P4507B1

human: catalytic activity studies, Dec/6

### 1,25-Dihydroxyvitamin D<sub>3</sub>

molecular activity of, in primary cultures of human prostatic epithelial cells revealed by cDNA microarray analysis, Oct/3

### Endocrine disruptors

effects of, on sex steroid synthesis and metabolism pathways in fish, Dec/17

### Endometrial adenocarcinoma

significance of progesterone receptor-A and -B expressions in, Oct/1

### 17 $\alpha$ -estradiol

in vitro bioactivity of, Dec/13

### Estradiol-dependent cancers

drug delivery systems for  $\alpha$  estrogenic hormones and antagonists: the need for selective targeting in, Sept/1

## Estrogen(s)

an isotope dilution gas chromatographic – mass spectrometric method for the simultaneous assay of estrogens and phytoestrogens in urine, Dec/8

## receptor(s)

cyclin D1 expression is dependent on, function in tamoxifen-resistant breast cancer cells, Sept/6

differential distribution of splice variants of, beta in human testicular cells suggests specific functions in spermatogenesis, Sept/10

non-classical regulation of,  $-\alpha$  by ICI 182,780, Sept/5

role of, in development of prostate cancer, Nov/8

triphasic pattern in the ex vivo response of human proliferative phase endometrium to, Oct/7

## Estrogen-dependent diseases

6-[2-(adamantylidene)-hydroxybenzoxazole]-*O*-sulfamate, a steroid sulfatase inhibitor for the treatment of, Sept/3

## Estrogenic hormones and antagonists

drug delivery systems for: the need for selective targeting in estradiol-dependent cancers, Sept/1

## Glucocorticoid(s)

## receptor(s)

dehydroepiandrosterone and its 7-hydroxylated metabolites do not interfere with the transactivation and cellular trafficking of the, Dec/15

knockdown of, expression by RNA interference promotes cell proliferation in murine macrophage RAW264.7 cells, Dec/5

rapid and simple method for detection of Asn363Ser polymorphism of the human, gene, Dec/14

selective, nonsteroidal ligands completely antagonize the dexamethasone mediated induction of enzymes involved in gluconeogenesis and glutamine metabolism, Dec/2

## Gluconeogenesis

selective glucocorticoid receptor nonsteroidal ligands completely antagonize the dexamethasone mediated induction of enzymes involved in, and glutamine metabolism, Dec/2

## Hamster renal tumors

suppression of calbindin D28K in estrogen-induced, Dec/7

## Hydroxylase(s)

genes encoding the, of 3-hydroxy-9,10-secoandrosta-1,3,5(10)-triene-9,17-dione in steroid degradation in *Comamonas testosteroni* TA441, Oct/4

## ICI 182,780

non-classical regulation of estrogen receptor  $-\alpha$  by, Sept/5

## Isoflavones

altered testicular microsomal steroidogenic enzyme activities in rats with lifetime exposure to soy, Dec/11

## LNCaP human prostate cancer

potent CYP17 inhibitors: improved syntheses, pharmacokinetics and anti-tumor activity in the, model Oct/5

## MA-10 Leydig cells

steroidogenic activities in, are differentially altered by cAMP and Müllerian inhibiting substance, Oct/9

## Mammary cells

ras activation is associated with vitamin D receptor mRNA instability in HC11, Sept/9

## Mammary steroid metabolizing enzymes

in relation to progestin treatment and tumorigenesis in the dog, Oct/6

## MCF-7 breast tumor cells

potentiation of cell killing by fractionated radiation and suppression of proliferative recovery in by the vitamin D<sub>3</sub> analog EB 1089, Dec/4

## Müllerian inhibiting substance

steroidogenic activities in MA-10 Leydig cells are differentially altered by cAMP and, Oct/9

## Neonates

detection of thiopental in the steroid fraction of serum from, following maternal exposure, Sept/7

## Neoplastic prostatic development

hormonal, cellular, and molecular regulation of normal and, Nov/1

## Nuclear receptor ligands

interaction of, with the vitamin D signaling pathway in prostate cancer, Nov/9

**8-Prenylnaringenin**

two major metabolites of, are estrogenic in vitro, Sept/11

**Progesterone**

receptor(s)

significance of, -A and -B expressions in endometrial adenocarcinoma, Oct/1

**Proliferative phase endometrium**

triphasic pattern in the ex vivo response of human, to oestrogen, Oct/7

**Prostate cancer**

alterations of androgen receptor in, Nov/3

androgens, lipogenesis and, Nov/5

endocrine treatment of, Nov/7

epidemiology of sex steroid hormones and their signaling and metabolic pathways in the etiology of, Nov/2

expression and function of androgen receptor coactivators in, Nov/4

interaction of nuclear receptor ligands with the vitamin D signaling pathway in, Nov/9

major impact of hormonal therapy in localized, Dec/1

role of estrogens in development of, Nov/8

role of vitamin D<sub>3</sub> metabolism in, Nov/10

sex steroid hormone metabolism and, Nov/6

**Prostate carcinoma cell line 22RV1**

characterization of steroid receptor expression in the human, and quantification of androgen effects on mRNA regulation of prostate specific genes, Oct/8

