Preparation of Camera Copy for Communications

For rapid publication of papers authors must prepare their papers exactly as specified in the notes below, and submit them in duplicate. The preferred size of submitted papers is 5 pages in the prescribed form.

Manuscripts must be typed on the camera ready paper (with blue guidelines) which is available on request from the editor, using a black ribbon and preferably using an electric typewriter. Use single spacing or $1\frac{1}{2}$ line spacing. The finished paper must be ready for direct litho reproduction, and hence must be clean and as neat as possible; messy erasures and alterations will show up in the printing.

The typing area is 5 in. wide by 8 in. deep. However, the width may be exceeded by 2 or 3 characters if necessary.

On the first page, leave $\frac{3}{8}$ in. space, then type the paper title all in capitals, indented 5 spaces from left. Leave $\frac{1}{2}$ in. space then type the author's name in capitals, indented 5 spaces. Author's affiliation follows on next line, in upper and lower case, indented 5 spaces. The next line should read: Submitted for publication . . . (enter appropriate date). Leave $\frac{3}{8}$ in. space then type abstract, all lines indented 5 spaces. Leave $\frac{1}{2}$ in. space before the text begins.

Type text to full (5 in.) width. Main text headings should be typed in capitals, to the left. Leave extra space above and below headings. Second weight headings should be typed in upper and lower case, to the left. Indent all new paragraphs 5 spaces.

At the beginning of each page (except the first) type in capitals the author's name to the left on the left-hand page (even numbered) pages, and the paper title, to the right, on the right-hand (odd numbered) pages. Leave one line of white space before starting the text.

All equations and formulas should be typed in the appropriate place in the text. Where symbols cannot be typed, write them very *neatly in black ink*.

Type tables in the appropriate place in the text. Type TABLE 1, in capitals, then run on table title after 3 typewriter spaces. Add only 3 horizontal lines at the top and bottom of each and one after column headings.

Figures should be reduced to the appropriate size, then pasted into the text. The figure captions should be typed as FIGURE 1, etc., then the caption

run on after 3 typewriter spaces. Leave $\frac{1}{2}$ in. space above the figures and also below the figure captions.

References should be indicated in the text by superior numbers. References must be listed at the end of the paper in numerical order. Author's initials should precede their names. Journal titles should be abbreviated according to *Chemical Abstracts* style and underlined. Also underline the volume number. Book titles should be spelled in full and underlined. Examples:

1. J. F. Nicholas, An Atlas of Models of Crystal Surfaces (Gordon and Breach, New York, 1965), p. 201.
2. R. Gledhill and A. Kinloch, J. Adhesion 6, 315 (1974).
