

You have identified the enemy tank in the open located at grid GL092866 and your location at grid GL094889. The direction to the target is 187 degrees, and the distance is estimated at 2400 meters, as determined by map measurement. The closest friendly troops are more than 1500 meters east of the enemy tank location. Your patrol has no direct fire anti-tank weapons, so the patrol leader directs you to formulate a call for fire and destroy the tank with artillery fire. Your call sign is Tango 21. The call sign for your supporting fire direction center (FDC) is Charlie 15. During the patrol briefing you were told that High Explosive (HE) would be available for enemy hard target destruction, and Improved Conventional Munitions (ICM) would be available for personnel targets.
