

SUBJECT INDEX

- Acetates,
thermal decomposition of carbonates,
carboxylates, oxalates, —, formates
and hydroxides (Mu, Perlmutter) 207
- Amino acids,
calorimetric determination of thermo-
dynamic data of the complexation
between some drugs and aromatic —
(Rohdewald et al.) 101
- 4-Aminoantipyrine,
thermodynamic properties of anti-
pyrine and — (Katime, Aguilar Herraiz)
139
- Aminopyridines,
a thermodynamic study of the proto-
nation of some sulphide-containing
pyridines and — in aqueous solution
(Schaubroeck et al.) 287
- Ammonium picrate,
thermochemistry of picrates. I. The
standard enthalpy of formation of —
(Finch et al.) 281
- Animal calorimetry,
pharmacological application of —
(Gnaiger) 75
- Antipyrine,
thermodynamic properties of — and
4-aminoantipyrine (Katime, Aguilar
Herraiz) 139
- Aromatic guest compounds,
thermochemical studies of the clathra-
tion of — by the host $\text{Ni}(\text{NCS})_2(4\text{-methylpyridine})_4$ complex (Lipkowski
et al.) 269
- Barium(II) diodoquin complexes,
kinetics of the non-isothermal decom-
position of diodoquin complexes of —,
magnesium(II) and cadmium(II) from
differential thermogravimetric curves
(Sawhney et al.) 371
- Baseline stability,
optimization of calorimetric systems:
continuous control of — by monitor-
ing thermostat temperatures (Kauf-
mann, Gnaiger) 63
- Binary faceted eutectics,
effect of ternary addition in — (Nar-
singh, Singh) 357
- Bis(trispyrrolidino phosphine oxide)
tetranitrato uranium(IV),
the thermal decomposition of —
(Brown et al.) 247
- Cadmium(II) diodoquin complexes,
kinetics of the non-isothermal decom-
position of diodoquin complexes of
barium(II), magnesium(II), and — from
differential thermogravimetric curves
(Sawhney et al.) 371
- Cadmium titanyl oxalate,
thermal studies on zinc and — (Sharma,
Kaushik) 385
- Carbonates,
thermal decomposition of —, carboxy-
lates, oxalates, acetates, formates and
hydroxides (Mu, Perlmutter) 207
- Carboxylates,
thermal decomposition of carbonates,
—, oxalates, acetates, formates and hy-
droxides (Mu, Perlmutter) 207
- $\text{C}_2\text{F}_5\text{Br}$,
the gas phase thermochemistry of the
reaction — + $\text{I}_2 = \text{C}_2\text{F}_5\text{I} + \text{IBr}$ (Buckley
et al.) 199
- Chemical process industries,
reaction calorimeter for applications
in —: performance and calibration
(Schildknecht) 87
- Cholesterol,
interaction between 1,2-dipalmitoyl-L-
phosphatidyl choline and —. DSC study
(Marino et al.) 131
- Combustion calorimetry,
use of the CRMT calorimeter for —
(Sabbah, Coten) 307
- CRMT calorimeter,
use of the — for combustion calorim-
etry (Sabbah, Coten) 307
- Dermatologically active drugs,
calorimetric screening test for — on
human skin fibroblast-cultures (Pätel)
123
- Differential scanning calorimetry,
— (DSC) at high pressure (Sandrock et
al.) 23

- Differential scanning calorimetry,
influence of experimental variables on curves in —. Part I. Study design and results of calibration checks (van Dooren, Müller) 151
- Differential scanning calorimetry,
influence of experimental variables on curves in —. Part II. Effects on baseline-related characteristics (van Dooren, Müller) 163
- Differential scanning calorimetry,
influence of experimental variables on curves in —. Part III. Effects on peak height, peak width, shape index and baseline displacement (van Dooren, Müller) 175
- Differential scanning calorimetry
influence of experimental variables on curves in —. Part IV. Effects on peak-related temperatures and specific enthalpy (van Dooren, Müller) 185
- 5,5-Dimethylcyclohexane-2-(2-hydroxyphenyl)-hydrazono-1,3-dione,
stepwise stability constants and thermodynamic functions of some transition metal complexes of — (Jain et al.) 375
- Diodoquin complexes,
kinetics of the non-isothermal decomposition of — of barium(II), magnesium(II) and cadmium(II) from differential thermogravimetric curves (Sawhney et al.) 371
- 1,2-Dipalmitoyl-L-phosphatidyl choline,
interaction between — and cholesterol. DSC study (Marino et al.) 131
- Drugs,
calorimetric determination of thermodynamic data of the complexation between some — and aromatic amino acids (Rohdewald et al.) 101
- E. coli* cells,
microcalorimetric investigations of the action of certain heavy metal ions to nongrowing — (Redl) 111
- Experimental variables,
influence of — on curves in differential scanning calorimetry. Part I. Study design and results of calibration checks (Van Dooren, Müller) 151
- Experimental variables,
influence of — on curves in differential scanning calorimetry. Part II. Effects on baseline-related characteristics (van Dooren, Müller) 153
- Experimental variables,
influence of — on curves in differential scanning calorimetry. Part III. Effects on peak height, peak width, shape index and baseline displacement (van Dooren, Müller) 175
- Experimental variables,
influence of — on curves in differential scanning calorimetry. Part IV. Effects on peak-related temperatures and specific enthalpy (van Dooren, Müller) 185
- Formates,
thermal decomposition of carbonates, carboxylates, oxalates, acetates, — and hydroxides (Mu, Perlmutter) 207
- Frog muscles,
a calorimetric apparatus for stretching experiments with — (Schlipf, Höhne) 1
- Heavy metal ions,
microcalorimetric investigations on the action of certain — to nongrowing *E. coli* cells (Redl) 111
- HTS₂,
thermodynamic properties of 50 mole % NaNO₃—50% KNO₃ (—) (Kamimoto) 319
- Human skin fibroblast-cultures,
calorimetric screening test for dermatologically active drugs on — (Pätel) 123
- Hydroxides,
thermal decomposition of carbonates, carboxylates, oxalates, acetates, formates and — (Mu, Perlmutter) 207
- I₂,
the gase phase thermochemistry of the reaction $C_2F_5Br + \text{—} = C_2F_5I + IBr$ (Buckley et al.) 199
- “Inverse reaction kinetics”,
the problem of — under the aspect of calorimetric measurements (Koch) 25
- KNO₃,
thermodynamic properties of 50 mole % NaNO₃—50%— (HTS₂) (Kamimoto) 319
- Lanthanides,
molten lithium sulphate—sodium sulphate—potassium sulphate eutectic: reactions and absorption spectra of some — (Al Omer et al.) 259

