## **International Association of Colloid and Interface Scientists 1st Announcement**

The "7th International Conference on Surface and Colloid Science" (7th ICSCS) will be held on the campus of the Université de Technologie de Compiègne, France, from the 7th to the 12th of July 1991.

Like previous meetings in the same series organized under the aegis of IACIS, ("International Association of Colloid and Interface Scientists"), the 7th ICSCS will seek to promote cross-fertilization of ideas by providing an opportunity for an exchange of information on recent advances in Colloid and Interface Science and Technology. The programme will include about twelve symposia covering a wide range of theoretical, experimental and technological topics in both abiotic and biotic systems. In addition, a series of poster sessions is planned.

Details of the symposia and invitation to present oral and/or poster communications will be provided in the 1st Circular to be disseminated worldwide shortly. Requests for further information on the 7th ICSCS can be sent to the following address:
