

SUPPLY BULLETIN

**VEHICULAR SETS
AND
AUTHORIZED INSTALLATIONS
VOLUME II
SINGGARS, FHMUX, AND EPLRS**

Approved for public release. Distribution is unlimited.

HEADQUARTERS, DEPARTMENT OF THE ARMY

30 JUNE 1999

TABLE OF CONTENTS

Chapter	Page	Chapter	Page
1 INTRODUCTION.....1-1		3-7 TRUCK, EXPANDABLE, 2 1/2 TON, M291, M292.....3-7	
1.1 PURPOSE.....1-1		3-8 TRUCK, EXPANDABLE, VAN, 5 TON, M820.....3-7	
1.2 SCOPE.....1-1		3-9 TRUCK, EXPANDABLE, VAN, 5 TON, 6 X 6 M934, M935.....3-8	
1.3 GENERAL.....1-1		3-10 TRUCK, SEMI-TRAILER, VAN ELECTRONIC, AN/ASM-129/189/373.....3-8	
1.4 DEFINITIONS.....1-2		3-11 TRUCK, TRACTOR, 10 TON, M911.....3-8	
1.5 REFERENCES.....1-2		3-12 VEHICLE, COMMERCIAL, UTILITY, CARGO, M1008A1.....3-8	
1.6 INFORMATION.....1-3		3-13 VEHICLE, COMMAND, UTILITY, CARGO, M1009.....3-9	
1.7 LIST OF ABBREVIATIONS.....1-3		3-14 VEHICLE, COMMERCIAL, UTILITY, CARGO, M1010, AMBULANCE...3-9	
2 GUIDANCE FOR SELECTION OF RADIOS AND INSTALLATION KITS.....2-1		3-15 VEHICLE, HIGH MOBILITY, MULTI-PURPOSE WHEELED 1 1/4 TON UTILITY, TRUCK, HMMWV SERIES, EXCEPT SHELTER CARRIERS.....3-9	
2.1 TYPES OF VEHICLES.....2-1		3-16 TRUCK, TRACTOR M915A2.....3-10	
2.2 ELECTRONIC EQUIPMENT CONFIGURATIONS.....2-1		3-17 HEAVY EQUIPMENT TRANSPORTER (HET) M1070.....3-10	
2.3 SPECIAL TOOLS AND TEST EQUIPMENT.....2-2		3-18 PALLETIZED LOAD SYSTEM (PLS) M1074/75.....3-10	
2.4 REQUISITIONING.....2-2		3-19 VEHICLE, CONTACT MAINTENANCE M1031.....3-10	
2.5 DISPOSITION OF UNUSED COMPONENTS.....2-2		3-20 TRUCK, 5 TON, M923, M924, M925, M926, M927, M928, M931, M932, M933, M936.....3-11	
2.6 AUDIO EQUIPMENT.....2-2		3-21 HMMWV M998 OR M1038.....3-11	
2.7 NON SINGARS/FHMUX/EPLRS INSTALLATION KITS.....2-2		3-22 VEHICLE, MEDIUM TACTICAL, M1078-M1081, M1083-M1086, M1088-M1090, M1092-M1094.....3-11	
3 RADIO CONFIGURATION BY TYPE OF VEHICLE.....3-1		3-23 TRUCK, UTILITY, 1 1/4 TON, M1025A2.....3-11	
3.1 VEHICLE NOMENCLATURE INDEX...3-1		3-24 TRUCK, BATTALION MAINTENANCE EQUIPMENT/BATTERY MAINTENANCE GROUP, AN/TSM-164.....3-12	
3-1 CARRIER, CARGO, TRACKED, M973, SMALL UNIT SUPPORT VEHICLE (SUSV).....3-5		3-25 GROUP, COMMAND RELAY, AN/MRC-137.....3-12	
3-2 SHELTER, ELECTRONIC SHOP, AN/ASM-146.....3-6			
3-3 TRUCK, 2 1/2 TON, M34, M35, M35A1, M35A2, M36.....3-6			
3-4 TRUCK, 5 TON, 6 x 6, M52, M54, M543, M543A2, M813, M814, M816, M818, M819, M821.....3-6			
3-5 TRUCK, 5 TON, M109.....3-6			
3-6 TRUCK, CARGO, WITH WINCH, M985, TRUCK WRECKER, RECOVERY, M984 TRUCK, TANK, FUEL, 8 X 8 WITH WINCH M978.....3-7

