

## Corrigendum

---

The enthalpy of formation of  $\text{RuO}_2$ , by E.H.P. Cordfunke and R.J.M. Konings, *Thermochim. Acta*, 129 (1988) 63–69.

In our paper on the enthalpy of  $\text{RuO}_2$ , the value for the entropy of  $\text{RuO}_2$  on p. 66 has been given erroneously as  $56.42 \text{ J mol}^{-1} \text{ K}^{-1}$  (being the  $C_p$  at 298.15 K) instead of the correct value  $46.154 \text{ J mol}^{-1} \text{ K}^{-1}$ . All calculations in the paper have been done using the correct value, and the conclusions therefore remain the same.