- Lipids,**
the influence of phospholipidosis inducing drugs on the phase transition of — (Seydel et al.) 35
- Lithium sulphate,**
molten — — sodium sulphate—potassium sulphate eutectic: reactions and absorption spectra of some lanthanides (Al Omer et al.) 259
- Magnesium(II) diodoquin complexes,**
kinetics of the non-isothermal decomposition of diodoquin complexes of barium(II), — and cadmium(II) from differential thermogravimetric curves (Sawhney et al.) 371
- Mercury(II) fulminate,**
the thermal decomposition of the silver(I) and mercury(II) salts of 5-nitrotetrazole and of — (Brown, Swallowe) 333
- Mercury(II) 5-nitrotetrazole,**
the thermal decomposition of the silver(I) and — salts of 5-nitrotetrazole and of mercury(II) fulminate (Brown, Swallowe) 333
- Metal hydrides,**
heat capacity measurements of pulverized — between 1.5 and 15 K by means of the Cu-tabletting method (Ohlen-dorf et al.) 11
- NaNO₃,**
thermodynamic properties of 50 mole % — — 50% KNO₃ (HTS₂) (Kamimoto) 319
- Ni(NCS)₂(4-methylpyridine)₄ complex,**
thermochemical studies of the clathration of aromatic guest compounds by the host — (Lipkowski et al.) 269
- Optimization of calorimetric systems,**
—: continuous control of baseline stability by monitoring thermostat temperatures (Kaufmann, Gnaiger) 63
- Oxalates,**
thermal decomposition of carbonates, carboxylates, —, acetates, formates and hydroxides (Mu, Perlmutter) 207
- PbO—Pb(Fe_{1/2}Nb_{1/2})O₃,**
determination of the phase diagrams — and PbO—Pb(Mn_{1/2}Nb_{1/2})O₃ (Brunskill et al.) 351
- PbO—Pb(Mn_{1/2}Nb_{1/2})O₃,**
determination of the phase diagrams PbO—Pb(Fe_{1/2}Nb_{1/2})O₃ and — (Brunskill et al.) 351
- Phospholipidosis inducing drugs,**
the influence of — on the phase transition of lipids (Seydel et al.) 35
- Picrates,**
thermochemistry of —. I. The standard enthalpy of formation of ammonium picrate (Finch et al.) 281
- Polynitro compounds,**
kinetic data from low-temperature thermolysis in the study of the microscopic initiation mechanism of the detonation of organic — (Zeman) 219
- Pore size distribution,**
determination of — by SETARAM DSC 101 (thermoporometry) (Brun et al.) 49
- Potassium sulphate,**
molten lithium sulphate—sodium sulphate— — eutectic: reactions and absorption spectra of some lanthanides (Al Omer et al.) 259
- Pyrazolones,**
thermodynamic acid dissociation constants of — in dioxane—water mixtures (Shukla et al.) 361
- Pyridines,**
a thermodynamic study of the protonation of some sulphide-containing — and aminopyridines in aqueous solution (Schaubroeck et al.) 287
- Reaction calorimeter,**
— for applications in chemical process industries: performance and calibration (Schildknecht) 87
- Silicate glasses,**
effects of heat treatments and active mineralizers on the electronic conductivity and related properties of — (Abou Sekkina) 297
- Silver(I) 5-nitrotetrazole,**
the thermal decomposition of the — and mercury(II) salts of 5-nitrotetrazole and of mercury(II) fulminate (Brown, Swallowe) 333
- Sodium sulphate,**
molten lithium sulphate— — — potassium sulphate eutectic: reactions and absorption spectra of some lanthanides (Al Omer et al.) 259
- Thiovioluric acid,**
protonation thermodynamics of — (Singh, Ghosh) 379

Transition metal complexes,

stepwise stability constants and thermodynamic functions of some — of 5,5-dimethylcyclohexane-2-(2-hydroxyphenyl)-hydrazono-1,3-dione (Jain et al.) 375

Zinc titanyl oxalate,

thermal studies on — and cadmium titanyl oxalates (Sharma, Kaushik) 385

Yeast,

microcalorimetric investigations of the growth of —. Energy balance of batch and continuous cultures (Brettel et al.) 53
