TM 9-2350-258-34P-1, 9 December 1977, is changed as follows:

1. Remove old pages and insert new pages as indicated below.
2. New or changed material is indicated by a vertical bar in the margin of the page.
3. Added or revised illustrations are indicated by a vertical bar adjacent to the illustration identification number; a miniature pointing hand highlights the area containing new or changed material.

REPORTING OF ERRORS

You can improve this manual by recommending improvements using DA Form 2028 (Recommended Changes to Publications and Blank Forms) located in the back of the manual and mail the form direct to Commander, US Army Tank Automotive Materiel Readiness Command, ATTN:DRSTA-MBA, Warren, Michigan 48090. A reply will be furnished direct to you.

Section	I. INTRODUCTION	1	
	II. REPAIR PARTS LIST	7	
Group	01 Engine		
	0100—Engine and shipping container	6	1
	0100—Engine to transmission connecting parts	8	2
	0100—Powerplant mounts and brackets	10	3
	0100—Powerplant supports and guides	14	4
	0106—Transmission oil cooler radiator tube assemblies and related parts	16	5
	08 Fuel System		
	0302—Left fuel tank electric fuel pump and related parts	18	6
	0302—Right fuel tank electric fuel pump and related parts	20	7
	0302—Personnel heater fuel pump assembly	22	8
	0304—Air cleaner installation	24	9
	0304—Aluminum air cleaner assembly	28	10
	0304—Armored air cleaner assembly	30.2	10.1
	0304—Air cleaner centrifugal fan assembly	32	11
	0306—Right fuel tank filler	34	12
	0306—Left fuel tank emergency filler	36	13
	0306—Left fuel tank liquid quantity transmitter, condensation outlet, and related parts	38	14
	0306—Right fuel tank liquid quantity transmitter, condensation outlet, and related parts	40	15
	0306—Left and right fuel tanks—lower front mounting parts	44	16
	0306—Left and right fuel tanks—lower rear mounting parts	46	17
	0306—Left and right fuel tanks—upper front mounting parts	48	18
	0306—Left and right fuel tanks—upper rear mounting parts	50	19
	0306—Fuel tanks crossover butterfly valve, breather lines, and related parts	52	20
	0306—Engine fuel shutoff valve cable assembly and related parts	54	21

	Page	Figure
03 Fuel System—Continued		
0306—Engine fuel supply lines, swing check valve, and related parts (A)	58	22
0306—Engine fuel supply lines, swing check valve, and related parts (B)	60	23
0306—Engine fuel return lines, tank selector (isolator) valve, and related parts—engine compartment	64	24
0309—Primer pump supply fuel filter	68	25
0311—Primer pump fuel supply and pressure lines and related parts—forward of fuel tanks	70	26
0311—Primer pump fuel supply and pressure lines and related parts—engine compartment	72	27
0311—Fuel primer pump assembly	74	28
0312—Accelerator foot pedal, throttle control handle, and related parts	78	29
0312—Accelerator controls and related parts—driver's compartment	82	30
0312—Accelerator controls linkage assembly—engine compartment	86	31
04 Exhaust System		
0401—Engine exhaust pipes, cover assembly, and related parts	90	32
05 Cooling System		
0502—Engine shroud mounting and related parts	92	33
0502—Transmission shroud and related parts	96	34
0502—Transmission shroud support and related parts	98	35
06 Electrical System		
0602—Engine generator regulator and related parts	100	36
0607—Master control panel assembly mounting parts	102	37
0607—Master control panel assembly	104	38
0607—Master control panel master switch cable assembly	110	39
0607—Master control panel heater cable assembly	112	40
0607—Master control panel starter wiring harness assembly	114	41
0607—Gage indicator panel assembly mounting parts	116	42
0607—Gage indicator panel assembly	118	43
0607—Gage indicator panel wiring harness assembly	122	44
0607—Gage indicator panel cable assembly	124	45
0608—Infrared periscope connector, bilge pump power connector, and headlight stowage receptacles	126	46
0608—Engine generator switch, interphone harness receptacle, and slave cable receptacle mounting plates	128	47
0608—Headlamp guards, magnetic switch assembly, and related parts	132	48
0608—Master relay and housing assembly	134	49
0608—Air cleaner fan power relay, fuel shutoff power relay, fuel shutoff circuit breaker, personnel heater circuit breaker, and related parts	136	50
0608—Bilge pump relay and circuit breaker enclosure assembly	138	51
0608—Infrared power supply assembly	140	52
0608—Headlight dimmer switch assembly	142	53
0609—Powerplant master warning light	144	54
0609—Domelight variable resistor assembly and related parts	146	55
0609—Domelight assembly	148	56
0609—Right taillight—stoplight assembly	150	57
0609—Left taillight—stoplight assembly	152	58
0609—Headlight assembly	154	59
0610—Powerplant electrical system components (B)	158	60
0612—Storage batteries, battery cables, and related parts	160	61
0613—Battery slave cable assembly	162	62
0613—Driver's interphone slipring cable assembly	164	63
0613—Front master wiring harness assembly	166	64
0613—Master control panel and slipring power wiring harness	172	65
0613—Front interphone cable assembly and infrared periscope harness assembly	176	66
0613—Engine generator regulator ground lead, engine ground cable, and starter relay wiring harness assemblies	178	67
0613—Front harness clamps and mounting parts	180	68
0613—Rear harness clamps and mounting parts	184	69
0613—Rear accessory wiring harness assembly	190	70
0613—Bulkhead to engine disconnect wiring harness assembly	192	71
0613—Starter feed wiring harness assembly	194	72
0613—Bulkhead to engine power relay cable assembly	196	73
0613—Rear interphone cable assembly	198	74
0615—Fuel tank radio suppression capacitor and related parts	200	75
07 Transmission		
0705—Shifting control pivot, base, and related parts	202	76
0705—Shifting control linkage and related parts—driver's compartment	204	77
0705—Shifting controls and related parts—inter bulkhead	206	78