CHAPTER 1

INTRODUCTION

1.1 PURPOSE

- a. This bulletin provides guidance to using units on the methods to be used for authorizing, requisitioning, installing, replacing, or returning of excess components for radios and electronic equipment installed in vehicles.
- b. A minisuppressor has been developed for some tracked vehicles where space limitation prevents the installation of the larger suppressor MX-7778A. All suppressors are included in the installation harness.
- c. The MK-2499/VRC is the only Installation Kit for Communications Security Equipment (COMSEC) used by SINCGARS. The requirement for this Installation Kit is one per vehicular mounted RT-1439/VRC requiring secure operation.

1.2 SCOPE

This bulletin is applicable to all using units that have a need for radios, COMSEC equipment, and electrical transient suppressors contained in TOE and TDA authorized configurations by National Stock Numbers. This bulletin is not intended to be used as a basis of issue. SB-11-131-2 may be used as an authorization to requisition parts.

1.3 GENERAL

- a. *Selection of Appropriate Electronic Equipment.* When radios are required for installation in vehicles, this bulletin will be used as a guide in the selection of the appropriate electronic and communication equipment.
 1. section 2 and section 3 identify the types of vehicles in which radios may be mounted, the types of radios appropriate for these vehicles are required for installation harnesses and installation kits. These sections also provide guidance for authorization and requisitioning and instruction for return and replacement of these equipments.
 2. section 4 contains basic units listings with National Stock Numbers (NSNs) and technical manuals.
 3. section 5 contains components listings by National Stock Number (NSN) sequence and Procurement Parts Lists (PPL) of all accessory kits, installation kits and harnesses

for installation and use with the radio when installed in combat, tactical, and nontactical vehicles and facilities.

4. section 6 contains a cross-reference of Maintenance Kit (MK) numbers to National Stock Numbers (NSN).
 5. section 7 contains a cross-reference of Procurement Parts List (PPL) numbers to National Stock Number (NSN).
 6. section 8 contains a cross-reference of Maintenance Kit (MK) numbers to Line Item Number (LIN).
 7. section 9 contains a cross-reference of Technical Bulletin (TB) numbers to MK number.
 8. Section X contains a list of Installation Kits (IKs) under development.
- b. *Audio Equipment.*
 1. *Combat Vehicles (Tracked) & Self Contained Systems.* Tanks, Self-Propelled Weapons, Armored Personnel Carrier, Electronic Systems or like vehicles/systems.
 - a. *Audio Equipment.* The audio equipment (Armored vehicle crewman's DH-132 Helmet) is not supplied as a part of the installation harness. The Helmet DH-132, must be included in the authorization document by the document proponent to provide the necessary audio equipment. Other required Audio Equipment needed in these vehicles/systems is provided as part of the installation kit.
 - b. *Requisition.* The Helmet, DH-132, must be authorized and requisitioned separately.
 2. *Tactical (Wheeled) Vehicles.* The audio equipment is included as part of the installation kit and need not be requisitioned separately.
 - c. *Stop-Gap Installations.* When stop-gap installations are required for maneuvers, special projects, field tests and emergency situations, or when special installations are required and not listed in this bulletin, requests should be submitted to Commander, US Army Communications-Electronics Command and Fort Monmouth, ATTN: AMSEL-RD-C2-PG-V, Fort Monmouth, New Jersey 07703-5000.

- d. *Authorized Items.* The following items must be authorized in the TOE/MTOE/TDA/MTDA and requisitioned separately in accordance with the authorized quantities to complete the radio configuration in the vehicles.
 - 1. Combat vehicles (tracked).
 - a. Vehicle.
 - b. Radio (basic unit).
 - c. Helmet DH-132.
 - 2. Tactical vehicles (wheeled).
 - a. Vehicle.
 - b. Radio (basic unit).
 - c. Installation kit for vehicle radios.
 - 3. Electronic Systems.
 - a. Vehicle.
 - b. Radios.

