

## Erratum

In the December 2000 issue of the *Journal*, in the article “Mutations in *FOXC2* (*MFH-1*), a Forkhead Family Transcription Factor, Are Responsible for the Hereditary Lymphedema-Distichiasis Syndrome,” by Fang et al. (67: 1382–1388), there was an error in the sequence presented for one of the primers used to generate the PCR product for DNA sequencing on page 1383. The reverse

primer used to generate the sequencing products was 5'-TGCAGCCCCTTAATTGTCTGG-3', rather than the primer 5'-CTTTTTTGCGTCTCTGCAGCCC-3'. Although both primers were derived from overlapping sequence, we used the former primer to generate the data reported in the article. The authors regret this error.