	Page	Figure
07 Transmission—Continued		
0705—Shifting controls and related parts—engine compartment	208	79
0710—Transmission assembly and shipping and storage container	212	80
0721—Transmission oil breather tube	214	81
08 Transfer and Final Drive Assemblies		
0801—Final drive assembly and related parts	216	82
09 Universal Joints and Coupler		
0900—Final drive coupling assembly and related parts	222	83
12 Brakes		
1204—Brake pedal, linkage, pressure gage, and related parts	224	84
1204—Brake master cylinder assembly	228	85
1204—Hydraulic brake tubes, stoplight switch, and related parts	230	86
1204—Slave cylinder assembly	232	87
1206—Engine compartment brake lever housing and related parts	234	88
1206—Engine compartment parking brake lever, control cables, and related parts	236	89
1206—Parking brake control and related parts	240	90
13 Wheels and Tracks		
1301—No. 1 roadwheel hub and arm assembly and related parts	244	91
1301—No. 2 thru No. 5 roadwheel hub and arm assemblies and related parts	246	92
1301—No. 6 roadwheel hub and arm assembly and related parts	248	93
1301—No. 1 thru No. 6 roadwheel housing assemblies, torsion bars, and related parts	250	94
1302—No. 1 left track support roller assembly	254	95
1302—No. 2 thru No. 5 left, No. 1 thru No. 5 right, track support roller assemblies	256	96
1303—Track adjusting link assembly and related parts	258	97
1303—Compensating idler hub and arm assembly and related parts	260	98
1304—Drive sprockets, hub, and related parts	264	99
1306—Track and shoe assembly, T142	266	100
1306—Track and shoe assembly, T97E2	268	101
14 Steering		
1401—Steering controls and related parts—driver's compartment	270	102
1401—Steering controls and related parts—forward of bulkhead	272	103
1401—Steering controls and related parts—rearward of bulkhead	274	104
1401—Steering controls and related parts—engine compartment	276	105
15 Towing Attachments		
1503—Pintle, towing attachments, and related parts	278	106
16 Springs and Shock Absorbers		
1601—Volute spring bumper assemblies and related parts	280	107
1604—Shock absorbers and related parts	282	108
18 Body, Cap, Hood, and Hull		
1801—Top deck grille door assemblies and related parts	286	109
1801—Top deck frame assembly, exhaust doors, and related parts	288	110
1801—Frame assembly engine access area seals and related parts	292	111
1801—Gun travel lock and related parts	294	112
1801—Hull access covers, plates, and related parts	296	113
1801—Hull-turret inflatable seal, pump, and related parts	302	114
1802—Front fender, shroud, outriggers, and related parts	304	115
1802—Center fender plates, outriggers, and related parts	308	116
1802—Rear fender plates, outriggers, and related parts	312	117
1803—Driver's periscope cover and related parts	316	118
1803—Driver's hatch actuating mechanism	318	119
1803—Driver's hatch cover assembly	320	120
1803—Driver's infrared periscope mount and lid assembly	322	121
1803—Driver's escape hatch door assembly	324	122
1804—Front drain valve and related parts	326	123
1804—Rear drain valve, control, linkage, and related parts	328	124
1806—Personnel protection pads, driver's seat mounting, and related parts	334	125
1806—Driver's seat assembly	336	126
1806—Driver's seat vertical and horizontal adjuster assembly	342	127
1806—Forward fender stowage box and related parts	346	128
1806—Rear fender stowage box and related parts	348	129
1806—Vehicle identification plate, fender stowage box straps, and signs	350	130
1806—External handset box assembly and related parts	352	131
1806—Driver's spare periscope stowage box assembly and related parts	354	132
1806—Left ammunition rack and related parts	356	133
1808—Right ammunition rack and related parts	358	134