1.4 DEFINITIONS

- a. *Radio Set - Basic Unit.* The basic unit radio set consists of receiver-transmitters, amplifier-adapters and amplifiers with associated cables.
- b. *Installation Kit.*
 - a. *Tactical Vehicles (Wheeled).* The installation kit is a combination of items required to install specific radio equipment in a given type of vehicle. Items are readily installed and do not become a part of the vehicle. Installation kits for wheeled vehicles are generally separately authorized on the TOE, TDA, or other authorization document and are accountable on property books.
 - b. *Combat Vehicles (Tracked)/Electronic Systems.* (see section e). Installation kits for combat tracked vehicles/electronic systems consist of radio mountings, cables, antenna, and other selected items required. Installation kits for tracked vehicles are generally not authorized on TOE, TDA, or other authorization document and are not accountable on property books. When SINCGARS IKs are installed, the removed installation harness components for the VRC-12 series radio must be returned to the supply system in accordance with supply regulations or as directed by CECOM.
- c. *Installation Harness - Electronic Equipment.* The installation harness consists of radio mountings, cables, control units and brackets installed in combat (tracked) vehicles/electronic systems prior to issue, designed for use with specific radios in a specific vehicle/systems. Components of the intercommunications system (AN/VIC-1) (where required) are installed as part of the harness, prior to issue of vehicles/systems and remain in the vehicle/system along with all other components of the harness.

- d. *Nonstandard Installations.* Stop-gap installations, nonstandard or unauthorized installations are required for maneuvers, special projects, field tests and emergency situations.
- e. *Single Channel Ground Airborne Radio System (SINCGARS).* The Single Channel Ground Airborne Radio System (SINCGARS) will replace the AN/VRC-12 series radios. SINCGARS radio is designed as a jam resistant, secure means of tactical communications. Available in either manpack (portable) or vehicular mounted configurations, the SINCGARS will provide the Army with a reliable, easily maintained tactical radio system for command and control.
- f. *Frequency Hopping Multiplexer (FHMUX).* The Frequency Hopping Multiplexer will replace the TD-1288/1299 single channel multiplexers. The FHMUX is a multiplexer which can allow up to four Very High Frequency-Frequency Modulation (VHF-FM) radios to operate at the same time, in either a stationary or mobile mode, while utilizing only one antenna. Current multiplexers do not have the capability to operate with SINCGARS while in a frequency hopping mode.
- g. *Enhanced Position Locations Reporting System (EPLRS).* The EPLRS system provides near real time, jam resistant, secure data distribution, and communications, identification, position location, navigation aid and automatic reporting for tactical forces. Various applications are the manpack, wheeled and tracked vehicles, aircraft and grid reference.

1.5 REFERENCES

- a. DA Pam 25-30 (microfiche), Consolidated Index of Army Publications and Blank Forms.
- b. AR 725-50, Requisitioning Receipt of Issuing System in Update.
- c. AR 710-2, Supply Policy Below the Wholesale Level as Contained in Unit Supply Update.
- d. DA Pam 710-2-1, Using Unit Supply System Manual Procedures as Contained in Unit Supply Update.
- e. Army Master Date File (AMDF) (microfiche).
- f. SB 700-20, Army Adopter/Other Items Selected for Authorization/List of Reportable Items. The Purpose of this bulletin provides a list of Army adopted items and other selected items for use in conjunction with the Army Authorization Document System and Common Table of Allowance, the Army Maintenance Management System, the Preparation and Maintenance of Property Book, Pages/Stock Records and Cataloging and Supply Management Data. It also identifies items assigned reportable item control codes 2 and 3 and is the guide for all units, organizations and installations responsible for furnishing reports as prescribed by Chapter 2, AR 710-3.

Special Instructions are provided in section 1.5 of this bulletin for Specific Commodity Managers.

- g. DA Pam 310-9,(c) Index of Communications Security (COMSEC) Publications.

1.6 INFORMATION

Any inquiries/request for information can be directed to the Communications-Electronics Command (CECOM), ATTN: AMSEL-LC-COM-R-MR, Fort Monmouth, NJ, at COMM (732) 532-5038 - DSN 992-5038, or PM, Tactical Radio Communications Systems, Fort Monmouth, NJ, at COMM (732) 532-0635 or DSN 992-0635.

