

## *Second announcement*

### **International Symposium on the Electronic Structure and Properties of Molecules and Crystals**

This symposium will be held from *August 29 to September 3, 1988* in *Dubrovnik-Cavtat, Yugoslavia*. It is sponsored by the Croatian Chemical Society, International Union of Pure and Applied Chemistry, Union of Yugoslav Chemical Societies, and the Yugoslav Academy of Sciences and Arts.

This meeting is aimed at bringing together molecular scientists studying various aspects and features of molecules, clusters and crystals. Topics to be discussed embrace structure, spectra and properties of molecules, clusters and crystals, intra- and intermolecular interactions, chemical reactivity and potential energy surfaces. Particular emphasis will be laid on strengthening ties between theory and experiment and in stimulating interdisciplinary flow of knowledge.

The inaugural main plenary lecture will be given by Linus Pauling. Plenary lectures will be delivered by the following scientists:

J. R. Durig, D. Hadži, W. A. Harrison, L. Klasinc, W. Kutzelnigg, P. O. Löwdin, J. Michl, R. G. Parr, C. O. J. Roothaan, J. M. Schulman, N. Trinajstić, R. McWeeny and M. Zerner.

Special invited oral papers will be presented by:

K. Balasubramanian, J. Berkovitz, F. Bernardi, D. M. Bishop, J. E. Boggs, V. Bonačić-Koutecký, R. J. Buenker, S. M. Colwell, D. Cremer, E. M. Evleth, P. Fulde, J. Gerratt, S. McGlynn, A. Graovac, H. H. Günthard, K. Jug, D. Klein, M. Klessinger, P. Lazzeretti, E. A. C. Lucken, G. Malli, C. A. Nicolaidis, W. von Niessen, N. Rösch, S. Scheiner, V. H. Smith, Jr., P. Surjan and V. Zlatic.