SECTION I

INTRODUCTION

1. Scope

This manual lists spares and repair parts; special tools; special test, measurement, and diagnostic equipment, (TMDE), and other special support equipment required for performance of direct support and general support maintenance of the M48A5 tank. It authorizes the requisitioning and issue of spares and repair parts as indicated by the source and maintenance codes.

2. General

This Repair Parts and Special Tools List is divided into the following sections:

a. Section II, Repair Parts List. A list of spares and repair parts authorized for use in the performance of maintenance. The list also includes parts which must be removed for replacement of the authorized parts. Parts lists are composed of functional groups in ascending numeric sequence, with the parts in each group listed in figure and item number sequence. Bulk materials are listed in NSN sequence.

b. Section III, Special Tools List. A list of special tools, special TMDE and other special support equipment authorized for the performance of maintenance.

c. Section IV, National Stock Number and Part Number Index. A list, in National item identification number (NIIN) sequence of all National stock numbers (NSN) appearing in the listings, followed by a list in alphameric sequence of all part numbers appearing in the listings. National stock numbers and part numbers are cross-referenced to each illustration figure and item number appearance.

3. Explanation of Columns

a. Illustration. This column is divided as follows:

(1) *Figure number.* Indicate the figure number of the illustration in which the item is shown.

(2) *Item number.* The number used to identify each item called out in the illustration.

b. Source, Maintenance, and Recoverability (SMR) Codes.

(1) *Source Code.* Source codes are assigned to support items to indicate the manner of acquiring support items for maintenance, repair, or overhaul of end items. Source codes are entered in the first and second positions of the Uniform SMR Code format as follows:

Code

Definition

- PA—Item procured and stocked for anticipated or known usage.
- PB—Item procured and stocked for insurance purpose because essentiality dictates that a minimum quantity be available in the supply system.
- PC—Item procured and stocked and which otherwise would be coded PA except that it is deteriorative in nature.
- PD—Support item, excluding support equipment, procured for initial issue or outfitting and stocked only for subsequent or additional initial issues or outfittings. Not subject to automatic replenishment.
- PE—Support equipment procured and stocked for initial issue or outfitting to specified maintenance repair activities.
- PF—Support equipment which will not be stocked but which will be centrally procured on demand.
- PG—Item procured and stocked to provide for sustained support for the life of the equipment. It is applied to an item peculiar to the equipment which, because of probable discontinuance or shutdown of production facilities, would prove uneconomical to reproduce at a later time.
- KD—An item of a depot overhaul/repair kit and not purchased separately. Depot kit defined as a kit that provides items required at a time of overhaul or repair.
- KF—An item of maintenance kit and not purchased separately. Maintenance kit defined as a kit that provides an item that can be replaced at organizational or intermediate levels of maintenance.
- KB—Item included in both a depot overhaul/repair kit and a maintenance kit.
- MO—Item to be manufactured or fabricated at organizational level.
- MF—Item to be manufactured or fabricated at the direct support maintenance level.
- MH—Item to be manufactured or fabricated at the general support maintenance level.
- MD—Item to be manufactured or fabricated at the depot maintenance level.
- AO—Item to be assembled at organizational level.
- AF—Item to be assembled at direct support maintenance level.
- AH—Item to be assembled at general support maintenance level.
- AD—Item to be assembled at depot maintenance level.
- XA—Item is not procured or stocked because the requirements for the item will result in the replacement of the next higher assembly.
- XB—Item is not procured or stocked. If not available through salvage, requisition.
- XD—A support item that is not stocked. When required, item will be procured through normal supply channels.

