

Measurement of Thermal Properties of U_4O_9 near the Transition Point

MASAYUKI KAMIMOTO*, MASAYUKI MURABAYASHI, YOICHI TAKAHASHI AND TAKASHI MUKAIBO (*Department of Nuclear Engineering, Faculty of Engineering, University of Tokyo*)

Thermal Properties of Nickel(II) Complexes of Schiff Bases: $Ni(3-CH_3O-SAL \cdot iso-C_3H_7)_2$ and $Ni(H-SAL \cdot methyl)_2$

NAOTO ARAI*, MICHIO SORAI AND SYŪZŌ SEKI (*Department of Chemistry, Faculty of Science, Osaka University*)

Thermal Properties of Glassy Crystals. Heat Capacities of Cycloheptanol

KEIICHIRO ADACHI*, HIROSHI SUGA AND SYŪZŌ SEKI (*Department of Chemistry, Faculty of Science, Osaka University*)

The Heat Capacity and Phase Transition of Hexamine Nickel Halides

TAKASUKE MATSUO*, HIROSHI SUGA AND SYŪZŌ SEKI (*Department of Chemistry, Faculty of Science, Osaka University*)

Announcements

GORDON CONFERENCES

Two Gordon Conferences of overlapping interest will be held on adjacent weeks this coming winter in California. The first Gordon Conference on Liquid Crystals will be held January 17-22, 1972, at the Miramar Hotel in Santa Barbara, California. The chairman of this meeting is Professor Roger S. Porter, Head, Polymer Science and Engineering, University of Massachusetts, Amherst, Massachusetts 01002. The following week, January 24-28, 1972, at the same location, the Winter Gordon Conference on Polymers will be held; the chairman of this meeting is Dr. Fred E. Bailey, Chemicals and Plastics, Union Carbide Corporation, P. O. Box 8361, South Charleston, West Virginia 25303. General information concerning all Gordon Conferences may be obtained from the Director, Dr. Alexander M. Cruickshank, c/o Pastore Chemical Laboratory, University of Rhode Island, Kingston, Rhode Island 02881.

The Third Annual Meeting of the North American Thermal Analysis Society will be held on February 7 and 8, 1972 at the Convention Center in Waco, Texas, U.S.A. The purpose of the meeting is to discuss theory, new developments, and practical applications of all types of methods of thermal analysis. A concurrent exposition of thermal instruments is also planned for the conference.

Papers for the conference are now being solicited on thermoanalytical topics and persons wishing to present a paper should immediately contact W. R. Bandi at U. S. Steel Research Center, Monroeville, Pa. 15146, U.S.A., for additional information.
