

Announcements

World Congress of Theoretical Organic Chemists

This congress will be held in *Budapest, Hungary*, from *August 11 to 21, 1987*. It will be organised by the World Association of Theoretical Organic Chemists in co-operation with the Hungarian Chemical Society. The scope of the congress is as follows:

Section A (11-16 August)

- A1 Concepts in Theoretical Organic Chemistry
- A2 Structure and Spectra
- A3 Reactivity and Reactions
- A4 Potential Energy Surfaces
- A5 Intra- and Intermolecular Interactions

Section B (16-21 August)

- B1 From Supermicros to Supercomputers
- B2 Catalysis and Solid State Chemistry
- B3 Biomolecular Systems
- B4 Computer-Aided Molecular Design
- B5 Molecular Graphics