NOTE

Cannibalization or salvage may be used as a source of supply for any items source coded above except those coded XA and XD.

(2) *Maintenance Code.* Maintenance codes are

assigned to indicate the levels of maintenance authorized to USE and REPAIR support items. The maintenance codes are entered in the third and fourth positions of the Uniform SMR Code format as follows:

(a) The maintenance code entered in the third position will indicate the lowest maintenance level authorized to remove, replace, and use the support item. The maintenance code entered in the third position will indicate one of the following levels of maintenance:

Code	Application/Explanation
C	Crew or operator maintenance performed within organizational maintenance.
O	Support item is removed, replaced, used at the organizational level.
F	Support item is removed, replaced, used at the direct support level.
H	Support item is removed, replaced, used at the general support level.
D	Support items that are removed, replaced, used at depot, mobile depot, or specialized repair activity only.

(b) The maintenance code entered in the fourth position indicates whether the item is to be repaired and identifies the lowest maintenance level with the capability to perform complete repair (i.e., all authorized maintenance functions). This position will contain the following maintenance code:

Code	Application/Explanation
O	The lowest maintenance level capable of complete repair of the support item is the organizational level.
F	The lowest maintenance level capable of complete repair of the support item is the direct support level.
H	The lowest maintenance level capable of complete repair of the support item is the general support level.
D	The lowest maintenance level capable of complete repair of the support item is the depot level.
L	Repair restricted to (enter applicable designated specialized repair activity), Specialized Repair Activity.
Z	Nonreparable. No repair is authorized.
B	No repair is authorized. The item may be reconditioned by adjusting lubricating, etc., at the user level. No parts or special tools are procured for the maintenance of this item.

(3) *Recoverability Code.* Recoverability codes are assigned to support items to indicate the disposition action on unserviceable items. The recoverability code is entered in the fifth position of the uniform SMR Code format as follows:

Recoverability Code	Definition
Z	Nonreparable item. When unserviceable, condemn and dispose at the level indicated in position 3.
O	Reparable item. When uneconomically repairable, condemn and dispose at organizational level.
F	Reparable item. When uneconomically repairable, condemn and dispose at the direct support level.
H	Reparable item. When uneconomically repairable, condemn and dispose at the general support level.
D	Reparable item. When beyond lower level repair capability, return to depot. Condemnation and disposal not authorized below depot level.

Recoverability Code

Definition

L—Reparable item. Repair, condemnation, and disposal not authorized below depot/specialized repair activity level.

A—Item required special handling or condemnation procedures because of specific reasons (i.e., precious metal content, high dollar value, critical material, or hazardous material). Refer to appropriate manuals/directives for specific instructions.

c. *National Stock Number.* Indicates the National stock number assigned to the item and will be used for requisitioning purposes.

d. *Part Number.* Indicates the primary number used by the manufacturer (individual, company, firm, corporation, or Government activity), which controls the design and characteristics of the item by means of its engineering drawings, specifications standards, and inspection requirements, to identify an item or range of items. NPN indicates no part number.

NOTE

When a stock numbered item is requisitioned, the repair part received may have a different part number than the part being replaced.

e. *Federal Supply Code for Manufacturer (FSCM).* The FSCM is a 5-digit numeric code listed in SB 708-42 which is used to identify the manufacturer, distributor, or Government agency, etc.

f. *Description.* Indicates the Federal item name and, if required, a minimum description to identify the item. Items that are included in kits and sets are listed below the name of the kit or set with the quantity of each item in the kit or set indicated in the quantity incorporated in unit column. In the Special Tools List, the initial basis of issue (BOI) appears as the last line in the entry for each special tool, and support equipment. When density of equipments supported exceeds density spread indicated in the basis of issue, the total authorization is increased accordingly.

g. *Unit of Measure (U/M).* Indicates the standard of the basic quantity of the listed item as used in performing the actual maintenance function. This measure is expressed by a two-character alphabetical abbreviation (e.g., ea, in., pr, etc). When the unit of measure differs from the unit of issue, the lowest unit of issue that will satisfy the required units of measure will be requisitioned.

h. *Quantity Incorporated in Unit.* Indicates the quantity of the item used in the breakout shown on the illustration figure, which is prepared for a functional group, subfunctional group, or an assembly. A "V" appearing in this column in lieu of a quantity indicates that no specific quantity is applicable (e.g., shims, spacers, etc.).

