

## Erratum

In the April 2002 issue of the *Journal*, in the article “Ascertainment-Adjusted Parameter Estimates Revis-

ited,” by Epstein et al. (70:886–895), equation (B2) is incorrect. The equation should read as follows:

$$p_A = \frac{\sum_{k=1}^4 p_k N_{ASC}^{(k)}}{n_{ASC}} \rightarrow \frac{\sum_{k=1}^4 \pi_k p_k [1 - (1 - p_k)^3]}{\sum_{k=1}^4 \pi_k [1 - (1 - p_k)^3]} . \quad (\text{B2})$$

The publisher regrets this error.