1.7 LIST OF ABBREVIATIONS

The following is a list of abbreviations used in this bulletin.

ABBREVIATIONS

AAA	Anti-Aircraft Artillery
AB	Antenna Base
ACCY	Accessory
ACE	Armored Combat Earthmover
AF	Audio Frequency
AM	Amplitude Modulation
AMDF	Army Master Date File
AMP	Amplifier
ASSY	Assembly
CAD	Cadmium
CECOM	Communications-Electronics Command
CFE	Contractor Furnished Equipment
COMSEC	Communications Security
CUCV	Commercial Utility Cargo Vehicle
DC	Direct Current
DIA	Diameter
DMD	Digital Message Device
EA	Ea
ELEC	Electric or Electrical
FIST-V	Fire Support Team Vehicle
FM.	Frequency Modulation
FREQ	Frequency
FSCM.	Federal Supply Code for Manufacturers
FT	Feet or Foot
GFE	Government Furnished Equipment
GP	General Purpose
GRP, GP, GR.	Group
H	Headset
HD	Head
HEMTT	Heavy Expanded Mobility Tactical Truck
HEX	Hexagon
HMMWV	High Mobility Multi-Purpose Wheeled Vehicle
ID	Inside Diameter
IET	Internal/External Teeth
IN	Inch
IPS	Iron Pipe Size
LARC	Landing Amphibious Resupply Cargo
LAV	Light Armored Vehicle

LAV-AT	Light Armored Vehicle - Anti-Tank
LAV-L	Light Armored Vehicle - Logistics
LAV-M	Light Armored Vehicle - Medium
LAV-R	Light Armored Vehicle - Recovery
LG	Long
LIN	Line Item Number
LS	Loud Speaker
MAX	Maximum
MCRL	Master Cross-Reference List
MED	Medium
MIC	Microphone
MIL-STD	Military Standard
MIN	Minimum
MK	Maintenance Kit
MLRS	Multiple Launch Rocket System
MM	Millimeter
MODEM	Modulator-Demodulator
MRP	Materiel Return Program
MS	Mast Section
MT	Mount
MTDA	Modified Table of Distribution and Allowances
MTOE	Modified Table of Organization and Equipment
NOM	Nominal
NSN	National Stock Number
NYA	Not Yet Assigned
OD	Outside Diameter
OZ	Ounce
PM	Program Manager
PPL	Procurement Parts List
PWR	Power
RCV/SEND	Receive/Send
RD	Round
REF. No	Reference Number
RF	Radio Frequency
RH	Right Hand
RO	Roll
RT	Receiver-Transmitter
SB	Supply Bulletin
SEL	Selector
SINGARS	Single Channel Ground Airborne Radio System
SP	Special Purpose
SPFT	Self-Propeller, Full Tracked
ST	Self-Tapping
SUSV	Small Unit Support Vehicle
SYN	Synthetic
TACOM	Tank Automotive Command
TAG	The Adjutant General
TAMMS	The Army Maintenance Management System
TDA	Table of Distribution and Allowances
TOE	Table of Organization and Equipment
TMFABF	Transporter, Mobile Floating Assault Bridge Ferry

CHAPTER 2

GUIDANCE FOR SELECTION OF RADIOS AND INSTALLATION KITS

Table 2-1 NOTES

1. For General Information use Chapter 1 of SB 700-20.
2. For line item numbers use Chapter 2 of SB 700-20.
3. For kits use Appendix A of SB 700-20.
4. For Cross-Reference NSN to LIN use Appendix B of SB 700-20.
5. For NSN to LIN refer to Army Master Data File (AMDF).
6. For NSN or PPL or Kit Number refer to Master Cross-Reference List - 1 (MCRL-1) and Master Cross-Reference List - 2 (MCRL-2).