4. Special Information

a. Usable on codes are shown in the description column. Uncoded items are applicable to all models. Identification of the usable on codes in this publication are:

Code Used on

A—Vehicle serial number A1001 through A1999

B—Vehicle serial numbers A3001 through A3999

b. Detailed manufacturing instructions for items source coded to be manufactured or fabricated are found in TM 9-2350-258-34-1. Bulk materials required to manufacture items are listed in the bulk material group of this manual.

c. Detailed assembly instructions for items source coded to be assembled are found in TM 9-2350-258-34-1. Assembly components are listed immediately following the item to be assembled.

d. Repair parts kits and gasket sets appear as the last entries in the repair parts listing for the figure in which its parts are listed as repair parts.

e. The following publications pertain to the M48A5 tank and its components:

LO 9-2350-258-12—Lubrication Order for Tank, Combat, Full-Tracked: 105-MM Gun, M48A5

TM 9-2350-258-10—Operator's Manual for Tank, Combat, Full-Tracked: 105-MM Gun, M48A5

TM 9-2350-20-1—Organizational Maintenance Manual for Tank, Combat, Full-Tracked: 105-MM Gun, M48A5, Hull

TM 9-2350-258-20-2—Organizational Maintenance Manual for Tank, Combat, Full-Tracked: 105-MM Gun, M48A5, Turret

TM 9-2350-258-20P-1—Organizational Maintenance Repair Parts and Special Tools List for Tank, Combat, Full-Tracked: 105-MM Gun, M48A5, Hull

TM 9-2350-258-20P-2—Organizational Maintenance Repair Parts and Special Tools List for Tank, Combat, Full-Tracked: 105-MM Gun, M48A5, Turret

TM 9-2350-258-34P-2—Direct Support and General Support Maintenance Repair Parts and Special Tools List for Tank, Combat, Full-Tracked: 105-MM Gun, M48A5 Turret

TM 3-4240-276-30&P—Direct Support Maintenance Manual (including repair parts and special tools list) Purifier, air: M2A1 (NSN 4240-00-307-7805); Purifier, air, M2A2 (NSN 4240-00-868-7906), and precleaner and particulate filter assembly: M1A1-19 (NSN 4240-01-026-3112)

TM 9-1220-203-34—Direct Support and General Support Maintenance Manual for Ballistic Computer, M13, M13A1, M13A1C, M13A1D, M13A2, and M13B1C

TM 9-1220-203-34P—Direct Support and General Support Maintenance Repair Parts and Special

Tools List for Ballistic Computer, M13, M13A1, M13A1C, M13A1D, M13A2, and M13B1C

TM 9-2815-220-34P—Direct Support and General Support Maintenance Repair Parts and Special Tools List for Engine, Diesel AVDS-1790-2C and AVDS-1790-2D

TM 9-2520-223-34—Direct and General Support Maintenance Manual (Including Repair Parts and Special Tools List) for Transmission Cross-Drive, Allison Models CD 850-5 and CD 850-6A

f. "P" source coded items with missing National stock numbers are items which are not recorded in the Army master data file (AMDF) and cannot be requisitioned from the supply system. When these stock numbers are broadcast in the AMDF, they will be provided by a change to the manual. If justified, these items may be requisitioned on an exception basis using the Army part number or manufacturer's part number and code."

5. How to Locate Repair Parts

a. *When National Stock Number or Part Number is Unknown:*

(1) *First.* Using the table of contents, determine the functional subgroup within which the repair part belongs. This is necessary since illustrations are prepared for functional subgroups, and listings are divided into the same groups.

(2) *Second.* Find the illustration covering the functional subgroup to which the repair part belongs.