**Prostatic epithelial cells**

molecular activity of 1,25-dihydroxyvitamin D<sub>3</sub> in primary cultures of human, revealed by cDNA microarray analysis, Oct/3

**Ras**

activation is associated with vitamin D receptor mRNA instability in HC11 mammary cells, Sept/9

**Receptor(s)**

androgen(s)

alterations of androgen receptor in prostate cancer, Nov/3

expression and function of androgen receptor coactivators in prostate cancer, Nov/4

estrogen(s)

cyclin D1 expression is dependent on, function in tamoxifen-resistant breast cancer cells, Sept/6

differential distribution of splice variants of, beta in human testicular cells suggests specific functions in spermatogenesis, Sept/10

non-classical regulation of,  $-\alpha$  by ICI 182,780, Sept/5

glucocorticoid(s)

dehydroepiandrosterone and its 7-hydroxylated metabolites do not interfere with the transactivation and cellular trafficking of the, Dec/15

knockdown of, expression by RNA interference promotes cell proliferation in murine macrophage RAW264.7 cells, Dec/5

rapid and simple method for detection of Asn363Ser polymorphism of the human, gene, Dec/14

selective, nonsteroidal ligands completely antagonize the dexamethasone mediated induction of enzymes involved in gluconeogenesis and glutamine metabolism, Dec/2

progesterone

significance of, -A and -B expressions in endometrial adenocarcinoma, Oct/1

steroid

characterization of, expression in the human prostate carcinoma cell line 22RV1 and quantification of androgen effects on mRNA regulation of prostate specific genes, Oct/8

steroid hormone

FLASH interacts with p160 coactivator subtypes and differentially suppresses transcriptional activity of, Dec/3

**Retinoid X receptor- $\alpha$  (RXR $\alpha$ )**

molecular cloning and characterization of two novel human, splice variants, Sept/2

**Selective estrogen modulator SCH 57068**

prevents bone loss, reduces serum cholesterol and blocks estrogen-induced uterine hypertrophy in ovariectomized rats, Sept/8

**Sex steroid hormone(s)**

epidemiology of, and their signaling and metabolic pathways in the etiology of prostate cancer, Nov/2

metabolism and prostate cancer, Nov/6

## Spermatogenesis

differential distribution of splice variants of estrogen receptor beta in human testicular cells suggests specific functions in, Sept/10

## Steroidal alkaloids

cholinesterase inhibitory and spasmolytic potential of, Dec/16

## Steroid sulfatase inhibitor

6-[2-(adamantylidene)-hydroxybenzoxazole]-*O*-sulfamate, a, for the treatment of androgen- and estrogen-dependent diseases, Sept/3

## Steroid(s)

receptor(s)

characterization of, expression in the human prostate carcinoma cell line 22RV1 and quantification of androgen effects on mRNA regulation of prostate specific genes, Oct/8

## Tamoxifen

cyclin D1 expression is dependent on estrogen receptor function in, -resistant breast cancer cells, Sept/6

## Testicular microsomal steroidogenic enzyme

altered testicular, activities in rats with lifetime exposure to soy isoflavones, Dec/11

## Tumorigenesis

mammary steroid metabolizing enzymes in relation to progestin treatment and, in the dog, Oct/6

## Vitamin D

interaction of nuclear receptor ligands with the vitamin D signaling pathway in prostate cancer, Nov/9

role of vitamin D<sub>3</sub> metabolism in prostate cancer, Nov/10

Vitamin D<sub>3</sub> analog EB 1089

potentiation of cell killing by fractionated radiation and suppression of proliferative recovery in MCF-7 breast tumor cells by the, Dec/4

We would like to express our deep thanks to the following persons for their kind collaboration in reviewing papers for this volume of The Journal of Steroid Biochemistry and Molecular Biology:

Gomez-Sanchez C.E., Jackson, USA

Gompel A., Paris, France

Henry H.L., Riverside, USA

Hiipakka R.A., Chicago, USA

Jelovac O., Baltimore, USA

Kokontis J.M., Chicago, USA

Lu N., Research Triangle Park, USA

Martin C., Edinburgh, Scotland, UK

Njar V.C.O., Baltimore, USA

Poirier D., Que., Canada
