

Erratum

F. Winterberg, On “Belated Decision in the Hilbert-Einstein Priority Dispute”, published by L. Corry, J. Renn, and J. Stachel, *Z. Naturforsch.* **59a**, 715–719 (2004).

In the first column of page 716 there is a misprint, where it should read:

$$[\sqrt{g}K]_{\mu\nu} = \sqrt{g}(K_{\mu\nu} - \frac{1}{2}Kg_{\mu\nu}).$$

A further reference: I would like to quote the recently published book by Daniela Wuensch: „zwei wirkliche Kerle“, Neues zur Entdeckung der Gravitationsgleichungen der Allgemeinen Relativitätstheorie durch Albert Einstein und David Hilbert, Termessos Verlag, Göttingen 2005 (a translation into English is in preparation). Dr. D. Wuensch by a detailed analysis of the original sources found overwhelming evidence for an intended mutilation of Hilbert’s page proofs.