2.1 TYPES OF VEHICLES

- a. The vehicles listed in section 3 are appropriate for installation of radio sets. After determining the type of vehicle required, refer to section 3.1 for further instructions in selecting the complete radio configurations.
- b. section 3.1 list tactical (wheeled) and administrative commercial type vehicles, combat (tracked) vehicles and electronic systems. The following guidance is provided:
 1. *Tactical (wheeled) and Administrative/Commercial Type Vehicles.*
 2. The tactical (wheeled) and administrative/commercial type vehicles will be authorized separately in the authorization document (TOE/MTOE/TDA/MTDA) by the line item number(s) (LIN) shown in SB 700-20 less the basic radio and the installation kit. The consignee is responsible for requisitioning the communication equipment.
 3. When transferred or returned for overhaul, storage or to supply channels, the basic radio, and the installation kit will be removed from the vehicles installation for another appropriate vehicle or returned to supply channels if no longer required.
- c. *Combat (tracked vehicles) and Electronic System.*
 - a. Combat (tracked) vehicles/electronics systems will be authorized separately in the authorization documents (TOE/MTOE/TDA/MTDA) by the line item number(s) (LIN) shown in SB 700-20 less the basic radio and the DH-132 Helmet. The installation harness is installed in the vehicles prior to issue and will not be requisitioned

separately. All combat vehicles/electronic systems will have an AN/VIC-1(V) installed where required. The consignee is responsible for the requisitioning of all other communications equipment to complete the configuration.

- b. When transferred or returned for overhaul, storage or to supply channels, the radio basic unit will be removed from the vehicle for installation in a like vehicle or returned to supply channels if no longer required.
- c. The installation harness will remain in the vehicle when it is transferred or returned for overhaul.

2.2 ELECTRONIC EQUIPMENT CONFIGURATIONS

- a. *Basic Radio Set.* Determine the nomenclature and type of basic radio to be mounted in a specific type of vehicle. Radios will be authorized separately in the authorization document by the line item number(s) (LIN) shown in SB 700-20. The radios shall be removed from the vehicle when the vehicle is transferred, returned for overhaul or placed in storage.
- b. *NSN for Basic Radio Set.* The National Stock Number for the basic radio is identified in section 4.1.
- c. *Installation Kit.*
 1. The installation kit is required to install a given type of radio in a given type of tactical or administrative commercial type (wheeled) vehicle or to convert the wiring harnesses of combat (tracked) vehicles or electronic systems to SINCGARS or EPLRS.
 2. If required, the installation kit will be included in the appropriate authorization document TOE/MTOE/TDA/MTDA by the proponent of

the document in accordance with the line item number(s) (LIN) as shown in SB 700-20.

3. The installation kit must be requisitioned separately in accordance with the authorized quantity shown in the authorization document and the user will perform the installation in the field.
4. The installation kits which do not become part of the vehicle or system will be removed from the vehicle when the vehicle is transferred, returned for overhaul or placed in storage. The authorization document must be changed to delete this item when it is no longer required.

2.3 SPECIAL TOOLS AND TEST EQUIPMENT

Special tools and test equipment are not required for the installation kits or accessory kits. The tools and test equipment required for maintenance of a specific configuration are listed in technical manuals (TMs) and repair parts and special tools lists (RPSTLs) covering individual radio sets.

2.4 REQUISITIONING

- a. When vehicles (wheeled) with radio sets are to be turned in or transferred, the installation kit will be removed and reinstalled in a new replacement vehicle or returned to the supply system. Defective items which

require replacement to complete installation should be requisitioned separately as individual items.

- b. Combat vehicles (tracked) and electronic systems are normally received with an installation harness installed prior to issue. If the installation harness has not been converted for SINCGARS/EPLRS use this publication as authority to requisition a SINCGARS/EPLRS installation kit to convert the harness to operate with SINCGARS/EPLRS.

2.5 DISPOSITION OF UNUSED COMPONENTS

When various components of vehicular radios are installed for specific applications, unused components will be processed in accordance with AR 725-50, Chapter 7.

2.6 AUDIO EQUIPMENT

Installation harnesses for tanks do not contain audio equipment. Audio equipment is part of the DH-132 helmet. The helmets are issued in regular or large sizes as listed in CTA 50-9000 and are supplied by the Defense Logistics Agency.

2.7 NON SINCGARS/FHMUX/EPLRS INSTALLATION KITS

Non SINCGARS/FHMUX/EPLRS Installation Kits can be found in SB 11-131-1.