(3) *Third.* Identify the repair parts on the illustration and note the illustration figure and item number of the repair parts.

(4) *Fourth.* Using the Repair Parts Listing, find the figure and item number noted on the illustration.

b. *When National Stock Number or Part Number is Known:*

(1) *First.* Using the Index of National Stock Numbers and Part Numbers, find the pertinent

National stock number or part number. This index is in ascending NIIN sequence followed by a list of part numbers in ascending alphameric sequence, cross-referenced to the illustration figure number and item number.

(2) *Second.* After finding the figure and item number, locate the figure and item number in the repair parts list.

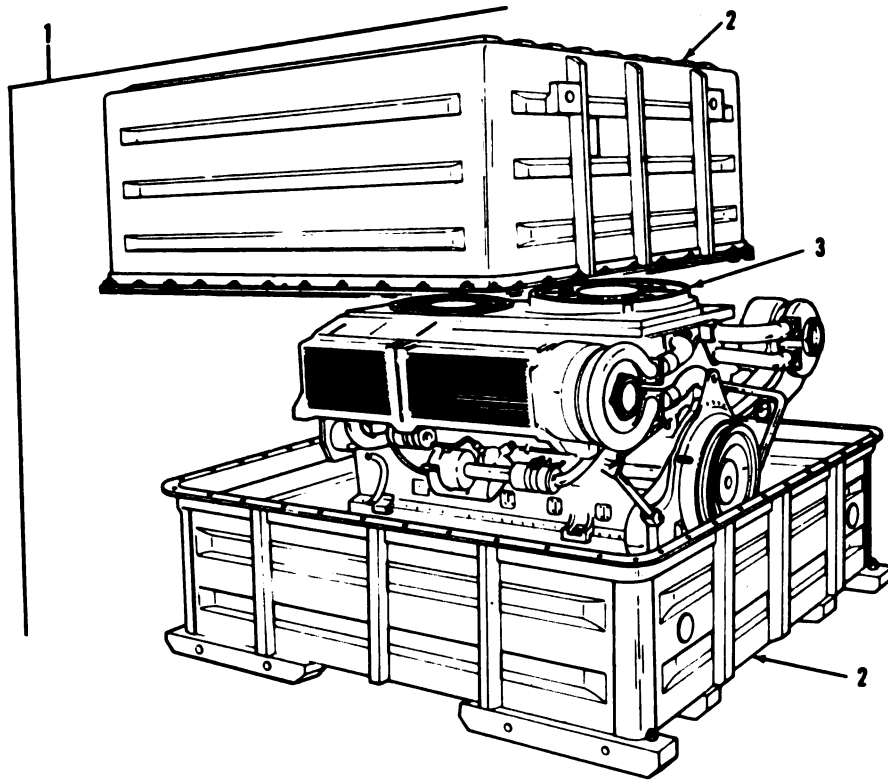

6. Abbreviations

<i>Abbreviations</i>	<i>Explanation</i>
ACCESS	accessory
ADJ	adjust
ADPTR	adapter
AMMO	ammunition
APPROX	approximately
ASSY	assembly
BRKT	bracket
BRG	bearing
BTRY	battery
CB	circuit breaker
CFM	cubic feet per minute
CONN	connector, connection
CP	candle power
CTR	center
CW	clockwise
CYL	cylinder
DIA	diameter
ELEC	electric (electrical)
ENG	engine
EQPT	equipment
EXH	exhaust
EXT	extinguisher
FT	foot
GAS	gasoline
GEN	generator
GND	ground
HSG	housing

Abbreviations

HTR	heater
HYDR	hydraulic
IDENT	identification
IGN	ignition
IN.	inch
IND	indicator
IR	infrared
L	long, left
LG	length
LKG	locking
MECH	mechanical, mechanism
MFG	manufacturing
MFR	manufacturer
MTG	mounting
NEG	negative
NPN	no part number
NO.	number
PERS	personnel
PNL	panel
POS	positive
PWR	power
QTY	quantity
R	right
RCPT	receptacle
REQD	required
RTNG	retaining
RTNR	retainer
SPRT	support
SW	switch
TACH	tachometer
TEMP	temperature
TERM	terminal
THRU	through
XMSN	transmission
V	voltage
VAC	vacuum
VERT	vertical
