

Corrigendum

Thermochemistry of fluorine compounds. IV. Rubidium tetrafluoroiodate, by A. Finch, P. N. Gates and S. J. Peake, *Thermochim. Acta*, 10 (1974) 203–206.

Correction of a wrongly-quoted ancillary datum for HF(750 H₂O) from reference 10 leads to replacement of the listed value for the standard enthalpy of formation of rubidium tetrafluoroiodate by the following, recalculated, value:

$$H_f^\circ(\text{RbIF}_4(\text{cryst}))_{298} = -1121.51 \pm 6.33 \text{ kJ mol}^{-1}.$$