CHAPTER 3

RADIO CONFIGURATION BY TYPE OF VEHICLE

3.1 VEHICLE NOMENCLATURE INDEX

Radio configuration for the following vehicle types are described in this section, require LINs and must be supported by TOE documentation.

CHAPTER 5

COMPONENTS LISTING BY NATIONAL STOCK NUMBER (NSN) SEQUENCE
AND PROCUREMENT PARTS LIST (PPL)

Table 5-109 NOTES

1. Installation kits (on wheeled-type vehicles) are the responsibility of the using units and are to be requisitioned and installed in the field.
2. Installation kits are required to install a specific radio in a given type of tactical (wheeled) vehicle. This includes kits (formerly identified as general purpose installation units) designed for use with and installation radios in administrative/commercial type vehicles. Items contained in kits are readily installed and do not become a permanent part of the vehicle.
3. Installation kits are requisitioned by the using unit in accordance with the authorized quantity and will be installed in the field.
4. Installation kits are items required in some cases when more than one radio set is to be installed in a particular vehicle. Kits are readily installed and removed and do not become a permanent part of the vehicle.
5. In combat vehicles, the installation harness is installed prior to issue. In some instances, combat vehicles being rebuilt did not require reinstallation of AN/VIC-1(V) prior to issue to using units. These vehicles must have an AN/VIC-1(V) reinstalled even when the using unit does not require reinstallation of an AN/VIC-1(V). The recipient requisitions the accessory kits and basic units.
6. The Installation Instructions/Technical Bulletins are expendable; if lost or destroyed, requisition as required.
7. These Installation Instructions/Technical Bulletins contain technical data and illustrations.
8. Vehicles should not contain more than one AN/VIC-1(V). Combat vehicles must contain one AN/VIC-1(V) prior to issue.
9. To requisition parts when the NSN is not listed, use the Federal Supply Code for Manufacturer (FSCM) and the part number.

NOTE

For Government Procurement use only when procuring this kit for use with RT-1523C/VRC and RT-1523D/VRC. The following parts must be procured as separate line items. These parts are required for the operation of the LS-671 loudspeaker with the Radio Transceiver. These items are not a part of this kit.

NOTE

For Government Procurement use only when procuring this kit for use with RT-1523C/VRC and RT-1523D/VRC. The following parts must be procured as separate line items. These parts are required for the operation of the LS-671 loudspeaker with the Radio Transceiver. These items are not a part of this kit.

NOTE

For Government Procurement use only when procuring this kit for use with RT-1523C/VRC and RT-1523D/VRC. The following parts must be procured as separate line items. These parts are required for the operation of the LS-671 loudspeaker with the Radio Transceiver. These items are not a part of this kit.

CHAPTER 6

CROSS-REFERENCE MAINTENANCE KIT (MK) NUMBER TO NATIONAL STOCK
NUMBER (NSN)

Table 6-226

1. Table 6-1 contains cross-reference numbers to NSNs.
2. A kit may have been superseded to a new kit number, the old number has been retained and refers the reader to the new type number.
3. In reference to the installation harnesses, they may be identified by National Stock Number in section 7.

CHAPTER 7

CROSS-REFERENCE PROCUREMENT PARTS LIST (PPL) TO NATIONAL STOCK
NUMBER (NSN)*Table 7-230 NOTES*

1. Table 7-1 contains PPL numbers cross-referenced to NSN for currently used installation kits, accessory kits and installation harnesses.
2. Where a PPL has been superseded to a new PPL number, the old number is retained and refers to the new number.
3. In cases where a NSN has not been assigned proper identification of the PPL, it may be determined on the previous issue of the PPL.

CHAPTER 8

CROSS-REFERENCE MAINTENANCE KIT (MK) NUMBER TO LINE ITEM
NUMBER (LIN)*Table 8-234 NOTES*

1. Table 8-1 contains a cross-reference from Maintenance Kit (MK) to Line Item Number (LIN) for MKs that require TOE/MTOE/TDA documentation.
2. In reference to the Maintenance Kit (MK), they may be identified by National Stock Number (NSN) in section 6.
