EUCHEM CONFERENCE

Electronic Structures of Transition Metal Complexes

St. Patrick's College, Maynooth, Ireland

MARCH 30–APRIL 1, 1978

The primary aim of this Conference is to bring together theoreticians and experimentalists to review the application of theoretical methods in the general areas of Coordination Chemistry and Organometallic Chemistry.

Speakers will include:

- C. J. Ballhausen (Copenhagen Univ., Physical Chemistry Institute)
E. Clementi (Montedison, Italy)
I. H. Hillier (University of Manchester)
R. Hoffmann (Cornell University)
J. F. Labarre (CNRS, Laboratoire de Chimie de Coordination, Toulouse)
D. P. Mingos (Oxford University)
J. J. Turner (University of Newcastle on Tyne)

Further details from Professor David A. Brown, Department of Chemistry, University College Dublin, Belfield, Dublin 4, Ireland.
