Editor's Note

We are most pleased to announce the appointment of Dr. Yu. S. Lipatov, Director, Institute of Macromolecular Chemistry, Ukrainian Academy of Science, Kiev, U.S.S.R., as an Associate Editor of this JOURNAL. In this capacity, Dr. Lipatov will be responsible for all manuscripts published in this JOURNAL which originate in the U.S.S.R. He will be sending us papers of three different kinds:

- 1) Those written expressly for the JOURNAL
- 2) Those which have been printed in, or are under consideration for, a U.S.S.R. periodical which is not translated into English
- 3) Papers simultaneously submitted to a U.S.S.R. periodical which is usually translated into English and to this JOURNAL.

The purpose of 3) is to provide our readers with English translations of current relevant work in the U.S.S.R. much more rapidly than existing channels do.

A great deal of work is being done on adhesion in the U.S.S.R. We believe there is much to be gained by the interested scientific community through wider publication of this work and we are glad to have a part in it.

We thank Dr. Lipatov for his interest and cooperation and look forward to a long association with him.
