(American Journal of Human Genetics 85, 394–400; September 2009)

In the version of this paper published online August 27, there were several errors in the author affiliations. The correct affiliations list appears with the print version in this issue and has been corrected online. Additionally, a label in Figure 1B has been corrected to read “Fam 3 II.3” instead of “Fam 3 II.1.” Finally, the legend for Figure 1 has been corrected so that the panel descriptions refer to the correct panels. The authors regret the errors.
