

### *Announcements*

The 5th International Conference on Mathematical and Computational Chemistry will be held at the University of Missouri – Kansas City, May 17–21, 1993. All interested parties should contact the conference chairman:

Dr. Jerry Ray Dias  
Professor of Chemistry  
University of Missouri  
Kansas City, MO 64110-2499, USA  
Phone: (816) 235-2284  
Binet: diasgp@umkcva1  
Fax: (816) 235-1717

Keynote speakers with tentative titles:

Prof. Jeremy K. Burdett, University of Chicago	Structural Systematics and Structural Stability
Prof. Nicolaos D. Epiotis, University of Washington	Mechanism of Chemical Bonding
Prof. William C. Herndon, University of Texas-El Paso	Tubular Graphitic Carbon Structures
Dr. Jerome Karle, (1985 Nobelist), Department of Navy, USA	The Role of Mathematical Chemistry in Structural Chemistry

International Academy of Quantum Molecular Science Academy  
Académie Internationale des Sciences Moléculaires Quantiques

The International Academy of Quantum Molecular Science announces the election, at its meeting in Menton, France, on 11 and 12 July 1992, of three new members: Professor Michael Kasha of Florida State University, Professor Pekka Pyykkö of the University of Helsinki, and Professor Paul R. Schleyer of the University of Erlangen.

President: Robert G. Parr, Department of Chemistry, University of North Carolina, Chapel Hill, N.C. 27599, USA, FAX (919) 962-2388
